INTRODUCTION

## Message from Oriental Press

In Korea, the month of May is a time when everything comes to life after a long winter, and a variety of flowers are in full bloom across the country.

Since the Korean War (1950–1953), Korea's security has been assured thanks to the US-RoK Alliance, the dedication of service members and DoD employees, and the support of their family members

Moving to the Republic of Korea is an experience that comes with challenges and opportunities. I am grateful to the Humphreys United Spouses Club volunteers for continuing publication of this guidebook, *DMZ to the Sea*, to help you find your way around and support you as you embrace opportunities. The publication was originally titled *Seoul Survivor* and coordinated by the former Armed Forces Spouses Club over 30 years ago. It has been a pleasure to uphold the efforts of spouses to support their communities, impressive to see the guidebook developed and expanded each year, and inspiring to see the dedication of volunteers to revise this resource annually.

Thank you very much to the Ms. Arielle Dunbar, the editor for *DMZ to the Sea 2022-2023*, and Ms. Caitlin Ward, the Humphreys United Spouses Club President, 2021-2022 for their hard work over the past year.

I hope *DMZ to the Sea* enhances your experience in Korea and helps you make this your home while you are here.

Best Regards,

Charles Chong, CEO

## Letter from the United Club President

Welcome to The Republic of Korea! Your new home is a place full of adventures, cultural experiences, incredible temples and museums, countless islands, a variety of festivals, and flavorful, spicy and pungent foods. There is so much to see, do, taste, and learn.

DMZ to the Sea is designed to help you find your way around, both on base and off base. When I arrived in 2019, I referred to this guidebook often to find my way around Maude Hall, familiarize myself with the variety of resources and programs on base, and get a window into the incredible country outside the gates. I hope you find the same sense of support and reassurance through this guidebook and that you enjoy the entertaining, breathtaking, and thought provoking experiences ahead of you in Korea - embrace the opportunities!

Humphreys United Spouses Club is proud to produce this guidebook and we see it as a reflection of our mission to improve and advance quality of life on the installation and in our surrounding communities. The Humphreys community is welcoming, supportive, diverse, inclusive, encouraging, and empowering. Humphreys United Spouses Club is dedicated to maintaining that environment and building our community. We appreciate you picking up a copy of this book and if you have questions or need more information, please reach out to us.

Thank you to the DMZ Chair Arielle Dunbar for leading and coordinating the efforts to produce this edition of DMZ to the Sea. Thank you to everyone on the DMZ to the Sea Committee for your countless volunteer hours revising the previous edition to ensure information is relevant, timely, and helpful for readers. It takes a village to make a guidebook!

Thank you to our longtime supporters at Oriental Press, Mr. Charles Chong and Mr. Eric Park without whom this publication would not be possible. We are grateful for and inspired by your endless support of the military spouse community.

## Letter from the Editor

The DMZ to the Sea Committee is proud to present the Fifth Edition of DMZ to the Sea for 2022-2023! Moving to the Republic of Korea can be an intimidating prospect, particularly if it is your first PCS overseas or even your first PCS ever. Over the last several months, the committee has been working to ensure we are sharing the most up to date information available for this guidebook about the PCS process and how to make South Korea your new home. I would like to thank

Oriental Press for its continued partnership with the Humphreys United Spouses Club in preparing DMZ to the Sea throughout the years.

One of the benefits of being part of the military community is having the opportunity to be stationed in new places like South Korea. We encourage you to embrace your time in the Land of the Morning Calm by learning about the culture, exploring the sites, and being engaged in the community, both on and off post. From mountains to beaches, from historical palaces and temples to modern cityscapes and art installations, from traditional markets to some of the largest department stores and malls in the world, there is something (or hopefully many things!) for everyone.

My family arrived in South Korea during the early days of the COVID-19 pandemic. While we were in the quarantine barracks, a family gifted us a copy of DMZ to the Sea and it gave me even more to look forward to once we were released from quarantine. As COVID-19 restrictions continue to lift in South Korea, the country and opportunities are much different than when we first PCSed here and I am excited about the possibilities that you and your families will have during your time in South Korea.

I hope DMZ to the Sea will help you with your transition to this new duty station and encourage you to share this resource with others PCSing to South Korea.

Welcome to South Korea!

## History of Spouse Clubs

By Caitlin Ward

In May of 1780, Esther Reed and 39 other wives formed the first military wives' club. The purpose was to raise money among citizens for the Soldiers who during the Revolutionary War were experiencing a shortage of supplies. Members of the group, which they called the Philadelphia Ladies Association, or "the Association," distributed fliers, knocked on doors to solicit funds, made soap, knitted socks, and made shoes. Through correspondence with General George Washington, Esther understood the Soldiers' greatest need was for shirts, so the women correspondingly redirected their efforts.

As the nation developed and expanded, wives following Soldiers West, assumed the role of maintaining normalcy and civility by meeting socially, coordinating performances, reading groups, sewing, and community planning. Military wives in the East formed societies that met regularly, kept minutes, developed organizational skills, and were dedicated to building and advancing their communities. Many wives in these societies worked for social issues such as signing the 1892 anti-Suffrage petition, obtaining adequate pensions for Army widows, and helping found Navy Relief.

Between World War I and World War II, more formally organized clubs were developed, such as the Association of Army/Navy Wives and the Air Force Service Ladies' Club. The focus of the clubs changed during WWII from social activities to war work including sponsoring activities to boost Soldier morale, sewing, knitting sweaters, making bandages, selling war bonds and stamps, working in auxiliary military units such as the Navy WAVES (Women Accepted for Volunteer Emergency Service). In the decade after WWII, clubs developed a structure wherein club officers were elected by club members and wives of senior officers took honorary and advisory roles.

In recognition of needs in the community, wives' clubs opened thrift shops, flower shops, and gift shops; published club magazines and protocol guides; and organized and staffed the first post nurseries to provide volunteers a place to leave their kids. Noncommissioned officers' wives' clubs and enlisted men's wives' clubs also formed at this time with a synonymous dedication to supporting welfare and community activities.

When the Army transitioned to an all-volunteer force in the 1970s, more service members were married, and more quarters were built so

more families lived on post. As the strict formality of clubs in earlier years was relaxed, more wives were willing to participate in club work, particularly young, educated, enthusiastic professionals. As clubs developed more significant financial assets and responsibilities, clubs were reorganized into two parts: a charitable arm that gave significant financial contributions to the community through grants and scholarships, and a social arm that focused on strengthening bonds through shared social experiences.

By the 1980s, welfare programs built by wives' clubs such as childcare centers, Army Community Services, and youth centers had been taken over by the Army. This decade also saw increased presence and participation of Army husbands and correspondingly some clubs changed their names to "spouses clubs." Clubs expanded their activities during this time with craft fairs, bazaars, specific interest groups, and classes.

Today some posts have separate clubs for officers' wives, NCO wives, and enlisted Soldiers' wives. Other posts host clubs that welcome spouses of all ranks and branches, US sponsored foreign and internationals, and DOD civilian ID cardholders. Clubs remain dedicated to educational, charitable, cultural, and social activities; provide information to members; and foster fellowship among spouses. This includes lessening the burden of the government by promoting friendship among the entire military community (including all branches of service, active-duty, retirees, spouses, and others), lessening neighborhood tensions by developing and fostering a spirit of goodwill and community responsibility, providing opportunities for social, cultural, and creative pursuits, and distribution of scholarships for individuals, grants for organizations, and support for the local community.

Spouse clubs operate in compliance with Army regulations pertaining to private organizations and the Internal Revenue Code. Spouse clubs are led by a board that includes honorary, elected, and appointed positions. Honorary positions are offered to senior spouses on base who volunteer their time to advise and provide guidance to the elected officers. Elected officers manage the club's affairs and provide support to appointed board members, who manage specific events, activities, and tasks. Spouse clubs operate on year-long board terms, holding an election each Spring for the next board. Comprehensive and collaborative transfer of information from one board to the next supports continuity and community building.

In the Republic of Korea, the former Armed Forces Spouses Club of Yongsan, which closed its doors in 2017, supported the community at Yongsan and with the support of Oriental Press, published Seoul

Survivor, a guidebook to help foreigners navigate both on and off base. In 2017, Humphreys United Spouses Club (formerly named the United Club Spouses and Civilians Association) took over publication of the guidebook and renamed the publication DMZ to the Sea. The guidebook provides information about the ins and outs of resources on US military bases across Korea, as well as resources and opportunities outside the gates.

The spouse clubs and spouse communities at US military installations across Korea have fostered supportive relationships with each other, continuing the legacy of spouses as serving the community as a united front, advancing and improving quality of life in the community. Through these clubs and communities, spouses support one another, thereby building their collective and individual resiliency, facilitating communication, strengthening bonds, and enhancing the connective tissue across our communities, which thereby enhances the readiness of our families, service members, and military.

## About DMZ to the Sea

---

This publication, formerly known as Seoul Survivor, was originally conceived, written, and compiled by Judy Bridenbaugh to ease the frustration experienced by military members and their families when moving to a location, especially one in a foreign country.

Humphreys United Spouses Club received the rights to the Seoul Survivor from the former American Forces' Spouses' Club of Camp Yong-san, and renamed the publication, DMZ to the Sea. Humphreys United Spouses Club is honored to continue the legacy of this instrumental guidebook and hope it will encourage families to make the most of their time here in South Korea.

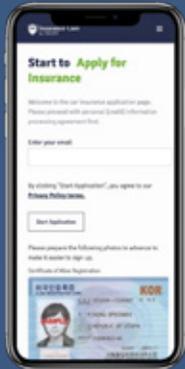

Each year, information is updated, and new material is added. CHAPTER 1 ABOUT SOUTH KOREA

## ABOUT THE REPUBLIC OF KOREA

The Republic of Korea, commonly referred to as “the ROK” and South Korea, is best described as tradition coupled with high technology – South Korea packs a punch. The country has experienced explosive economic and cultural growth over the past two decades. K-Pop, K-Dramas, and K-Beauty are known across the globe.

South Korea is a vibrant country of nearly 52 million people who work hard to define and maintain a fast-paced, modern society. South Koreans are world travelers, world-class economic competitors, and highly regarded participants in world affairs. The South Korean people’s spiritual wealth, traditional respect for elders, strong belief in community, love of nature, and deeply seated national pride underpin their meteoric economic and commercial accomplishments over the last thirty-one years.

An open mind and desire to experience and appreciate cultural differences make a tour of duty here in Korea memorable. Get out, explore, and experience Korea, a country that has methodically inched its way towards the top in economy and culture. Embark with a sense of adventure and be surprised in new and wonderful ways.

South Koreans are generally very welcoming and friendly to foreigners. Many of them will exert themselves to the utmost to understand and often to aid you. Strong partnerships with the United States and other western nations mean that many South Koreans, especially in Seoul, speak some English. However, there may be barriers to communication. The keys are patience, cadence, and gratitude. Speak slowly and not loudly. Be kind in your approach and find comfort in their willingness to assist and support you. Using tools such as Papago and Google Translate mobile apps may assist when attempting to communicate.

South Korea’s history dates back more than 4,000 years. Throughout time and against the backdrop of strong cultural uniformity, their pre-modern society began to emerge in the seventh century and has evolved to the present day as a cultural quilt built of patterns of rich contrasts. Buddhist pagodas stand side-by-side with Confucian shrines and sometimes up the road from modern Christian houses of worship. As you learn more about the country’s history, you will discover that cycles of great commercial growth were set against downturns of financial decay; numerous foreign invasions are countered by internal strife.

A land-owning aristocratic scholar class once ruled over a rigid social structure, supported by less-respected merchants and agricultural

peasants who toiled as tenant farmers. South Korea's rise as an economic powerhouse and exporter of culture is astounding given the amount of time they have formally existed as the present-day South Korea. We hope you enjoy learning about South Korea's past, especially to put the present into perspective.

You may notice the following during your time in South Korea:

**Industry:** According to the World Bank, South Korea has grown to be the world's 10th largest economy.

**Work Ethic:** The official work and school week is Monday through noon Saturday.

**Family:** The second and fourth Saturdays are not official workdays and are spent with family.

**Traffic:** Everyone tries to "get there first." The traffic in many parts of South Korea is legendary and rivals the worst that New York, Paris, London, or Washington, DC has to offer. The government has worked to improve the driving culture to ensure safety for everyone traversing the nation in private automobiles. For example, in 2021, the maximum speed limit for urban streets was reduced as part of efforts to reduce deadly vehicle accidents.

**Colorful Cuisine:** South Korea is THE up-and-coming place to travel for foodies. South Korean food culture embraces the new and honors the traditional. Garlic is a national food staple. It is used extensively in South Korean dishes, especially the famous Kimchi (fermented spiced, pickled cabbage). Mixing the sweet and savory is common here – do not forget to try the honey garlic toast and to visit all the cafes.

**Clothing:** South Koreans are much more formal in their dress than most Westerners and take great pains with their appearance. You will likely never see a South Korean out in public wearing shower shoes or pajama pants. South Korean fashion sense, heavily influenced by Western Culture, is centered around expressiveness and individuality. Many South Koreans still opt to wear formal traditional garments on holidays or for formal occasions. The traditional South Korean dress is a graceful, full-length garment called "hanbok."

**The South Korean Alphabet - H+angul:** This phonetic alphabet, invented by King Sejong and a group of scholars in 1443, is straight-forward, but often intimidating to foreigners. For the 1988 Olympics in Seoul, South Korea had most major road and street signs printed in both Hangul and English.

**The Jostling Crowds:** Space is precious in Seoul. South Koreans are accustomed to tight crowds, and they assume everyone else is too. Therefore, pushing and shoving without an apology is normal and not to be taken personally.

**The Markets:** Nowhere in the world, Hong Kong included, do the markets and shopping areas rival those of Seoul. Itaewon, located just outside U.S. Army Garrison (USAG) Yongsan, is widely regarded as one of the most famous of the Korean shopping destinations. Traditional South Korean markets such as Dongdaemun (East Gate) and Namdaemun (South Gate) in Seoul are not as western style as Itaewon. In traditional markets, products are grouped according to type and are readied for retail, domestic, or international markets. You will encounter rows and rows of leather jacket vendors in one place, miles of fabric in another, and thousands of electronic gadgets in yet another. The range is truly amazing, and the volume of goods is astounding!

**Constant Change:** Since even before the great industrialization boom, South Korea has been a place of constant change. New buildings, restaurants, and businesses pop up frequently. Living in South Korea is all about quickly being able to adapt to your new surroundings.

## Holidays

Holiday celebrations are an important part of family life in Korea. All celebrations, no matter how large, center on the home. Women can spend hours preparing the traditional dishes; sometimes a family's reputation depends on the amount and the quality of the food. After the holiday meal, the younger members bow to their parents and grandparents as a reaffirmation of family ties, and receive gifts of money and words of advice.

### January 1, New Year's Day (Sinjeong)

The first day of the New Year is celebrated with friends, co-workers and families. The most popular event is the bell-ringing ceremony at Bosingak in Jongno, literally "bell street," Seoul. The bell-ringing event on New Year's Eve draws people from all over Seoul. The bell ringing is preceded by a variety of events, including performances by Korean stars. Following the performances, citizens participate in the countdown to the New Year. At midnight, celebrities, civil representatives, and senior members from various fields ring the bell 33 times to welcome the new year and to wish peace and prosperity to everyone who hears the bell. The bell is rung 33 times in reference to the hope of reaching the 33rd dimension of Mount Meru, which some Buddhist cultures consider the center of the universe.

On New Year's Day, it is common for Koreans to travel to famous sunrise spots in order to make New Year's wishes as they greet the first sunrise. The sun first rises in the East Sea (Dong Hae) off the coast of Korea, so many New Year events are organized on the East Coast.

### Seollal

Seollal, the Korean Lunar New Year, is one of the most significant traditional holidays in Korea. The celebration usually last three days, including the day before and the day after the first day of the Korean lunar calendar, which falls in January or February.

It is traditional for Koreans to return to their hometowns, especially outside of Seoul, to visit parents and relatives. It is considered important and respectful. Traditional Confucian families perform ancestral rituals, play folk games, eat traditional foods, listen to stories, and talk well into the night. A common activity for families to enjoy is yutnori, a traditional board game. Yutnori is played by throwing four sticks in the air and moving your game markers around the board depending on the number of sticks facing up. Each team has four markers; the first team to get all four markers around the board wins.

Family members rise early and put on special clothing for Seollal. Following the rite, everyone eats the ritual food of Tteokguk, rice cake soup. Tteokguk is the main food of Seollal and eating it is believed to symbolize starting out the year with a clean mind and body. The soup also symbolizes adding a year to one's age. Along with eating Tteokguk, there is singing, and more traditional food is served such as kimchi, rice, and bulgogi.

### February 14, March 14, and April 14, Romantic Days

Koreans have figured out an ingenious way to extend the romantic holiday period. Traditionally in Korea, Valentine's Day is a day where women give gifts to their significant others, usually chocolate. Men return the favor on White Day, March 14, by gifting their significant others gifts in white colors. Single people are not to be left out though! Lonely singles get together on Black Day, April 14, to eat jjajangmyeon, black bean noodles.

### March 1, Independence Movement Day (Samil Jeol)

Koreans observe the anniversary of the March 1, 1919 Independence Movement against the Japanese occupation. This day was officially designated as a public holiday to commemorate men and women who died during the Independence Movement. The March 1 Independence Movement was highly influenced by US President Woodrow Wilson's Declaration of the Principle of Self-Determination at the Paris Peace Conference in January 1919.

### Buddha's Birthday (Seokgatansinil or Bucheonnim Osin Nal)

Buddha's Birthday is celebrated on the eighth day of the fourth month of the lunar calendar. Buddhist temples are adorned with lotus lanterns and many temples provide free meals (bibimbap) and tea to visitors. The day's festivities include traditional games, rope jumping, mask dances, and acrobatic shows. The day culminates with a lotus lantern parade. A very large lantern parade in Seoul takes place on the Saturday before the holidays and features thousands of participants carrying lit paper lanterns through the city streets for hours.

### May 1, Labor Day

This is not a government holiday, though many banks and businesses may be closed.

### **May 5, Children’s Day (Eorini Nal)**

On this day, the nation pays tribute to the soldiers and civilians who have given their lives for their country. At 10:00, a siren sounds, calling for a one-minute silent tribute. Memorial services are held at the National Cemetery in Seoul.

### **August 15, Liberation Day (Gwangbokjeol)**

On this day in 1945, Korea was liberated from Japan after 36 years of colonial rule. It also marks the 1948 establishment of the government of the Republic of Korea.

### **Chuseok**

Chuseok is one of the biggest and most important holidays in Korea. Chuseok falls on the fifteenth day of the eighth month of the lunar calendar (September/October). Chuseok is celebrated on that day, as well as the day before and the day after.

On the morning of Chuseok Day, family members gather at their homes and honor their ancestors through an ancestral rite called chayre. During chayre, freshly harvested rice, alcohol, and songpyeon (half-moon rice cakes) are prepared and offered to the family’s ancestors. Following the service, family members enjoy the food together. Another chuseok tradition is to

visit ancestral graves, remove weeds, and pay respects. Most Koreans will return to their hometowns during this holiday, so traffic is unusually heavy and travel times double.

### **October 3, National Foundation Day (Dangun Nal or Gaecheonjeol)**

This day commemorates the traditional founding of the Korean nation in 2333 BC by the legendary god-king Dangun. A simple ceremony is held at an altar on top of Mt. Mani (Manisan) on Ganghwa Island (Ganghwa-do) in Gyeonggi Province (Gyeonggi-do). The altar is said to have been erected by Dangun to offer thanks to his father and grandfather in heaven.

### **October 9, Korean Language Day (Hangul Nal)**

The day commemorates the invention (in 1443) and the proclamation (in 1446) of Hangul, the alphabet of the Korean language, by King Sejong the Great. Sejong the Great is considered to have been one of the most outstanding rulers in Korean history. This national holiday is celebrated with a variety of activities and events centered around students throughout the nation.

### **December 25, Christmas Day (Gidoktansinil)**

South Korea recognizes Christmas as a national holiday, however it is not a big traditional holiday to most Koreans. They do not travel to their hometowns to celebrate and gift-giving is less pronounced. Rather, Christmas is a holiday typically spent with one’s significant other. Christians will typically visit church on Christmas Eve, Christmas Day, or both. Christmas trees in Korean homes are small, and most of them are artificial. Christmas markets will appear all over Seoul, such as the Hongdae Christmas Market or the Express Bus Terminal Christmas Market. Great locations to see Christmas lights are Myeongdong shopping area, City Hall in Seoul, Cheonggyecheon, Garden of Morning Calm, and Petite France. The traditional Christmas cakes are very colorful and a very popular treat during the season.

## The Korean Language

The Korean language has evolved throughout the centuries. No one knows how long it has been spoken, and despite the geographical closeness of China and Japan, Korean is linguistically distinct from Chinese and Japanese.

Chinese characters were used in written language until the 15th century. However, since they were hard to learn and were very different from the Korean spoken language, most people remained illiterate. In 1446, after many years of study and testing, King Sejong and his scholars introduced a unique Korean alphabet. It was devised on a purely phonetic basis and consisted of 28 letters. These were arranged in syllable units, or blocks, and not into linear words. This meant the syllables could be written horizontally or vertically on a page.

From this original alphabet, Hangul, the modern alphabet has evolved over time. It has 24 letters and follows the western convention of writing from left to right. Chinese characters are rarely used today in conjunction with the Korean alphabet, as it is possible to communicate fluently without using them.

In the past, English was taught in Korean schools beginning in the seventh grade with an emphasis on grammar instead of speaking; it has been taught starting in the first grade since 1998. The mainly testing-oriented educational system means that many Koreans have memorized a lot of English grammar and vocabulary but may feel shy about their conversational skills.

### Romanization of Korean

There are several different ways to romanize Hangul, but none of them are perfect. Revised Romanization (RR) is the official romanization method used by the government of South Korea since 2000, so most of the romanization in this book will be in RR.

### Useful Korean Phrases

The following Korean phrases may assist you during your tour in Korea. They are simple conversational words and phrases designed for newcomers. Koreans will be pleased you have made the effort to learn even a little of their language. The key is not being afraid to try and having the ability to laugh at yourself.

Sino-Korean numbers are used for things like dates, money, minutes, addresses, phone numbers, and numbers above 100.

## Culture and Customs

South Korea's population shares a common ethnic and cultural heritage. More than Western people, South Korean individuals tend to view themselves as a tightly knit national community with a common destiny. Intense feelings of nationalism, so evident in athletic events like the 1988 Olympic Games held in Seoul and the World Cup soccer games of 2002, reveal a sense of pride concerning South Korea's place in the world. This section highlights important traditions, cultural attitudes, and etiquette. Your awareness of these factors will greatly reward you as you meet and interact with new Korean friends.

The DMZ to the Sea committee is grateful to Mr. Young K. Chang,

instructor at the Defense Language Institute Foreign Language Center, Presidio of Monterey, California, from whose publication, *Cultural Orientation (Korean)*, much of this chapter is extracted.

## Non-Verbal Behavior & Etiquette

Customs and attitudes are different in Asia than those in Western countries. Korea has its own set of courtesies. If you take the time to learn and observe them, the rewards are significant.

## Meeting and Greeting

The traditional bow has given way to the handshake, but friendly back slaps or arm squeezing is considered rude here. Koreans meeting for the first time introduce themselves only at the invitation of a third party. The formal ritual of introduction is similar to this: The person who knows everyone in the group invites his friends to introduce themselves. One says, "I am seeing you for the first time." The other repeats the same sentence, and the elder one suggests that they introduce themselves. The introductions and formal bows are followed by an exchange of calling/business cards. Business cards are very important in Korea. They give an opportunity for each person to discover the other's position without rudely inquiring about them. Business cards also do away with the need of asking someone's name twice. As a sign of respect, when someone presents you with a business card, take a moment to read it before putting it away.

The proper use of names in Korea is also important. A person's name is considered his or her personal property. Koreans regard their name with reverence. The persistent wave of Westernization has accustomed Koreans to being addressed by their family name, but only intimate friends and family greet each other on a first-name basis. Koreans prefer titles rather than names. For example, you would call the company president "Sa-jang-nim" or someone with a PhD "Bak-sa." Teacher or "Sun-saeng-nim" is an acceptable title for anyone.

Try to remember that no matter how "Western" many Koreans may appear on the surface, their thinking is still governed by traditions, which are based on a culture several thousands of years old. The following list covers some important traditions relating to etiquette:

- Looking into an acquaintance's eyes was generally considered impolite. Though this is not necessarily true today, older Koreans may find direct eye contact offensive.

- Use your right hand when performing tasks such as presenting gifts, paying a bill, or pouring a drink. Your left hand should loosely cup your forearm. The closer your left hand is to your wrist the less respect is being given, while your left hand cupping your forearm near your elbow would show greater respect. Using the left hand for these tasks is considered very impolite.
- Do not point the index finger toward a person or gesture with your foot, it is considered insulting. You may gesture with your full hand, palm upward.
- Do not write someone's name in red ink (e.g., endorse checks, sign letters, etc.). A name written in red means death.
- If invited to dine at someone's home, bring a gift. When presenting the gift, use proper etiquette as stated above.
- Take your shoes off when entering a Korean house or restaurant with low tables.
- Do not start eating before your guest of honor or senior.
- Do not say, "I don't drink" when offered unwanted alcoholic beverages. It is more polite to say, "I'm not feeling very well today," "I am a designated driver," or "I'm on medication."
- Do not eat or drink without offering food or beverage to your colleagues.
- Ask your Korean guest more than once to help himself to more food and drink.
- Do not pour your own drink; pour for someone and let him reciprocate.
- Try to wear conservative clothes. Bare shoulders are considered inappropriate.
- See your guest off at the gate/door, and stay there until your guest is gone.
- "Yes" is often used simply to acknowledge what is said by one's counterpart; it does not necessarily mean one is in agreement or understanding.
- Do not suggest splitting the bill; each person or family should alternate paying the bill. Remember when it is your turn to pay
- You may often see two male friends or two female friends walking affectionately arm-in-arm. This is in no way an indication of their sexual preference.
- Koreans love children, and in this culture children are treated as "everyone's treasures" to cherish and protect. Koreans will often want to touch and hold your children; blondes and red-heads are rare in Korea, and often attract the most attention. If

your children are uncomfortable with this, remove yourselves from the situation as politely as possible. A simple “no, thank you” usually will suffice.

## Traditional Korean Meals/Food

Plain or cooked with other grains, rice (bap) is the main dish at most Korean meals. Rice is accompanied by a variety of side dishes. Favorite side dishes include bean paste soup, roasted beef and fish, as well as steamed and seasoned vegetables. Soy sauce, soybean paste, red pepper paste, ginger root, sesame oil, and sesame seeds are other seasonings that are essential to Korean cuisine. Food is usually eaten with a pair of chopsticks and a large spoon.

Traditional foods are offered in small restaurants, in large hotels, and in gourmet sections of large department stores, such as Lotte or Shinsegae. Korean supermarkets usually have sample stations scattered throughout, where they will encourage everyone to try food.

### History of USAG Humphreys

The history of USAG Humphreys dates back to the beginning of the 20th century when, in 1919, the Japanese military built the Pyeongtaek Airfield. Later, during the Korean War, Pyeongtaek Airfield was named K-6 after being repaired and enhanced by the US Air Force to accommodate a US Marine Air Group and the 614th Tactical Control Group. In 1962, the airfield was renamed Camp Humphreys, in honor of Chief Warrant Officer Benjamin K. Humphreys of the 4th Transportation Company, who died in a helicopter accident near the installation.

In 1964, Humphreys District command, later re-designated as the 23rd Direct Support Group, was activated as a separate installation command of the Eighth US Army providing all direct support, supply and maintenance, storage of all conventional ammunition in Korea, Adjutant General publications and training aides and the Eighth US Army Milk Plant.

In 1974, with the activation of the 19th Support Brigade, Camp Humphreys was re-designated as U.S. Army Garrison, Camp Humphreys. USAG, Camp Humphreys was still responsible for all affairs affecting personnel stationed at Camp Humphreys, but the 19th Support Command

was responsible for all support activities vital to the Eighth US Army and its subordinate units. Those units formerly reporting to the 23rd Direct Support Group reported to the 19th Support Command in Daegu. Only the basic functions remained with USAG, Camp Humphreys.

Later, the 23rd Direct Support Group and 19th Support Brigade were renamed 23rd Support Group and 19th Theater Army Area Command. On June 17, 1996, the US Army Support Activity Area III was established and made responsible for the peacetime support mission for Camp Humphreys, Camp Long, Camp Eagle, and US Army units assigned to Suwon Air Base.

Under a 2004 land-swap pact, the US promised to gradually return a combined 170 square kilometers of land housing 42 military bases and related facilities to South Korea and move US military forces from garrisons in and north of Seoul to Camp Humphreys. As a result of this pact, the US troop presence in South Korea was consolidated into two regional hubs in Pyeongtaek and Daegu.

On June 1, 2005, the US Army announced that Camps Eagle and Long would close. Both camps closed on June 4, 2010, consolidating installation support activities on Camp Humphreys.

With the creation of the Installation Management Command (IMCOM) on October 24, 2006, US Army Support Activity Area III was redesignated as USAG Humphreys and Area III on March 15, 2007.

On November 13, 2007, USFK and South Korean officials conducted a groundbreaking ceremony for the expansion of USAG Humphreys. As of 2017 the US Army called Humphreys "the largest power projection platform in the Pacific." Now in the final stage of a massive base expansion, Humphreys has tripled in size to nearly 3,500 acres — roughly the size of central District of Columbia — making it the largest overseas American Military Base in the world, capping off over a dozen years of transformation and consolidation of the US military footprint in South Korea. In all, more than 650 new buildings have been or will be built on what was once rice fields and villages.

In 2018, when the US and ROK governments agreed to consolidate USFK Headquarters near Pyeongtaek and Daegu, most major commands moved to USAG Humphreys, including soldiers from USAG Yongsan, USAG Red Cloud, Camp Casey, Eighth Army Headquarters, and elements of the Combined Forces Command and the Second Infantry Division.

## **Name History for USAG Humphreys Gates, Roads, Buildings, Housing, and Static Displays**

### **Gates**

#### ***Lieutenant Colonel Stanley Adams (DoDu Ri) Gate***

Lieutenant Colonel Stanley “Stan” Taylor Adams was a US Army officer who received the Medal of Honor on July 5, 1951, for his actions in the Korean War for leading a bayonet charge against a numerically superior force in early 1951.

In late January 1951, Adams’ unit launched a counteroffensive against Chinese forces. In the early morning of February 4, Adams’ forward platoon was attacked by about 250 enemy soldiers. After intense machine gun and mortar fire, the platoon withdrew to the main company position. Seeing that the opposing force could only be routed by close quarters fighting, Adams led 13 men from his platoon in a bayonet charge against approximately 150 enemy soldiers. He fought in hand-to-hand combat for nearly an hour, despite being shot in the leg and knocked off his feet four times by grenades, until the hostile force began to retreat. When orders came for his battalion to withdraw, he stayed behind to provide covering fire.

Adams was subsequently promoted to master sergeant and awarded the Medal of Honor for his actions during the battle. The medal was formally presented to him by President Harry S. Truman in a ceremony at the White House. Commissioned as an officer shortly after receiving the medal, Adams continued to serve into the Vietnam War, eventually retiring as a lieutenant colonel in 1970.

#### ***Colonel Lewis Lee Millett Sr. (Anjeong Ri) Gate***

Colonel Lewis Lee Millett Sr. was a US Army officer who received the Medal of Honor in July 1951 for his actions in the Korean War. Millett was serving in Korea as a captain and commander of Company E of the 2nd Battalion, 27th Infantry Regiment. Millett led his company in an assault on an enemy position atop Hill 180 near Anyang. When one platoon became pinned down by heavy fire, Millett took another platoon forward, joined the two groups, and led them up the hill.

Wielding his bayonet and throwing hand grenades, Millett yelled encouragement to his soldiers throughout the hand-to-hand fight. Upon reaching the top of the hill, his men stormed the enemy position and forced the opposing soldiers to withdraw.

Although wounded in the shin by grenade fragments, Millett refused to be evacuated until the position was secured. Historian S.L.A. Marshall described the attack as “the most complete bayonet charge by American troops since [the Battle of Cold Harbor].” Out of about 50 enemy dead, roughly 20 were found to have been killed by bayonets, and the location subsequently became known as Bayonet Hill.

#### ***Sergeant Cornelius Charlton (HamJeong Ri) Gate***

Sergeant Cornelius H. Charlton was a US Army soldier who posthumously received the Medal of Honor on June 2, 1951 for his actions in the Korean War.

Charlton’s platoon attacked a heavily defended hostile position on commanding ground when their leader was wounded and evacuated. Charlton assumed command, rallied the men, and spearheaded the assault against the hill, personally eliminating two hostile positions and killing six of the enemy with his rifle fire and grenades. Charlton continued up the slope until the unit suffered heavy casualties and became pinned down. Regrouping the men, he led them forward only to be again hurled back by a shower of grenades. Despite a severe chest wound, Charlton refused medical attention and led a third daring charge which carried to the crest of the ridge. Observing that the remaining emplacement which had retarded the advance was situated on the reverse slope, he charged it alone, and was again hit by a grenade. Charlton raked the position with a devastating fire which eliminated it and routed the defenders.

The wounds received during his daring exploits resulted in his death, but his indomitable courage, superb leadership, and gallant self-sacrifice reflect the highest credit upon himself the infantry, and the military.

#### ***Brigadier General Robert E. Galer, USMC (CPX) Gate***

Brigadier General Robert Edward Galer was a US Marine officer who received the Medal of Honor for heroism in aerial combat during the Guadalcanal campaign of World War II.

Galer led a maximum effort strike of Marine attack aircraft against a heavily defended industrial area in the North Korean capital city of Pyongyang. In May 1942, Galer assumed command of Marine Fighting Squadron-224. It was while in command of this unit that he received the Nation’s highest award, shortly after his promotion to the rank of major. He also received the British Distinguished Flying Cross for the same act of heroism. Following the presentation of the Medal of Honor by the President at the White House, Galer was ordered to Marine Forces, Air, West Coast, Miramar, California, where he served as Assistant

Operations Officer. Shortly after advancement to the rank of lieutenant colonel in November 1943, he was ordered to return to the Hawaiian Islands, where he became Chief of Staff, Marine Air, Hawaiian Area. Galer sailed in March 1952 for Korea, where he saw duty as Assistant Chief of Staff, G-4 (Supply), of the 1st Marine Aircraft Wing until the following May. He was then named Commanding Officer of Marine Aircraft Group 12 and for extraordinary achievement on July 11, was awarded a Gold Star in lieu of a second Distinguished Flying Cross.

### **Major General Seung-Kook Yoon (Dongchang Ri) Gate**

Major General Seung-Kook Yoon was a Korean Army officer who was assigned by special order to be the liaison officer for Task Force Smith, 52nd Artillery Battalion.

Yoon was the only Korean who participated in the UN forces' first battle against North Korea during the Korean War at Jukmiryeong, a hill in Osan in Gyeonggi Province.

On July 4, 1950, Task Force Smith was joined at Pyeongtaek by part of the 52nd Artillery Battalion: Half headquarters and service batteries and all of A Battery with six 105mm Howitzers, 73 vehicles, and 108 men under the command of Lieutenant Colonel Miller O. Perry.

In the late afternoon on July 4, LTC Smith, LTC Perry, and others made a final reconnaissance of the position that Smith had selected. The combined infantry and artillery moved out of Pyeongtaek by truck. The American position extended about a mile on both sides of the Suwon-Osan road. The Americans were vulnerable to enemy flanking attacks. They lacked the means to stop enemy tanks and were without reserves.

At dawn on July 5, LTC Smith ordered his artillery, mortars, and machine guns to conduct registration fire. At 08:00 as part of the artillery it, CPT Yoon received a request for a fire mission and at 08:16, the first American ground fire of the Korean War opened against the tanks, about 2,000 yards in front of the infantry position. Antitank mines would have stopped the enemy advance, but there were none in Korea. Smith ordered 75mm recoilless rifle fire withheld until the column of tanks reached the 700-yard range. The recoilless rifle crews scored direct hits, again without apparent effect. The tanks stopped and opened fire with their 85mm main guns and 7.62mm machine guns.

As they approached the lone 105mm g forward, the two lead tanks were hit and damaged by heat rods. One caught fire and two of its crew members came out of the turret with their hands up; a third came out with a burp gun and fired it against an American machine gun position beside the road killing an assistant gunner, the first American ground

fatality of the Korean War. The third tank through the pass however, knocked out the forward 105mm howitzer with its cannon fire. The other tanks swept south past the artillery battery, which fired rods against them, one tank was disabled and ultimately abandoned.

Based on the exemplary actions as part of Task Force Smith and the 52nd Artillery Battalion, the Dongchang Ri Gate was dedicated to MG (RET) Yoon, Seung-Kook.

### ***2nd Engineer Drive***

Honors the 2nd Engineer Combat Battalion, which pulled rear guard at Kunu-Ri, (now North Korea), while Eighth Army and 2ID slowly moved their way south. The 2nd Engineer Battalion were flanked by Chinese and had to make the ultimate sacrifice to destroy everything so that it did not fall into enemy hands. LTC Alarich Zacherle had the Colors burned so as to not be taken as a war trophy. To honor the men who gave their lives for their brothers, every year on November 30, the 2nd Engineer Battalion recreates that heart-stopping moment with a solemn ceremony. The memory of the men who fought at Kunu-Li lives on as the names of each and every one of those 977 men are called off in formation by the current 2nd Engineers.

### ***Leyte Dragon Street***

### ***Red Dragon Street***

### ***Sioux Circle***

The Army helicopters initially deployed to Korea were the Bell H-13 Sioux and the Hiller H-23 Raven, the first in a long line of Army he-

licopters named for Native American tribes. The service had acquired the Sioux in 1946, but had just 56 in its inventory when North Korea invaded the south in June 1950. The 2nd Helicopter Detachment arrived in theater in November 1950 with four Sioux aircraft. Among the early missions assigned to the unit were utility, wire laying, liaison, and reconnaissance missions. In January 1951, four helicopter detachments were assigned to the Eighth US Army surgeon, as the iconic symbol of the MEDEVAC mission during the Korean War. The H-13 Sioux helicopter became familiar to American television audiences years later when it was shown in the background title shot of the "M.A.S.H." series, which aired from 1972 to 1983.

### ***Taylor Street***

Post WWII, he was the superintendent of US Military Academy at West Point from 1945-1949, where in 1947, he drafted the first official Cadet Honor Code. From 1949-1951, he served as the commander of Allied troops in West Berlin. After a Pentagon stint, he commanded Eighth Army in the final combat operations of the Korean War. He became the Army Chief of Staff and was later fired by the Secretary of Defense under the orders of Dwight D. Eisenhower for being "loose lipped." General Taylor was the Chairman of the Joint Chiefs of Staff during the Vietnam War, and later became the Ambassador to South Vietnam from 1964-1965. He retired soon after. General Taylor died of Lou Gehrig's disease in 1987 and was interned at Arlington National Cemetery.

Although wounded, he maintained his position long enough for Company B to regroup. Bennett stayed behind to provide cover fire while the rest of the company withdrew. He was mortally wounded, and posthumously awarded the Medal of Honor February 1, 1952.

### ***Brown Road***

Named for Private First Class Melvin L. Brown, Medal of Honor recipient, who first went missing in action and then officially killed in action September 5, 1950. While his platoon was securing Hill 755 (the Walled City), the enemy, using heavy automatic weapons and small arms counterattacked. Taking a position on a 50-foot-high wall he delivered heavy rifle fire on the enemy. His ammunition was soon expended and although wounded, he remained at his post and threw his few grenades into the attackers, causing many casualties. When his supply of grenades was exhausted his comrades from nearby foxholes tossed others to him and he left his position, braving a hail of fire, to retrieve and throw them at the enemy. The attackers continued to assault his position and Pfc. Brown, weaponless, drew his entrenching tool from his pack and calmly waited until they one by one peered over the wall, delivering each a crushing blow upon the head. Knocking 10 or 12 enemy from the wall, his daring action so inspired his platoon that they repelled the attack and held their position.

### ***Kyle Road***

In a daring bayonet charge, firing his carbine and throwing grenades, 2LT

Kyle personally destroyed four enemies before he was killed by a burst from an enemy machine gun, February 16, 1951.

### ***Long Road***

Named for Sergeant Charles R. Long, Medal of Honor recipient, Company M, 38th Infantry Regiment, 2nd Infantry Division. When Company M, in a defensive perimeter on Hill 300, was viciously attacked by a numerically superior hostile force at approximately 03:00 hours and ordered to withdraw, Sgt. Long, a forward observer for the mortar platoon, voluntarily remained at his post to provide cover by directing mortar fire on the enemy. Maintaining radio contact with his platoon, Sgt. Long coolly directed accurate mortar fire on the advancing foe. He continued firing his carbine and throwing hand grenades until his position was surrounded and he was mortally wounded February 12, 1951. Sgt. Long's inspirational, valorous action halted the onslaught, exacted a heavy toll of enemy casualties, and enabled his company to withdraw, reorganize, counterattack, and regain the hill stronghold.

### ***Lopez Circle***

Named for Marine First Lieutenant Baldomero Lopez, Medal of Honor recipient, Company A, 1st Battalion, 5th Marines, 1st Marine Division. With his platoon, 1st Lt. Lopez was engaged in the reduction of immediate enemy beach defenses after landing with the assault waves. Exposing himself to hostile fire, he moved forward alongside a bunker and prepared to throw a hand grenade into the next pillbox whose fire was pinning down that sector of the beach. Taken under fire by an enemy automatic weapon and hit in the right shoulder and chest as he lifted his arm to throw, he fell backward and dropped the deadly missile. After a moment, he turned and dragged his body forward in an effort to retrieve the grenade and throw it. In critical condition from pain and loss of blood, and unable to grasp the hand grenade firmly enough to hurl it, he chose to sacrifice himself rather than endanger the lives of his men and, with a sweeping motion of his wounded right arm, cradled the grenade under him and absorbed the full impact of the explosion. He died in Inchon, Korea September 15, 1950.

### ***Lyell Road***

Named for Corporal William F. Lyell, Medal of Honor recipient, who perished August 31, 1951. When his platoon leader was killed, CPL Lyell assumed command and led his unit in an assault on strongly fortified

enemy positions located on commanding terrain. When his platoon came under vicious, raking fire which halted the forward movement, CPL Lyell seized a 57-mm recoilless rifle and unhesitatingly moved ahead to a suitable firing position from which he delivered deadly accurate fire completely destroying an enemy bunker, killing its occupants. He then returned to his platoon and was resuming the assault when the unit was again subjected to intense hostile fire from two other bunkers. Disregarding his personal safety, armed with grenades, he charged forward hurling grenades into one of the enemy emplacements, and although painfully wounded in this action he pressed on, destroying the bunker and killing six of the foes. He then continued his attack against a third enemy position, throwing grenades as he ran forward, annihilating four enemy soldiers. He then led his platoon to the north slope of the hill where positions were occupied from which effective fire was delivered against the enemy in support of friendly troops moving up. Fearlessly exposing himself to enemy fire, he continuously moved about, directing and encouraging his men until he was mortally wounded by enemy mortar fire.

### **Page Road**

Named for Lieutenant Colonel John U. D. Page, Medal of Honor recipient and Navy Cross recipient for his heroic actions in the Battle of the Chosin Reservoir during the Korean War. Served in World War II as an artillery officer, he later went to Korea instead of the Command and General Staff College. ### **Porter Avenue**

Named for Sergeant Donn F. Porter, Medal of Honor recipient. Advancing under cover of intense mortar and artillery fire, two hostile platoons attacked a combat outpost commanded by Sgt. Porter, destroyed communications, and killed two of his three-man crew. Gallantly maintaining his position, he poured deadly accurate fire into the ranks of the enemy, killing 15 and dispersing the remainder. After falling back under a hail of fire, the determined foe reorganized and stormed forward in an attempt to overrun the outpost. Without hesitation, Sgt. Porter jumped from his position with bayonet fixed and, meeting the onslaught and in close combat, killed six hostile soldiers and routed the attack. While returning to the outpost, he was killed by an artillery burst, September 7, 1952.

### **Sebille Road**

Named for Air Force Major Louis J. Sebille, a pilot and the first Air Force service member to receive the Medal of Honor. He was the commanding officer of the 67th Fighter-Bomber Squadron, 18th Fighter-Bomber Group, 5th Air Force. During an attack on a camouflaged area containing a concentration of enemy troops, artillery, and armored vehicles, Maj. Sebille's F-51 aircraft was severely damaged by antiaircraft fire. Although fully cognizant of the short period he could remain airborne, he deliberately ignored the possibility of survival by abandoning the aircraft or by crash landing, and continued his attack against the enemy forces threatening the security of friendly ground troops. In his determination to inflict maximum damage upon the enemy, Maj. Sebille again exposed himself to the intense fire of enemy gun batteries and dived on the target to his death.

### **Thompson Road**

In an astonishing act of courage and brotherly love, the four chaplains gave away their own life jackets. As the ship went down, survivors in nearby lifeboats saw the four chaplains, linked arm-in-arm on the deck, praying together. Of the 902 aboard the *Dorchester* that night, only 230 survived. In the ensuing action, the enemy lobbed a grenade into the position. Sitman, fully aware of the odds against him, selflessly threw himself on it, absorbing the full force of the explosion with his body. Another enemy attack in strength resulted in numerous casualties but Duke, although wounded by mortar fragments, calmly moved along his platoon line to coordinate fields of fire, and urged his men to hold firm in the bitter encounter. Wounded a second time, he received first aid and returned to his position. When the enemy again attacked shortly after dawn, despite his wounds, Duke repeatedly braved withering fire to ensure maximum defense of each position. Threatened with annihilation and with mounting casualties, the platoon was again ordered to withdraw when Duke was wounded a third time in both legs and was able to walk. Rich with lessons, these works reinforce the view that the good will ultimately triumph over evil and seek to restore the purity of childhood. In addition to such literary endeavors, Bang Jeong-Hwan continually sought ways to improve children’s life both culturally and materially. He organized theater festivals and public readings as part of the larger cultural movement for children and was instrumental in instituting Children’s Day in Korea, first observed on May 1, 1922. He also started several organizations for children, including Cheondogyo Children’s Association (Cheondogyo sonyeonhoe) and The Rainbow Society (Saekdonghoe). ### ***MacArthur Circle***

Named for Douglas MacArthur, an American General who commanded the Southwest Pacific in World War II (1939-1945), oversaw the Allied occupation of postwar Japan and led the United Nations forces in the Korean War (1950-1953) as the Supreme Commander of Allied Forces in the Pacific until 1951.

In April 1942, MacArthur was appointed Supreme Commander of Allied Forces in the Southwest Pacific and awarded the Medal of Honor for his defense of the Philippines. In June 1950, Communist forces from North Korea invaded the western-aligned Republic of South Korea, launching the Korean War. Douglas MacArthur was put in charge of the American-led coalition of United Nations troops. That fall, his troops repelled the North Koreans and eventually drove them back toward the Chinese border. MacArthur met with President Truman, who worried that the communist government of the People's Republic of China might view the invasion as a hostile act and intervene in the conflict. The general assured him the chances of a Chinese intervention were slim. Then, in November and December 1950, a massive force of Chinese troops crossed into North Korea and flung themselves against the American

lines, driving the US troops back into South Korea. MacArthur asked for permission to bomb communist China and use Nationalist Chinese forces from Taiwan against the People's Republic of China. Truman flatly refused these requests, and a public dispute broke out between the two men.

On April 11, 1951, Truman removed MacArthur from his command for insubordination. In an address to Americans that day, the president stated, "I believe that we must try to limit the war to Korea for these vital reasons: To make sure that the precious lives of our fighting men are not wasted; to see that the security of our country and the free world is not needlessly jeopardized; and to prevent a third world war." MacArthur had been fired, he said, "so that there would be no doubt or confusion as to the real purpose and aim of our policy."

MacArthur's dismissal set off a brief uproar among the American public, but Truman remained committed to keeping the conflict in Korea a "limited war." Eventually, the American people began to understand that MacArthur's policies and recommendations might have led to a massively expanded war in Asia.

In April 1951, Douglas MacArthur returned to the United States, where he was welcomed as a hero and honored with parades in various cities. On April 19, he gave a dramatic televised address before a joint session of Congress in which he criticized Truman's Korean policy. The general ended with a quote from an old army song: "Old soldiers never die; they just fade away." In 1952, MacArthur became chairman of Remington Rand, a maker of electrical equipment and business machines.

MacArthur died at age 84 on April 5, 1964, at Walter Reed Army Hospital in Washington, D.C. He was buried at the MacArthur Memorial in Norfolk, Virginia.

### ***Red Cloud Circle***

Named in honor of Corporal Mitchell Red Cloud, Jr., who was killed in action during the Korean War against the Chinese Communist Forces on the November 5, 1950, while serving in the 19th Infantry Division.

Red Cloud was born on July 2, 1925, in Hatfield, Wisconsin, to parents Mitchell and Lillian. He had a little brother named Merlin, and they were all members of the Ho-Chunk Native American tribe, also known as the Winnebago. Red Cloud attended Black River Falls High School until he was 17, when he asked his father if he could join the Marine Corps. His dad said yes, so on August 11, 1941, the teen enlisted.

The US joined World War II a few months later, and Red Cloud was deployed to the Pacific. He fought in Guadalcanal, where he suffered

from malaria but refused a medical discharge. He continued to serve through the end of the war when he was injured in Okinawa.

Red Cloud left the Marines in November 1945. He returned to civilian life, got married and had a daughter, Annita. But his family said he grew restless as a civilian, so he decided to return to active duty in October 1948, this time for the Army. His brother later said he was interested in serving in all the military branches.

Red Cloud was part of the 19th Infantry Regiment, 24th Infantry Division. The unit was first assigned to occupation duty in Kyushu, Japan, before being deployed to Korea when war broke out in the summer of 1950.

On November 5, 1950, Red Cloud's Company E was in position on Hill 123 near Chonghyon, North Korea. The 25-year-old corporal was manning a listening post at the hill's ridge, right in front of the command post, when he realized Chinese Communist forces were approaching. Those forces instantly charged at him from the brush about 100 feet away.

Red Cloud immediately sounded the alarm with his automatic rifle, firing it toward the enemy as they closed in on him. He was quickly knocked down by gunfire, but he pulled himself back to standing by wrapping his arm around a tree, which he then used to steady his rifle so he could keep firing. The enemy onslaught was too much for him to bear alone, though, and he died where he fell from gunshot wounds. Prior to the skirmish, part of that enemy force had already crept up on Company E's position from behind and killed several men, many of whom were sleeping. The company's commander credited Red Cloud with delaying the front-facing attack enough for the unit to reorganize and tighten its defenses, essentially saving the rest of them.

Red Cloud's fearlessness, courage and self-sacrifice earned him the Medal of Honor. On April 3, 1951, his mother received the medal from famed World War II Gen. Omar Bradley in a ceremony at the Pentagon.

Red Cloud was initially buried at a United Nations cemetery in Korea; however, his body was repatriated to the Decorah Cemetery near his hometown in March 1955. His medal is currently housed at the Wisconsin Veterans Museum in Madison, Wisconsin.

To honor his warrior ethos, Red Cloud's name lives on. In 1957, the Army renamed one of its Korean installations in his honor; Camp Red Cloud was used by US troops until its deactivation in 2018. In 1999, the US Navy commissioned a Watson-class cargo ship named the USNS Red Cloud, which was christened in San Diego by the fallen corporal's daughter.

Various military facilities and parks across the US also honor Red Cloud's name. One monument that stands in his honor at Black River Falls, Wisconsin, has an inscription that reads, "The son of a Winnebago chief and warriors who believe that when a man goes into battle, he expects to kill or be killed, and if he dies, he will live forever."

### ***Punchbowl Tower***

The Battle of the Punchbowl was one of the last battles of the movement phase of the Korean War. Following the breakdown of armistice negotiations in August 1951, the United Nations Command decided to launch a limited offensive in the late summer/early autumn to acquire better defensive terrain and deny the enemy key vantage points from which they could observe and target positions.

By October 1951, 2nd Infantry Division, ROK I Corps, French battalion and 1st Marine Division forces controlled the lines of hills north of the Punchbowl. The fiercest action battles of Heartbreak Ridge and Bloody Ridge were also fought within the Punchbowl. The name Punchbowl comes from the bowl-shaped terrain of Hae-an Basin, which is an eroded, extinct volcano in the Taebaek Mountains. Today, it is part of the Demilitarized Zone (DMZ).

### ***Bunker Hill Tower***

The Battle of Bunker Hill (Hill 800) was fought between August 9 and September 30, 1952, between United Nations Command and Chinese forces over several frontline outposts. In March 1952, the US 1st Marine Division was transferred to I Corps and moved onto the Jamestown Line, the UN's main line of resistance across Korea. Opposing the Marines on the Jamestown Line, the Chinese People's Volunteer Army (PVA) had the 65th and 63rd Armies, totaling 49,800 troops. The succession of Marine companies that took over Bunker Hill had to repel seven attacks before the end of August, but only one, on the night of August 25 and 26, threatened to overrun the outpost. The struggle for Bunker Hill cost the Marines 48 killed, 313 seriously wounded, and hundreds of others who suffered minor wounds. The number of known PVA dead exceeded 400 and total casualties may have numbered 3,200. The month ended with Bunker Hill in US Marine hands.

### ***Pershing Tower***

Named for General John J. "Black Jack" Pershing, a distinguished US Army General with service in the Spanish-American War, as part of

Theodore Roosevelt's "Rough Riders," the Philippines in the early 1900s, pursued Pancho Villa in 1915, and as Commander of the American Expeditionary Force (AEF) in World War I. When he returned from WWI, Congress made him the second only person to be honored with the rank of "General of the Armies of the United States." He later served as the Army Chief of Staff from 1921-1924 and remained a military advisor for decades. He has commanded many young military leaders such as George C. Marshall, George S. Patton, Douglas MacArthur and Dwight D. Eisenhower. He died in 1948 and was buried in Arlington National Cemetery.

### ***Patton Tower***

General George S. Patton, a distinguished US Army General, began his military career leading cavalry troops against Pancho Villa in 1915 and then became aide-de-camp to General Pershing. In 1917, Patton went along with Pershing to Europe, where he became the first officer assigned to the newly established US Tank Corps. He soon earned a reputation for his leadership skill and knowledge of tank warfare. After the war, Patton served positions in tank and cavalry units at various posts in the United States.

Soon after the Japanese attack on Pearl Harbor in December 1941, Patton was given command of the 1st and 2nd Armored Divisions and organized a training center in the California desert. Patton headed to North Africa late in 1942 at the head of an American force; before the initial landings on Morocco's Atlantic coast, he presented his troops with an expression of his now-legendary philosophy of battle: "We shall attack and attack until we are exhausted, and then we shall attack again." Patton's lust for battle would earn him the colorful nickname "Old Blood and Guts" among his troops, whom he ruled with an iron fist. With this formidable aggression and relenting discipline, the general managed to put US forces back on the offensive after a series of defeats and win the war's first major American victory against Nazi-led forces in the Battle of El Guettar in March 1943.

In early 1945, Patton led his army across the Rhine River and into Germany, capturing 10,000 miles of territory and helping to liberate the country from Nazi rule. In the months following Germany's surrender, the outspoken general caused another firestorm of controversy when he gave an interview criticizing the Allies' rigid de-Nazification policies in the defeated country; Eisenhower removed him from command of the 3rd Army in October 1945. That December, Patton broke his neck in an automobile accident near Mannheim, Germany. He sustained spinal

cord and neck injuries and passed away from pulmonary embolism as a result of the accident in a Heidelberg hospital twelve days later.

Patton's memoir, titled "War as I Knew It," was published posthumously in 1947; his larger-than-life persona later made its way to the silver screen in an Academy Award-winning 1970 biopic starring George C. Scott.

### ***Abrams Tower***

Named for General Creighton W. Abrams Jr., the distinguished US Army General who commanded the 37th Tank Battalion in WWII (the spearhead for General Patton's Third Army), and the 4th Armored Division's combat command B during the Battle of the Bulge. General George Patton said of him: "I'm supposed to be the best tank commander in the Army, but I have one peer—Abe Abrams. He's the world champion." Abrams joined the Korean War late in the conflict due to him being in Europe and at the Army War College but he successively served as chief of staff of the I, X and IX Corps in South Korea (1953–1954). After several high-ranking positions for the Armor Corps and Chief of Staff for Reserve Components, he served first as deputy commander, then as the commander, of the United States Military Assistance Command, Vietnam, from 1967 to 1972. He was the Army Chief of Staff from October 12, 1972, to September 4, 1974. As Chief of Staff, Abrams led the Army in the final stages of the Vietnam War, supervised force reductions, and oversaw organizational restructuring. He directed the formation of a Ranger Battalion as well as the transition to an all-volunteer force. He died while in office, on September 4, 1974, in Washington, DC. The M1 Abrams Tank is named after him, in service from 1980 to present.

### ***Apache Tower***

Named for the Boeing AH-64 Apache Helicopter which replaced the AH-1 Cobra. In service 1986 to present. The AH-64 Apache has a four-blade main rotor and a four-blade tail rotor. The crew sits in tandem, with the pilot sitting behind and above the co-pilot/gunner. Both crew members are capable of flying the aircraft and performing methods of weapon engagements independently. AR 70-28, dated 1969, specifies that Army aircraft should be given the names of American Indian tribes or chiefs or terms. The name should appeal to the imagination without sacrifice of dignity and should suggest an aggressive spirit and confidence in the capabilities of the aircraft. The name also should suggest mobility, agility, flexibility, firepower, and endurance. For brevity, it is suggested the name consist of only one word. The names given Army

aircraft are primarily for use in public releases and other documents as a ready reference but have proven popular among Army personnel. AR 70-28 was eventually rescinded.

### ***Blackhawk Tower***

The Sikorsky UH-60 Black Hawk is a four-blade, twin-engine, medium-lift utility helicopter manufactured by Sikorsky Aircraft. Named after the Native American war leader Black Hawk, the UH-60A entered service with the US Army in 1979, to replace the Bell UH-1 Iroquois as the Army's tactical transport helicopter. This was followed by the fielding of electronic warfare and special operations variants of the Black Hawk. Improved UH-60L and UH-60M utility variants have also been developed. Modified versions have also been developed for the US Navy, Air Force, and Coast Guard. In addition to US Army use, the UH-60 family has been exported to several nations. Black Hawks have served in combat during conflicts in Grenada, Panama, Iraq, Somalia, the Balkans, Afghanistan, and other areas in the Middle East. In service 1974-Present.

### ***Chinook Tower***

The Boeing CH-47 Chinook is a twin-engine, tandem rotor, heavy-lift helicopter developed by American rotorcraft company Vertol and manufactured by Boeing Vertol. The CH-47 is among the heaviest lifting of Western helicopters. Its name, Chinook, is from the Native American Chinook people of Washington state. In service from 1961 to present.

## **Static Displays**

### ***"Pacific Victors" Tank***

M-47 Patton Tank II with 90MM Gun. In service from 1951-1960. Serves a crew of five: commander, driver, assistant driver, loader, and gunner. Weighs 48.5 Tons. The tank belongs to the Patton family of tanks, named after General George S. Patton, commander of the US Third Army during World War II and one of the earliest American advocates for the use of tanks in battle. It was a further development of the M46 Patton tank. Production of the M-47 began at the Detroit Tank Arsenal and American Locomotive Company in June 1951 but arrived too late to see combat actions in the Korean War - the very war that brought about the tank's construction. Delays in the M12 optical rangefinders for the 90MM main guns played a role in the tank missing the war and were not delivered to the region until August of 1958.

### ***"Geronimo" Tank (Adams Gate)***

M-60 Patton Tank with 105MM Gun. In service from 1959-1997. Serves a crew of four: commander, driver, loader, and gunner. Weighs 52 tons. The M-60 is a second-generation main battle tank developed after the M-48 Patton. Although it was never officially christened as a Patton tank, it is considered a "product-improved descendant" of the Patton tank design. The M-60 tank series was the main battle tank during the Cold War.

### ***M997 HMMWV Maxi-Ambulance (Outside of 65th Medical Brigade)***

The M997, M997A1, and M997A2 HMMWVs were the Maxi-Ambulance configuration of the HMMWV family since 1985. The vehicles were equipped with basic armor and used to transport casualties from the battlefield to the medical aid stations. The M997 types were 4-litter ambulances with basic armor protection and air conditioning for crew and patients. The M997 series of ambulances were capable of transporting up to 4 litter patients, 8 ambulatory patients, or a combination of litter and ambulatory patients. Additionally, medical personnel, equipment, and a driver could be accommodated in the vehicle.

### ***Grumman OV-1 Mohawk aircraft (CPX Gate)***

In service 1959-1996. The Grumman OV-1 Mohawk is an armed military observation and attack aircraft that was designed for battlefield surveillance and light strike capabilities. It has a twin turboprop configuration and carries two crew members in side-by-side seating. The Mohawk was intended to operate from short, unimproved runways in support of US Army maneuver forces. Side looking airborne radar (SLAR)-equipped Mohawks began operational missions in 1963 patrolling the Korean Demilitarized Zone. The Mohawk's mission would include observation, artillery spotting, air control, emergency resupply, naval target spotting, liaison, and radiological monitoring

### ***Bell AH-1 Cobra (Outside 2CAB HQ)***

In service from 1967-2001. The AH-1 is also referred to as the Huey-Cobra or Snake. The AH-1 was a single engine dedicated attack helicopter, featuring a tandem cockpit, stub wings for weapons, and a chin-mounted gun turret. The first examples of the type entered service with the US Army during 1967; other branches of the US military also opted to acquire the type, particularly the US Marine Corps, while export sales were made to numerous overseas countries, including Israel,

Japan, and Turkey. It was developed using the engine, transmission and rotor system of the Bell UH-1 Iroquois, which had proven it to be a capable platform during the Vietnam War.

### ***MH-6/AH-6 Little Bird (Outside 2CAB HQ)***

In service 1980-Present. The Boeing MH-6M Little Bird (nicknamed the Killer Egg) and its attack variant, the AH-6, are light helicopters used for special operations in the US Army.

## **CAMP CASEY/ CAMP HOVEY**

Camp Casey was named in 1952 after Major Hugh Boyd Casey who was killed in a plane crash near the campsite during the Korean War. Camp Casey is one of several US Army bases in South Korea near the Korean Demilitarized Zone (DMZ).

Camp Hovey is a US Army military base in Dongducheon, Gyeonggi Province, South Korea. It was named after Master Sergeant Howard Hovey who was killed in action at Pork Chop Hill during the Korean War. The camp is adjacent to the larger Camp Casey, connected by a road known as "Hovey Cut." The nearest city to Camp Hovey is Dongducheon (also spelled Tongduch'on), which is roughly 15 miles (24 km) from the Korean Demilitarized Zone (DMZ). There is a south gate into Camp Hovey from Gwang-gam-dong village, but there are more things to do outside Camp Casey's main gate.

## **USAG YONGSAN**

In 1906, the Imperial Japanese Army set up a military compound in Yongsan. Thousands of Japanese troops moved to the compound and built permanent structures. Japan annexed and occupied Korea from 1910 to 1945.

In September 1945, following the Japanese surrender at the end of World War II, the US Army's 7th Infantry Division established its headquarters at Yongsan Garrison. At the time, the area was known as "Camp Seobingo." In 1952, the US military changed the name to "Yongsan," which literally translates to "dragon hill."

The majority of services offered at USAG Yongsan continue to change as operations are relocated to USAG Humphreys. The information below is the most current as of March 2022.

## KUNSAN AIR BASE

Originally built by the Japanese as a fighter-interceptor base in 1938, Kunsan became the home of the US Military Assistance Advisory Group in Korea at the end of World War II. In 1949, US forces left Korea, turning the base over to the ROK Air Force.

In July 1950, at the outset of the Korean War, North Korean forces occupied Kunsan Air Base. The US Army's 3rd Battalion, 24th Infantry recaptured the base and Kunsan City on September 30, 1950. In April 1951, the 27th Air Base Group became the first Air Force unit assigned to the base. The group oversaw the base's rehabilitation. The Army's 808th Engineer Aviation Battalion built a 5,000-foot runway to replace the sod runway built by the Japanese. The 3rd Bombardment Wing moved to the base on August 22, 1951, as Kunsan's first assigned aircraft wing.

Following the 3rd Bombardment Wing's return to Japan at the end of the Korean War, Kunsan became the home to several Air Force units. The 6170th Air Base Group and the 6170th Air Base Squadron operated and maintained the base from 1954 to 1968. From 1968 to 1970, the 354th and later the 54th Tactical Fighter Wing ran the base. The 6175th assumed responsibility for the installation in the mid-1970s until the 3rd Tactical Fighter Wing returned to Kunsan in March 1971. In September 1974, the 8th Tactical Fighter Wing was assigned to Kunsan Air Base. As a part of an Air Force-wide reorganization, the 8th Tactical Fighter Wing was redesignated the 8th Fighter Wing on Feb. 3, 1992.

## **USAG DAEGU**

Camp Walker is a US military post in Daegu, South Korea, named in 1951 after General Walton Walker, commander of the Eighth Army. General Walker was killed in a jeep crash in December 1950 during the Korean War. Camp Walker, Camp Henry, and Camp George are the three US posts that make up USAG Daegu.

Camp Henry was built by the Japanese Army in 1921 and served as the headquarters for General Minami and the Japanese Forces located in Daegu. During the Korean War, Camp Henry saw little action as it was on the northern edge of what is known today as the Busan Perimeter. After the Korean War, the post was named after Lt. Frederick Henry, a Medal of Honor recipient.

Camp Carroll lies in the evening shadow of Hill 303 where one of the most notorious atrocities of the Korean War was committed by communist forces. Forty-one soldiers from the 1st Cavalry Division were captured on the hill during an attempt to break through communist lines during the early days of the Pusan Perimeter. Evidence shows that these men were bound and shot in the back. In response, the United Nations Command (UNC) dropped nearly 1,330 tons of high explosives on the communist lines near Waegwan. Along with a second front opening at the communist rear, the 1st Cavalry Division recaptured Hill 303. Camp Carroll is the only military post located in the Waegwan area since Japanese forces maintained a replacement depot here some 400 years ago.

Camp George was named in honor of Private First Class Charles George. PFC George was a Native American from the Cherokee tribe. He served with C Company, 179th Infantry Regiment, 45th Infantry Division, during the Korean War. George was posthumously awarded the Medal of Honor for action near Songnae-dong, Bucheon City, Korea on 30 November 1952. The installation was originally constructed by the Imperial Japanese Army. Camp George is located on 16 acres (19,586 pyeong) in the Nam-gu District of Daegu City, less than one-quarter mile west of Camp Henry and about a half mile north of Camp Walker.

## CHINHAE NAVAL BASE

The history of Commander Fleet Activities Chinhae (CFAC) dates back to 1946 when the US Naval Advisory Group was established in Korea. The command was re-designated as the first Fleet Detachment, Naval Station, JUSMAG-K in July 1969. It was reorganized and renamed the Chinhae Facility in 1972. The US Naval Forces Korea and Fleet Detachment, Naval Station, JUSMAG-K were separated to form a new tenant command. The new command was renamed as Field Logistics Centre, Chinhae in 1972. The facility was regrouped as Commander, US Naval Forces, Korea Detachment, Chinhae in 1978.

CFAC was set up as a tenant organization with the Commander, US Naval Forces, Detachment Chinhae after reorganization in 1984. The US Navy and ROK Navy signed a land partnership plan in 2002. The plan was amended in 2004. The NAVCOMM Detachment Chinhae was established at the base in October 1995.

CFAC is located in the Jinhae district of Changwon City, on the southeast coast of the Republic of Korea. The city of Jinhae district of Changwon is home to the largest ROK Navy base, as well as the only US Navy base in the ROK. The base is about 10 minutes from downtown Jinhae, 20 minutes from downtown Changwon, 1-1.5 hours from downtown Busan (by car), and 5 hours from Seoul (by car, KTX train is 3 hours).

## OSAN AIR BASE

Osan Air Base is one of two major airfields operated by the US Air Force in the Republic of Korea and the only base on the peninsula entirely planned and built by the US Air Force during the Korean War. The base is located 4.7 miles southwest of the town of Osan-Ni, for which the base was named, and about 20 miles south of Seoul, the capital city of the ROK. Prior to the invasion of the ROK by the North Korean communists in 1950, the area consisted of several small farming villages near the hillsides and a large number of rice paddies along the Chin Wi River where the runway now lies.

There is a 750 year old ginkgo tree that stands on a small hill on the number four hole of the base golf course and is a national treasure.

## CAMP MUJUK

Camp Mujuk was established in 1980 to assist the III Marine Expeditionary Force (MEF) with training deployments to the Korean peninsula. Mujuk means invincible and is an 84-acre installation located about 400 kilometers southeast of Seoul, about an hour east of Deagu, just outside Pohang, and near the eastern shoreline. The Camp was previously owned by the ROK Marine Corps but became the responsibility of the US Marine Corps to maintain in 2004 as part of camp close outs and consolidations.

Camp Mujuk is the only US Marine Corps Installation in the Republic of Korea. The installation is home to the Camp Mujuk Headquarters from Marine Corps Installations Pacific (MCIPAC). The Camp and its Marines support bi-lateral training between our host country and other branches of service.

Camp Mujuk is a dependent restricted tour of duty. All inbound personnel will be assigned a sponsor to aide in their transition to Korea. Stay in contact with your sponsor regularly with updates on your status and be sure to ask questions as they arise. Constant communication will be a critical part of making your transition go as smoothly as possible.

## USFK ORGANIZATION

### United States Forces Korea

Welcome to US Forces Korea (USFK). USFK's mission is to deter aggression and if necessary, defend the Republic of Korea (ROK) to maintain stability in Northeast Asia. The Service Members of the United States and the Republic of Korea have stood together for more than 60 years maintaining the Armistice and setting the conditions for stability and prosperity in the Republic of Korea. As a result, the Republic of Korea has flourished since the end of the Korean War and is now a respected, successful, and thriving democracy.

The important mission in Korea gives Service Members excellent training opportunities. Along with some of the most realistic and effective training conducted by our Armed Forces, the training is multi-national, combined, and joint. You will not only train and work with Service Members from different services, but you will train and work with our ROK partners and the United Nations Command (UNC) Sending States.

The quality of life in the ROK is great, and you will have an opportunity to experience a magnificent culture. The South Korean people are gracious hosts with an interesting history. For Service Members and their Families, we have a community atmosphere with many activities for single Service Members, Civilians, and Children of all ages.

For those that are coming to Korea, the USFK website is set up to assist you with your move and learn about command and community information. On the site, you will find an overview of command vision, priorities, policies, command messages, and other critical information. This information is to ensure that you and your family are prepared for a challenging and very rewarding assignment in Korea.

For more information please visit the USFK website at [www.usfk.mil](http://www.usfk.mil).

### United Nations Command

United Nations Command carries on the legacy of the men and women of the twenty-two (22) countries who came to the aid of South Korea during the Korean War and in support of humanitarian efforts following the Armistice Agreement. The Command's role evolved from a warfighting command to an international military organization charged with enforcing the Korean Armistice Agreement. Today, UNC consists

of: Australia, Belgium, Canada, Colombia, Denmark, France, Greece, Italy, Netherlands, New Zealand, Norway, the Philippines, the Republic of South Africa, Thailand, Turkey, the United Kingdom, the United States, and the Republic of Korea, as the host nation. UNC remains a visible reminder of the international community's enduring commitment to preserving peace on the Korean Peninsula.

Following the signing of the Korean Armistice Agreement, UNC was responsible for enforcing the Armistice and defending South Korea. However, UNC's mission and role evolved over time. On July 1, 1957, USFK was established with the mission of supporting UNC by providing trained and ready forces for the defense of South Korea. USFK also provided a myriad of Armistice maintenance functions. On November 8, 1978, the Republic of Korea– US Combined Forces Command (CFC) was established as a bilateral warfighting command. With the establishment of CFC, UNC's role changed to Armistice maintenance, while CFC became responsible for deterrence and preparations for the defense of South Korea.

UNC experienced a period of growth, relevance, and change, following its decline after the establishment of CFC. In the early 2000s, Armistice maintenance activities grew with the establishment of Transportation Corridors and South Korean military live fire exercises near the Northwest Islands. The increase in Armistice maintenance requirements contributed to renewed international interest in UNC, resulting in seven nations rejoining the command between 1998 and 2003. Recognizing UNC's "untapped potential", the UNC Commander announced UNC revitalization as an official command effort in 2015, driving the momentum for more international contributions. In 2018, Canada assigned the first non-American General Officer to serve in UNC, and Australia continued this trend in 2019 until present. Shortly after the relocation of UNC Headquarters from Seoul to Pyeongtaek in 2018, UNC revitalization ended. Despite this transition, the command continues to evolve to meet the dynamic challenges of the security environment on the Korean Peninsula. These challenges range from demonstrating international resolve and maintaining military readiness during heightened tensions to creating space for inter-Korean diplomacy.

In fulfillment of the provisions of the Armistice and the Subsequent Agreement of August 17, 1954, UNC has continued to perform its duties related to the return of remains of deceased soldiers. From July 1996 to May 2005, the US Department of Defense Prisoner of War/Missing Personnel Office conducted joint operations with the Korean People's Army (KPA, official name of the North Korean Army) to recover Korean War

remains in North Korea. Furthermore, the KPA had accepted remains of deceased soldiers, which had been recovered in the DMZ and the territorial waters of South Korea. UNC was willing to accept Korean War remains in Panmunjom, but the KPA suspended such returns in 1999.

Following the thawing of inter-Korean relations in 2018, UNC transitioned its priority from heightened military readiness to creating space for diplomacy. Subsequently, North Korea and UNC established renewed dialogue and reached an agreement to facilitate the repatriation of Korean War remains. On July 27, 2018—the 65th anniversary of the Armistice signing at Panmunjom—UNC, with support from USFK, repatriated 55 cases of remains from North Korea. A US cargo aircraft flew to Wonsan, North Korea to receive the remains and returned promptly to Osan Air Base, South Korea. On August 14, 2018, the UNC Honor Guard escorted the remains of a North Korean soldier across the Military Demarcation Line in Panmunjom. South Korean Naval Forces originally discovered the remains near the Northwest Islands in May 2017. Previous attempts to arrange the repatriation to North Korea failed, and the last time that North Korea returned the remains of fallen service members prior to 2018 was 2007. These exchanges were governed by the Korean Armistice Agreement signed in 1953, enforced by UNC in an effort to build trust among all nations on the Korean Peninsula.

Once the premier warfighting command in Korea, UNC continues to evolve. Despite its evolution, UNC remains the home of international contributions, and the command remains steadfast in preserving peace in Korea, consistent with the Armistice Agreement and the UN mandates that remain in effect.

## **Mission of the ROK/US Combined Forces Command**

More than 46 years of fragile peace have marked the history of “post-war” Korea, where the longest armistice ever remains tenuously in force. For most of these years, the directing headquarters was the United Nations Command (UNC), which had also directed combat operations in the 1950-53 war.

The defense structure in Korea was eventually overtaken by the professional growth and development of the ROK armed forces. As early as 1965 it was recognized that what worked in the war could be significantly improved by increasing ROK participation in the planning structure.

A combined operational planning staff, developed in 1968 as an adjunct to United Nations Command/United States Forces Korea/ Eighth United States Army Headquarters and the US-led ‘I’ Corps (Group),

evolved in 1971 as an integrated field army headquarters. However, it was not until 1978, as a bilateral agreement related to the planned US ground combat force withdrawal of that time (subsequently canceled in 1981), that the senior headquarters in Korea was organized, as a combined staff.

Hostilities today are deterred by this binational defense team that evolved from the multi-national UNC. Established on November 7, 1978, the ROK/US Combined Forces Command (CFC) is the warfighting headquarters. Its role is to deter, or defeat if necessary, outside aggression against the ROK.

To accomplish that mission, the CFC has operational control over more than 600,000 active-duty military personnel of all services of both countries. In wartime, augmentation could include some 3.5 million ROK reservists as well as additional US forces deployed from outside the ROK. If North Korea attacked, the CFC would provide a coordinated defense through its Air, Ground, Naval and Combined Marine Forces Component Commands and the Combined Unconventional Warfare Task Force. In-country and augmentation US forces would be provided to the CFC for employment by the respective combat component.

The CFC is commanded by a four-star US general, with a four-star ROK Army general as deputy commander. Throughout the command structure, binational manning is readily apparent: if the chief of a staff section is Korean, the deputy is American and vice versa. This integrated structure exists within the component commands as well as the headquarters. All CFC components are tactically integrated through continuous combined and joint planning, training, and exercises.

The major field training exercise was the Team Spirit series that began in 1976 and grew to nearly 200,000 ROK and US participants commensurate with increased perceptions of the North Korean threat. US participation in the exercise included augmentation forces of all services tactically deployed to the ROK from other Pacific bases and the continental United States. This exercise was last held in 1993.

Separate ROK and US command post exercises were combined as Ulchi Focus Lens (UFL) in 1976. In December 2006, The CFC CDR ordered the name of UFL be changed. The ROK staff retained the name of the ROK government exercise “Ulchi” and changed the exercise name to “Ulchi Freedom Guardian”. UFG is an annual joint and combined simulation-supported command post exercise that trains CFC personnel and major component, subordinate and augmenting staffs using state-of-the-art wargaming computer simulations and support infrastructures.

At the unit level, frequent no-notice alerts, musters, and operational

readiness inspections insure combat preparedness for ROK and US forces. Both countries are pursuing ambitious modernization programs to maintain a viable ROK/US military posture that will convince North Korea that any form of aggression or adventurism will fail. The ROK is making strides in equipment improvement through a rapidly expanding domestic defense industry, as well as purchases from foreign sources. US efforts toward modernization include newer, more powerful weapon systems, greater mobility and helicopter lift capability, and vastly increased anti-armor capability.

In summary, the CFC reflects the mutual commitment of the Republic of Korea and the United States to maintain peace and security, and the willingness and capability to take that commitment into battle, if the need arises.

## The KATUSA Program

The Korean Augmentation to the US Army Program was initiated on August 15, 1950 under an agreement between the Commander in Chief of United Nations Command, General MacArthur and the ROK President, the Honorable Syngman Rhee. The first KATUSA recruits, legally part of the ROK Army (ROKA) and administered by the ROK government, were assigned as reinforcements for the under-strength 7th Infantry Division in Japan, which was preparing for a deployment to Korea.

On August 20, 1950, the US divisions in combat on the peninsula received their initial KATUSA Soldiers on an assignment basis of 100 Koreans for each company and battery. At its late peak in 1952, KATUSA strength reached 27,000, of which 20,000 were in divisions and the remainder in support units. KATUSA strength declined after the armistice, and in July 1971 following the reduction of troops, stabilized to about 7,000. KATUSA Soldiers remained with the Army to receive training that was not readily available in the ROK Army.

Originally, KATUSA Soldiers were returned to the ROKA after serving with the US Army. Since 1968, however, KATUSA Soldiers remain with the US Army until their service commitments are completed. The ROKA Support Group was established on May 11, 1965 at the request of the Commander, Eighth Army, as a ROKA officer liaison group to administer the KATUSA Soldier program. Its name was changed from ROKA Liaison Group to ROKA Support Group in November 1986. On November 1, 1997, the ROKA Support Group was reorganized as a unit directly under Headquarter (HQ), ROKA G2/G3, and was later reorganized on December 1, 2009 directly under HQ, ROK Army's Personnel Command.

Today, the mission of the KATUSA Soldier Program is to augment the US Army in Korea with ROK Army Soldiers in order to increase the ROK/US combined defense capability on the Korean peninsula. The KATUSA Soldier Program is significant because of the military manpower and monetary savings that it provides to the US Army, and because it represents ROK/US cooperation and the combined commitment to deter war. The KATUSA Soldier Program is symbolic of ROK/US friendship and mutual support. Eighth Army is authorized 3,444 KATUSA Soldiers.

## Eighth Army History

Eighth Army was officially activated at Memphis, Tennessee, on June 10, 1944 and soon thereafter, it deployed to the Southwest Pacific. Under the command of LTG Robert L. Eichelberger, Eighth Army methodically eliminated the last fanatical enemy resistance remaining on New Guinea and New Britain. From December 26, 1944 until August 15, 1945, Eighth Army was actively engaged in the reconquest of the Philippines – the largest joint campaign of the War in the Pacific. Collectively, the five “Victor” operations launched by Eighth Army would result in the liberation of the southern and central portions of the Philippine Archipelago – fully two-thirds of the land area of the Philippines. From February 19 to April 3, 1945, Eighth Army units (ranging from company-size teams to division-level task forces) conducted fourteen major amphibious assaults and twenty-four minor landings. During this 44-day period, Eighth Army averaged an assault landing every day and a half. Subsequently, it earned the nickname “Amphibious Eighth” – alluding to its participation in more than sixty amphibious assaults during World War II.

While combat operations were still on-going in the Philippines, Eighth Army simultaneously began preparations for Operation Downfall – the invasion of Japan. However, with the sudden surrender of the Japanese Empire on August 15, 1945, Eighth Army's mission transitioned from one of conquest to one of occupation and it was the “Amphibious Eighth” that led the Army of Occupation into Japan. On December 31, 1945, Sixth Army was relieved of occupation duties and Eighth Army assumed an expanded role in the occupation, which encompassed the formidable tasks of disarmament, demilitarization, and democratization. These missions were flawlessly executed at the operational level by Eighth Army and it was the military occupation of Japan that ensured the economic recovery and political democratization of that island nation. With the outbreak of hostilities in Korea on June 25, 1950, Eighth Army would face another major challenge.

Due to the tactical situation that existed during the first six weeks of the Korean War, ROK and US ground forces were compelled to conduct an economy of force mission. Inherently risky and difficult to execute under the best of circumstances, a series of delays and withdrawals defined the ROK-US effort in the early stages of the Korean War. Running out of space to trade for time, Lieutenant General Walton H. Walker (Commanding General, Eighth Army) ordered his command to withdraw behind the Naktong River and establish a defensive posture oriented on terrain retention. On August 1, 1950, a defensive perimeter (labeled by journalists as the "Pusan Perimeter") was organized. The successful defense of the Pusan Perimeter represented a defining moment in the Korean War; it set the stage for the UN Offensive.

The breakout from the Pusan Perimeter, in concert with the amphibious assault at Inchon on September 15, 1950, resulted in the collapse of the entire North Korean People's Army (NKPA). For all practical purposes, the NKPA had been defeated and any hope of continuing the war with North Korean forces alone was a concept wholly without merit. By October 1, 1950, Eighth Army reached the 38th parallel and on October 9, it began its main advance across this border – spearheaded by the 1st Cavalry Division and the 1st ROK Division. On October 19, these two divisions captured the North Korean capital of Pyongyang and on November 24, 1950, Eighth Army began its so-called "end-of-the-war offensive." Final victory seemed imminent, but the situation would change with devastating suddenness.

On November 25, the full-scale intervention of the Chinese People's Volunteer Army changed the entire complexity of the war and forced Eighth Army and X Corps (which were operating independently of each other at that time) to transition to the defense. With the advantage of surprise and numerical superiority, the CPVA launched multiple synchronized attacks that ultimately expelled friendly forces from North Korea and on January 4, 1951, Seoul would change hands for the third time within a six-month period. Before it could organize an effective line of defense, Eighth Army had withdrawn a total of 275 miles (which qualifies as the longest retreat in US military history). Subsequently, the "myth of the millions of Chinese in Korea" was widely circulated among the rank and file and rumors of vacating the peninsula were rampant.

By mid-January 1951, Eighth Army (now under the command of Lieutenant General Matthew B. Ridgway) launched a series of highly successful limited objective attacks. With emphasis on lateral security, these operations were "force oriented" as opposed to "terrain oriented." Any ground that was taken was incidental to closing with and destroying

the enemy. On March 15, 1951, Seoul was recaptured for the fourth and last time during the course of the war. By the end of the month, Eighth Army reached the 38th parallel and three weeks later, established strong defensive positions twenty miles beyond (in most sectors of the main line of resistance). By the spring of 1951, both opposing forces had concluded that the issue of achieving a decisive military victory was no longer a viable option as neither side wanted to expand the scope and scale of the conflict.

However, the Chinese Communists were determined to launch one last major effort to capture Seoul. Once this was achieved, they would advocate a cease-fire. With the capital of South Korea in their hands, the Communists would be in an enviable position to negotiate an armistice favorable to their own terms. The Fifth Phase Chinese Offensive (April 22 - July 8, 1951) qualified as the largest ground action of the Korean War. During this two-phased campaign, the Chinese People's Volunteer Army failed miserably to achieve its primary objective and sustained catastrophic losses in the process. By the summer of 1951, the situation on the ground had developed into a holding action. Thus, it seemed mutually advantageous for the belligerents to initiate negotiations and to transfer a stalemated military situation to the conference table.

The history of the Korean War truce talks began on July 10, 1951 and after two years of intricate, verbose and exasperating dialogue; an armistice was finally consummated on July 27, 1953 – formally suspending full-scale hostilities on the peninsula. As the post-Armistice period began, Eighth Army assisted the Republic of Korea in relief and rehabilitation efforts and it continues to play a significant role in the common defense of South Korea. Today, there is no evidence to suggest that North Korea has abandoned its option of unifying the peninsula by force of arms.

To enhance and sustain mission accomplishment, the force structure of Eighth Army has transformed multiple times since its establishment. During World War II, it fought in the Pacific Theater of Operations as a field army. In the immediate post-World War II era, Eighth Army served in Japan as an Army of Occupation. During the Korean War, Eighth Army served as both a field army and theater army and throughout the preponderance of the Cold War, it remained primarily a theater army. On November 20, 1954, it was merged with US Army Forces Far East (AFFE) as the major Army command in the region. On July 1, 1957, AFFE was discontinued and USFK was officially activated; thus, Eighth Army was consolidated with USFK and the UNC with headquarters in Seoul. This tri-command headquarters was commanded by General George H. Decker.

On November 7, 1978, General John W. Vessey, Jr. assumed command of the newly established ROK-US CFC, while serving concurrently as the Commander of UNC and USFK and as the Commanding General, Eighth Army. On 1 December 1992, Eighth Army reverted to a three-star command billet and was separated from UNC/USFK/CFC. On March 13, 1998, Eighth Army was designated as the Army Service Component Command for USFK. This status was discontinued on January 23, 2012 when Eighth Army was redesignated as an operational-level Field Army Headquarters. Eighth Army relocated its headquarters from Yongsan to USAG Humphreys in the summer of 2017.

## 2nd Infantry Division

The 2nd Infantry Division has a proud and honorable history which reflects the heart of the American Soldier. Having fought in four wars, the 2nd Infantry Division is one of the most decorated Divisions in the US Army. It boasts 40 Medal of Honor recipients, and over 20 campaign participation credits.

The 2nd Infantry Division was organized on 26 October 1917, at Bourmont, Haute Marne, France. Twice during "The Great War" the Division was commanded by Marine Corps Generals, marking the only times in US Military history when Marine Corps officers commanded an Army Division. The 2nd Infantry Division drew its first blood in the nightmare landscape of the Battle of Belleau Wood and contributed to shattering the four-year stalemate on the battlefield during the Chateau-Thierry campaign that followed. Having fought in every major US engagement, the Indianhead Division emerged from World War I as the most decorated American Division of the American Expeditionary Forces. During the campaign, two Soldiers, six Marines, and six Sailors from the Division were awarded the Medal of Honor.

With the onset of World War II, the Division moved to Ireland in October 1943, as part of the buildup for OPERATION OVERLORD, the Normandy invasion. On 7 June 1944, D-day + 1, the Division landed on Omaha Beach. Attacking across the Aure River, the Division liberated Trevires on 10 June 1944 and proceeded to assault and secure Hill 192, the key enemy strong point on the road to St. Lo. Exploiting the St. Lo breakthrough, the 2nd Infantry Division advanced across the Vire to take Tinchebray on 15 August 1944. During the Battle of the Bulge, from po-

sitions around St. Vith, Belgium, the Division held its ground, preventing the enemy from seizing key roads leading to the cities of Liege and Antwerp. During World War II, six Soldiers of the 2nd Infantry Division were awarded the Medal of Honor.

The Division arrived in Korea, via Pusan, on 23 July 1950, becoming the first unit to reach Korea directly from the United States. The Warrior Division was the first unit to break out of the Pusan Perimeter and led the Eighth Army's Drive to THE Manchurian Border. The 2nd Infantry Division was awarded the Republic of Korea Presidential Unit Citation on 29 September, 1950 for the defense of the Naktong River line against enemy attack. On 5 February 1951, the 23rd Regimental Combat Team moved into the narrow valley of Chipyeong-ni. On 13 February 1951, the 23rd Regimental Combat Team, with the attached French Battalion, was cut off and surrounded by four Chinese Divisions. For more than three days the 23rd Regimental Combat Team and the 1st ROK Division bravely fought in freezing weather, killing over 5,000 Chinese and causing the Communist Chinese Forces to withdraw. The Battle of Chipyeong-ni was the first major defeat for the Chinese and proved to be the turning point of the Korean War. In April and May 1951, the 2nd Infantry Division was instrumental in smashing the Communist's Spring Offensive as they fought for hilltops in the Iron Triangle, Pork Chop Hill, Baldy Hill, Bloody Ridge, and Heartbreak Ridge. During the Korean War, 20 2nd Infantry Division Soldiers were awarded the Medal of Honor. The Division was awarded the Republic of Korea Presidential Unit Citation on 26 October, 1953, for valor in combat and excellence in the training and integration of ROK forces into their ranks. The 2nd Infantry Division emerged as the most decorated Division from the Korean War.

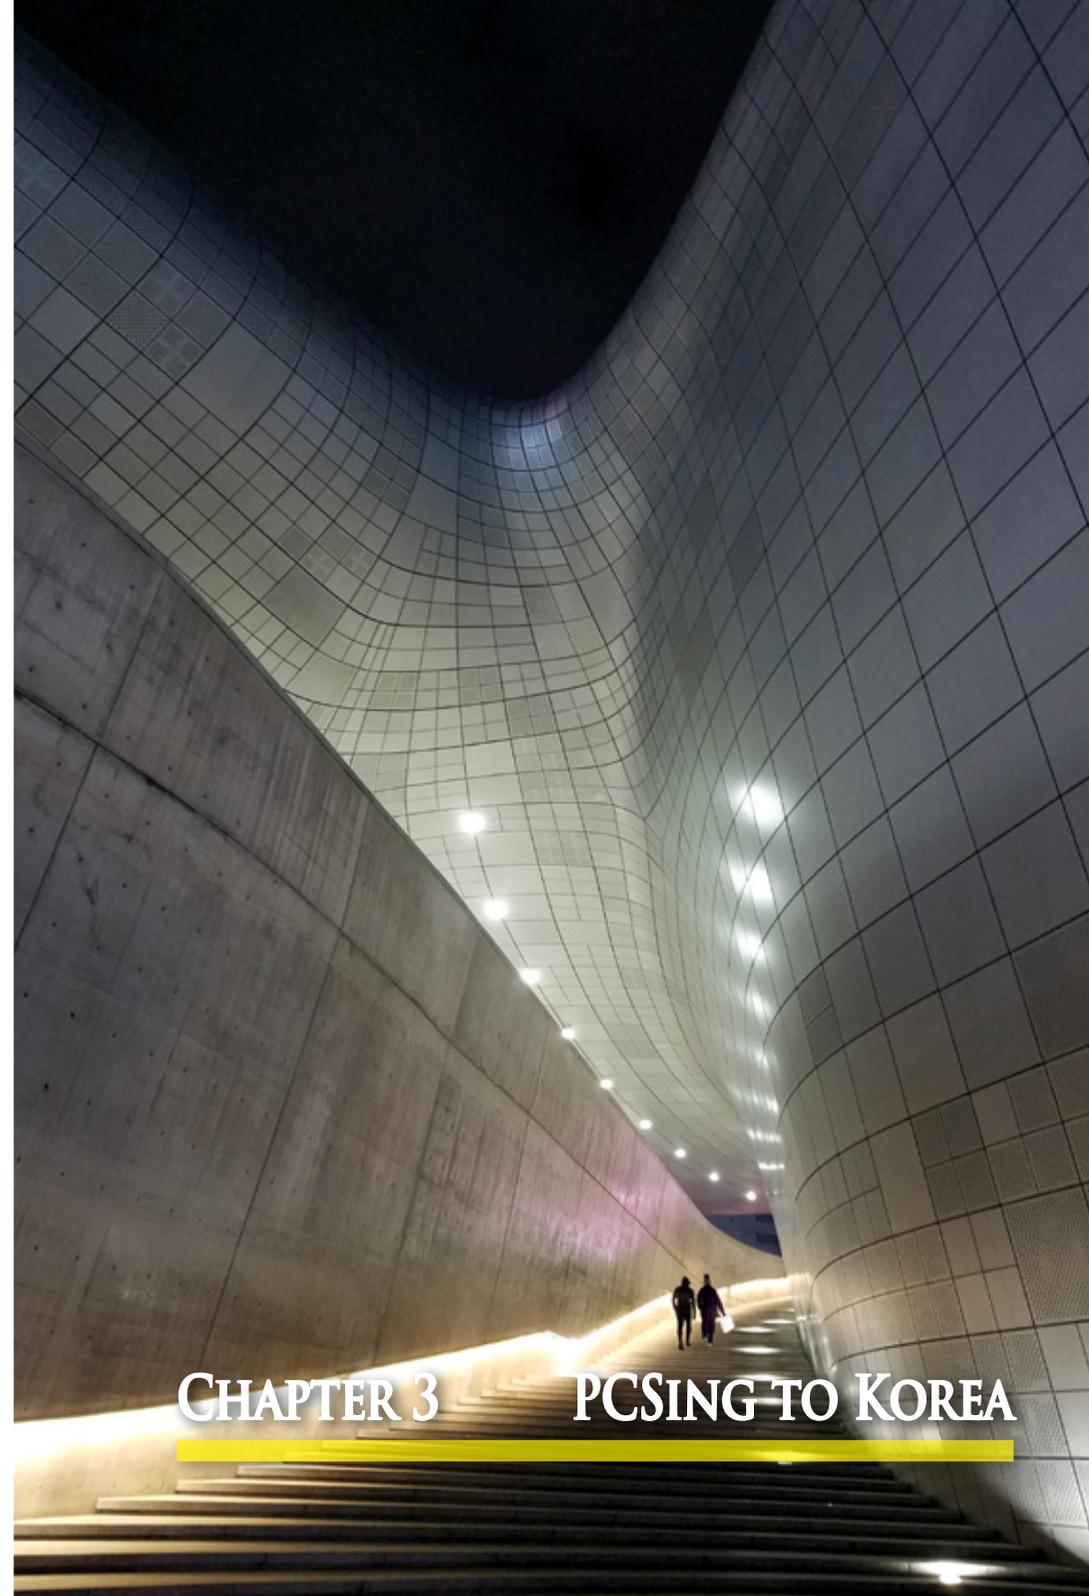

On 1 July 1965, the Division's color returned to the Republic of Korea. The 2nd Infantry Division was assigned to guard portions of the Demilitarized Zone (DMZ) and help deter war on the peninsula. North Korean forces were engaging in increasing border incursions and infiltration attempts and the 2nd Infantry Division was called upon to help halt these attacks. Throughout the 1980 and early 1990s, Soldiers of the 2nd Infantry Division continued to patrol along the DMZ. The Division was awarded the Republic of Korea Presidential Unit Citation on 14 June, 1982, for their dedicated and vital role in the combined ROK-US endeavors to ensure an effective readiness posture on the Korean peninsula. In 1994, 1999, 2011, and again in 2016, the 2nd Infantry Division received the Republic of Korea Presidential Unit Citation.

The first element of the 2nd Infantry Division to deploy to Operation Iraqi Freedom was the 3rd Stryker Brigade Combat Team, deploying out of Fort Lewis beginning in November 2003. In August 2004, the 2nd Brigade Combat Team made history by deploying to Iraq from the Republic of Korea. It was the first operational deployment from Korea, and the team worked alongside ROK soldiers, just as they had in Korea. Eventually, in a throwback to the 2nd Infantry Division's history of fighting alongside the Marines in World War I, the 2nd BCT fell under the direct command of the 1st Marine Division. Later in its deployment, the team was attached to the 2nd Marine Division. Soldiers from the 2nd Infantry Division continued to answer the call in support of the Global War on Terrorism until 4th Stryker Brigade Combat Team was deployed out of Afghanistan in July 2013.

The 2nd Infantry Division is the last permanently forward-stationed division in the US Army. As part of the great ROK-US Alliance, the Division's mission is to deter aggression, and if deterrence fails, ensure it is ready to "Fight Tonight" to defend the Republic of Korea. Forged during the Korean War, the great ROK-US Alliance is an equal partnership committed to the strong defense of Korea. Today, the 2nd Infantry Division patch is spread out across the world. On 3 June 2015, The ROK-US Combined Division was activated in order to improve the abilities of Combined Operations. The ROK 16TH Mechanized Brigade, partnered with the Combined Division, accumulates expertise in combined warfare and the Warriors of the 2nd Infantry Division/ROK-US Combined Division stand ready – to "Fight Tonight!"

For general information on Korea, check your local library, bookstore, or the Internet for guides. Some family members who live in Korea have informative blogs and YouTube channels. A unit sponsor (not to be confused with YOUR sponsor/soldier) already stationed in Korea, should be assigned and contact you, but sometimes this is unintentionally overlooked. Your unit sponsor should provide assistance and information about living in Korea. If you have not heard from a unit sponsor as your move draws near, contact your gaining unit and ask for any sponsorship information they can provide.

# PREPARING TO PCS

## Suggested PCS Checklist

The following checklist will help guide you through many of the steps you should take during the months, weeks, and days prior to your departure.

**NOTE:** If you plan to take extended leave prior to heading to Korea, be sure to take care of time-sensitive items before departing your current duty station. Once you leave, it can be difficult to address issues if you are no longer physically located at that duty station.

### 90 Days Before Departure from Current Duty Station

- Attend an overseas move class for Korea. Check with your Army Community Service (ACS) or other branch community service office to see if they offer such a class. You may also be able to attend your soldier's LEVY brief with him/her.
- Start a PCS binder to hold all of your PCS-related documents to hand-carry with you. You should include the following:
  - Copies of orders and amendments (10)
  - Wills (originals)
  - Power(s) of Attorney
  - Birth certificates (originals)
  - Marriage certificate (original)
  - Shipping documents for your Household Goods (HHG) and vehicle
  - Passports: government-issued and personal
  - ID cards
  - Driver licenses
  - Immunization/medical/dental/vision records (including any from civilian providers)
  - Pet documents
  - School records
- Sort your possessions into categories: luggage, unaccompanied baggage (UAB), HHG, non-temporary storage, and purge.
- Take a photo inventory of all household goods you plan to ship.
- Obtain Power(s) of Attorney.
- Update wills as needed.

- Contact the appropriate office on your installation to obtain a no-fee (government-issued) passport.
- Schedule medical and dental appointments to be completed before your move, including any recommended immunizations, and request records.
- Determine your preferred time frame for your HHG and UAB shipments, and contact your transportation office for scheduling.
- If you plan to drive in Korea, make sure your US driver license is valid for the duration of your time in Korea. Consider any extra time needed if your current license is not a Real ID and you need to renew in person with required documentation.
- If you plan to ship a vehicle you are financing, contact your lender to procure an authorization letter giving you permission to bring your vehicle to Korea.
- Complete required maintenance on any vehicle to be shipped, and start arranging for shipping.
- If you plan on bringing pets, determine what veterinary requirements you need to fulfill, and determine transport plans. If you are not bringing your pets, make a plan for their care while you are in Korea.

### 60 Days Before Departure from Current Duty Station

- Contact your insurance provider and determine what policy changes are needed.
- Renew your driver license and/or military ID, as needed.
- Start using up or plan to give away perishable or opened foods, anything in glass containers, flammable items, aerosols, etc.
- Check with your shipping company to determine any other items they will not ship or store.
- Find your state's guidelines for absentee voting while overseas (<https://www.fvap.gov/military-voter>).
- Purchase items that will be difficult to obtain in Korea to include in your UAB or HHG shipments.
- Obtain an international driver's license if you plan to drive in Asia (in countries other than Korea).
- Pre-register school-aged children online and obtain records from current school (<https://www.dodea.edu/registration-process.cfm>).

### 30 Days Before Departure from Current Duty Station

- ❑ Make reservations for temporary accommodations when you arrive in Korea. COVID requirements may be in effect.
- ❑ Apply for a Korea Electronic Travel Authorization (K-ETA) for all non-Korean citizens traveling except the military member (see exceptions in the K-ETA section). The online application requires a digital photo 700x700 pixels or less, file size less than 100kb, in .jpeg format, with one's face clearly visible.
- ❑ Make travel arrangements through the Travel Office. If traveling with pets, you should consider doing this as soon as possible as pet slots on the Patriot Express are limited and fill up quickly.
- ❑ Verify COVID travel and South Korea entry requirements and make any needed appointments.
- ❑ Contact the postal service, and arrange for your mail to be held. Soldiers and their families are assigned a mailbox and address during in-processing.
- ❑ Consider communication requirements to the US including telephone and messaging.

### 14 Days Before Departure from Current Duty Station

- ❑ Plan your baggage for the plane, including entertainment options and/or any treats for children
- ❑ Consider shifting your schedule to Korea Standard Time (KST) (UTC+9:00) by staying up and sleeping later
- ❑ Review 8th Army – Driving Overseas Information (<https://8tharmy.korea.army.mil/site/newcomers/driving-overseas.asp>)
- ❑ Download a copy of the Guide to Driving Safe in Korea (<https://8tharmy.korea.army.mil/site/assets/doc/newcomers/US-FK-Pam-385-2.pdf>).
- ❑ Contact banks/credit card companies for information on fees for international purchases and ATM withdrawals
- ❑ If you are traveling with pets, obtain a health certificate within 10 days of your arrival in Korea. It is recommended that you utilize a military veterinarian, as they have the USDA endorsement required for health certificates.
- ❑ Collect your Women, Infants and Children (WIC) Transfer Documents: WIC Transfer Form, WIC Identification Transfer Card of Verification of Certification (VOC) of Benefits; Forms depend on your current place of residence.

### Additional Tasks

- ❑ \_\_\_\_\_

### Documents

There are important documents that are necessary to have with you in order to make your PCS smoother. Here are some we highly recommend including in your PCS files.

### Orders

Your orders are the most important document to have with you at all times. Have at least ten copies of your orders, including any amendments, pinpoint orders, and any separate orders for family members, during your transition. Spouses, keep at least one copy on hand.

### Power of Attorney (POA)

It is wise for all servicemembers and their spouses to have a current POA. Remote assignments, deployments, and Noncombatant Evacuation Operations (NEO) requirements make a POA necessary in Korea. Whether your family will be accompanying you to Korea or remaining in the US, have a POA prepared before leaving your current duty station. Special POAs are on a case by case basis. Consult with the legal office at your current duty station to understand which one you need.

### Employment Records

Family members wishing to work in Korea should hand carry proof of previous employment, such as official personnel records, letters of recommendation, pay stubs, etc. Bring copies of diplomas, transcripts, and your marriage license to assist in qualifying for Military Spouse Preference. Family members wishing to work on the Korean economy, as an English teacher for example, need to bring their original diploma as copies of diplomas are not sufficient for the required E-2 Visa. Some employers and colleges require an official, sealed transcript with a signature or stamp along the seal line of the envelope.

## School Records

Ensure copies of school records are up-to-date and hand carried. For guidelines on required documents for Department of Defense Education Activity (DoDEA) schools, see the Education section of this publication. School records (diplomas and/or transcripts) are required in order to take college-level courses at the on-post university campuses.

## Mail

Put your mail on hold via online access (<https://www.usps.com/manage/hold-mail.htm>) or in person at your local post office. Hold requests are good for up to 30 days, unless you have permission from your Postmaster for longer. You can request a Change of Address (COA) once you arrive in Korea and are assigned your new address during in-processing. Another option is to put in a COA to a friend or family member's address while you are in transit. Once you are assigned your new address, you can put in another COA for your old address and your friend/family member's address to have it delivered to you.

## Driver License

Ensure your US driver license is current and will remain current for your entire tour in Korea (and a few months beyond). This is very important if you want to drive in Korea. Most Departments of Motor Vehicles (DMV) will allow you to renew your license at any time, so it is wise to do this before you leave the US. Within the first thirty days of your arrival, you will need to take an online test and obtain a United States Forces Korea (USFK) license to drive in Korea. There is more information in Chapter 4: Transportation regarding how to get your license.

## International Driver's Permit

If you plan to travel in Asia (Japan, Malaysia, Indonesia, etc.), we recommend that you obtain an International Driver's Permit (IDP), also known as an international license. You can get an IDP through the American Automobile Association (AAA) or the American Automobile Touring Alliance (AATA). Be aware that there are illegitimate agencies that will try to sell you false documents. You can get an IDP after you reach Korea, but it will take some time to process. You can check the AAA or AATA websites for more information.

## Identification Card

Your military identification card (ID) is your lifeline overseas. You will need this to get on post and gain access to most facilities. Until your ID card is registered in the Defense Biometric Identification System (DBIDS) and a ration card is issued (typically during in-processing), you will need a second form of identification to gain access to post (a passport works well). A copy of your pinpoint orders can be used to gain access to any Army and Air Force Exchange Service (AAFES) facility. For commissary access, you need a set of orders that shows dependents' names and is stamped by the ration card office, until you are registered in DBIDS.

## Insurance

Just like living Stateside, servicemembers and their families will need automobile and renters insurance to cover their cars and HHG while living in Korea. The insurance company you have in the US may provide coverage while you are in Korea, however, you must call them to find out. It is easier to call before you leave the US to confirm with your current insurance company or find a new one that can accommodate your needs while living abroad. Another option is to find one when you arrive as there are affordable, reputable Korean insurance companies who provide coverage to Americans.

## Automobile

Automobile liability insurance is required to register a motor vehicle with the local DMV and your installation. Check with your insurance company to be sure your auto policy coverage includes Korea.

## Personal Property/Renters/Homeowners

Many servicemembers choose to carry a "renters policy" to cover their personal property against fire and theft. Check with your insurance company and make sure your renters policy covers living abroad. Additionally, if you own a home in the US and plan to rent it out while you are overseas, talk to your insurance company regarding changes to your homeowner's policy.

## Passport

The US government will provide a (required) no-fee passport to all eligible command-sponsored family members. Contact your local

personnel office for the proper forms and information. The processing time is generally between six to eight weeks, so begin the process as soon as orders for command sponsorship are approved.

Do not depart your losing installation without applying for the no-fee passport. In some instances, you can travel to Korea using your tourist passport and your no-fee can be forwarded to you once completed. In the event you do not have a tourist passport and time is running out for your no-fee to arrive, consider applying for an expedited tourist passport. There are fees associated with expedited processing and you will not be reimbursed for these. However, it might be worth the price if you want to ensure traveling to Korea with your sponsor.

When applying for any type of passport for your children, both parents need to be present. If one parent cannot be present, Form DS-3053 "Statement of Consent" must be completed. You can get more information at <https://travel.state.gov> regarding passport regulations.

A servicemember can travel with his or her military ID card and a copy of their military orders to the overseas duty station. They are also authorized to stay for the full length of the assignment without a visa. However, all personal travel (leave) outside of Korea requires a tourist passport. If you wish to travel outside of Korea, each person in the family (to include the military member) is encouraged to have a US Tourist Passport. You can obtain a tourist passport through your local US Post Office for a fee. Servicemembers are advised to have a copy of their leave form whenever they go on leave. Whether you travel for fun or on orders, it's a good idea to take both your official and tourist passports with you; there can be confusion when exiting and entering the country.

### **Korea Electronic Travel Authorization (K-ETA)**

The Korea Electronic Travel Authorization (K-ETA) grants permission to non-Korean citizens to travel to the Republic of Korea. The K-ETA applies to non-Korean citizens of countries eligible for visa-free entry to the Republic of Korea.

US service members traveling to Korea on PCS or TDY orders, those who already have a visa issued by the Korean government, and those who apply via the website and receive an exception to policy letter from the Korean government do not have to comply with this requirement. However, all others traveling to the Republic of Korea must comply, including family members visiting the Republic of Korea. New General Schedule (GS) civilian hires and dependents listed on a service member's PCS orders who do not have an approved K-ETA exemption mem-

orandum issued by the Korean government must also comply with the requirement.

Obtaining a K-ETA must be done online via the K-ETA website, <https://www.k-eta.go.kr/> prior to starting travel. Registration costs 10,000 Korean won (about \$10 USD) per person. Successful registration will result in generation of a printable certificate for each person that will be received via an email provided by the requestor. Each certificate comes with a unique number and is good for two years. The website does not differentiate between adult, adolescent, or infant travelers. Those who fail to obtain a K-ETA prior to landing in Korea may be denied entry and may be subsequently told to re-board a plane back to their point of origin.

Personnel may claim the registration fee as a travel-related cost. PCS travel is claimed via forms submitted to the servicing finance office and TDY claims are processed through the Defense Travel System (DTS) online. For questions about claiming expenses incurred during travel, visit your servicing directorate of human resources or finance office.

When filling out the information online, the following may be helpful:

- Nationality is organized by continent. For US citizens, select "Americas," then "United States of America."
- Digital photos are needed to complete the online application. Photos must be 700x700 pixels or less, file size less than 100kb, in .jpeg format, with one's face clearly visible.
- The US Embassy address can be used as an address: 188 Sejong-daero, Jongno-gu, Seoul, Korea 03141
- In the second line (address line 2) please put your installation of assignment (i.e. Osan Air Force Base, USAG Humphreys, etc.). Korea zip codes can be used: USAG Humphreys 17977; Camp Walker (Daegu) 42505; Osan Air Base 17760; Camp Carroll (Wae-gwan) 39890.

Be sure to note the application number for your records at the end of the application process. For more information or to register, visit <https://www.k-eta.go.kr/>.

### **Korean Alien Registration Card (ARC)**

Generally, SOFA stamp holders are not required to get a Korean Alien Registration Card (ARC). However, in some circumstances, it may be helpful to have a card. An ARC allows foreigners to manage their digital identity in Korea. It can make Internet banking easier and make it

possible to register for certain types of classes. If you would like to get an ARC, you can fill out a form at the immigration office at the same location as the SOFA stamp office. Appointments at off-post Korean Immigration Centers can be made at hikorea.go.kr.

### Medical, Dental, and Vision Evaluations

Complete any upcoming dental or medical checkups, such as dental cleanings or children’s annual pediatric checkups (to include a sports physical if necessary) prior to departing for Korea. A current physical is required to enroll children in school, Child, Youth & School Services (CYSS), and other activities such as scouting, etc. Recent dental cleanings prior to departure will allow you time to get settled and obtain recommendations for providers in the area.

### Prescriptions

Fill prescriptions for all family members prior to departing for Korea. Plan to have enough on hand for the journey, any unforeseen delays, and for at least three months after arrival; be sure to hand carry them.

### Immunizations

Request the most current copy of shot records for all family members who are PCSing to Korea. A current immunization record is necessary to enroll children in school. For more information, please see Chapter 5: Health Resources.

- Photocopy of Sponsor and dependent(s) ID cards (front & back, color preferred)

### Personal Property

Moving your personal property for an overseas PCS is a bit different than what you may have experienced with when moving to a new location CONUS. Sort your possessions into categories: HHG (larger-item shipment), UAB (the “quick ship” smaller-item shipment), luggage (items that you will pack and carry with you), non-temporary storage, and items to donate/discard. It is a great idea to make a list for each shipment and physically separate (as much as possible) the items that are in the different shipments, as sometimes things can get included where they should not. Physically set aside the items you will hand carry in a closet or room that is marked off-limits to packers.

The Military One Source PCS & Military Moves page is a great resource and can viewed at their website <https://www.militaryonesource.mil/moving-housing/moving/pcs-and-military-moves/>. It gives you step-by-step instructions on everything you need to do to pack up and ship out. It also provides information on how to file claims for any damage incurred during the move once you arrive at your new duty station.

### Unaccompanied Baggage (UAB)

Your UAB shipment should include items that you will want to live on until your HHG first arrive at your new duty station. UAB will ship via air cargo and should be relatively quick. It is limited to 2,000 lbs. and cannot include furniture or major appliances. Remember that the UAB weight is part of your total HHG weight allowance. What you put in your UAB should be planned carefully, as the rest of your HHG can take two to three months in transit.

### Suggested UAB Checklist

- Pots and pans
- Cooking utensils
- Silverware
- Plates and bowls
- Linens
- PC/Laptop, printer, and paper
- Clothing and shoes (plan for the weather at your destination for the coming two to three months)
- Small tool set (including scissors)
- Small TV/DVD player
- Cleaning supplies (e.g. mop, broom, and vacuum)
- Pro-Gear
- Phone and charging cords

### Household Goods

Command sponsored families are authorized 50 percent of the usual weight allowance to be shipped to Korea. When deciding what to bring with you, think of the items that will make your residence feel like a home while overseas, such as home and holiday décor, furniture, and appliances. You will be able to borrow furniture from the USAG Humphreys Housing Office or you may find housing that comes fully or partially furnished if you decide to leave your furniture behind in non-temporary storage.

### Personally Owned Vehicles

Command sponsored families are authorized to ship one personally owned vehicle (POV). For information on how to prepare your POV for shipment and locate a Vehicle Processing Center (VPC) near you, visit <https://www.pcsmypov.com/>.

## Command Sponsorship

Command sponsorship means the government pays for dependents to travel and live with the military member overseas. Military members eligible to have their family members accompany them to Korea must fill out paperwork requesting command sponsorship. Command sponsorship benefits, requirements, and programs vary by service and your unit sponsor should assist you with this process.

**NOTE:** TRICARE coverage in Korea for secondary adult dependents (adult dependents living in the home other than the spouse) may differ from benefits at your current duty station. Verify the coverage and services you need for all members of your family prior to relocating to Korea.

Families choosing to accompany military members without command sponsorship will have very limited access to support services such as medical care, schools, and housing. If you need to apply for command sponsorship after arriving in Korea, contact the command sponsorship program office. Current information provided at: <https://8tharmy.korea.army.mil/site/newcomers/command-Sponsorship.asp>

## Pets

Many people decide to bring their pets with them to Korea while others decide to find other accommodations for them during their time overseas. Some things to consider when making this decision are costs of transportation both to and from Korea, age and overall health of your

pet, and potential residence type as some pets do not do as well without a large yard which may be difficult to find. All costs associated with pet travel are at your expense. If you are traveling with pets to Korea, it is important to plan as early as possible for veterinary requirements and transportation. Review the Pet Travel to Korea Checklist to help plan: <https://8tharmy.korea.army.mil/site/assets/doc/newcomers/pets/Pet-Travel-to-Korea-Checklist-202004.pdf>.

Additional information about living in Korea with pets can be found in Chapter 4, Living in Korea.

## **Veterinary Requirements**

### ***Rabies Certificate***

You must have a current, valid certificate of rabies vaccination for pets over the age of 12 weeks. This document must be presented when your pet arrives in Korea so be sure to have at least one copy of the certificate with you during travel.

### ***FAVN Test***

The Fluorescent Antibody Virus Neutralization (FAVN) test measures the response of an animal's immune system to the rabies vaccine. Pets traveling to Korea must have a passing FAVN Test from Less than 24 months prior to boarding (and ideally at least 30 days before travel). Ensure that you have a the original report of the satisfactory FAVN test. Pets younger than 90 days old are exempt from the FAVN test. Results, date, and lab must be stated on health certificate. The FAVN test may cost less if completed at your local military Veterinary Treatment Facility than your normal vet. More information about the FAVN test can be found at: <https://www.ksvdl.org/laboratories/rabies-laboratory/favn-test/>.

### ***Microchip***

All pets must have a working ISO or ISO Compatible Microchip regardless of age. Ensure this microchip number in your pet match that on the health certificate, rabies certificate, and rabies antibody test results.

### ***Health Certificate***

All pets traveling will need to have an original health certificate (USDA Veterinary Health Certificate for Export of Dogs and Cats from the United States of America to Korea) issued no more

than 10 days prior to travel. This form must be signed in blue ink. If the certificate is issued by a non-military affiliated accredited veterinarian, then it must also be endorsed by a USDA Veterinarian. If traveling from another OCONUS location, an original health certificate must be issued by an official host nation government veterinarian.

### ***Quarantine***

To help avoid the need to quarantine your pets upon arrival in Korea, ensure you have a valid, original rabies certificate; original, current, passing FAVN results; and completed health certificate. If you are not able to provide this documentation upon arrival, your pet will be quarantined at your expense.

## **Transportation**

### ***Patriot Express***

If you plan for your pets (only dogs and cats are authorized as pets) to travel with you on the Patriot Express, be sure to book your travel as soon as possible because pet slots are limited. Details for traveling with your pet on Patriot Express including kennel requirements and fees can be found on the AMC Pet Travel Page at: <https://www.amc.af.mil/AMC-Travel-Site/AMC-Pet-Travel-Page/>.

### ***Commercial Air Travel***

If there are no pet slots available on Patriot Express, you may be authorized to travel with your pets through a commercial airline. An Exception to Policy (ETP) may be required to book a commercial flight. Some airlines may have breed and size restrictions. Keep in mind that there may be periods of time that your pet may not be allowed to fly due to extreme temperatures.

### ***Private Pet Shippers***

You may choose to use a private company to manage the transportation of your pet from your current location to Korea. This may be a convenient option, but will often be an expensive service so be sure to research multiple shippers and receive price quotes to budget accordingly.

## ONCE YOU ARRIVE IN KOREA

Upon arrival, soldiers are required to present two complete copies of their orders and all amendments, medical and dental records, and leave form (DA 31), so be sure to have those readily available. Carry your identification card, ration control card (once you obtain it), multiple copies of your orders, a power of attorney, and your passport with you wherever you go for the first two weeks.

### In-Processing

All military personnel are required to in-process shortly after arriving in Korea. Locations for in-processing vary depending upon branch of service. Your military liaison or unit sponsor should know exactly when and where you need to go for in-processing. The following information is provided for your convenience, but call before you go to verify information and to check hours of operation. Many offices are closed for training on Thursday mornings.

## DBIDS/Ration Control

### DBIDS

Location: Maude Hall, BLDG 6400, 1st Floor  
Phone: 0503-357-4001/4002 DSN: 757-4001/4002

One of the first steps for inprocessing is to enroll in DBIDS and ration control. The sponsor must be enrolled in DBIDS in order for family members to enroll. All family members are required to be enrolled in DBIDS and must present their ID cards when enrolling. DBIDS enrollment is also required for vehicle registration.

You will need to be registered in the ration control system. Ration Control no longer issues physical ration cards for dependents. You will need a copy of the servicemember's orders showing assignment and command sponsorship number, a copy of passports for all family members, and a copy of all ID cards, front and back. The servicemember must be present; a POA cannot be substituted for the servicemember. Additional information regarding ration limits can be found in Chapter 4 Living in Korea.

## Housing

### Housing Office

Location: Maude Hall, BLDG 6400, 3rd Floor

Phone: 0503-357-2647 DSN: 757-2647

Hours: Mon-Wed & Fri 08:00-16:00, Thurs 09:00-16:00;

Closed for lunch 12:30-13:30; Closed all US Federal Holidays; Closed 08:00-13:30 every 2nd Thursday of each month for training; Open some Korean Holidays with limited services (out-processing only).

All servicemembers, regardless of branch of service or status, must in-process with the Housing Office within 48 hours of arrival or when in-processing is complete. All DoD civilians eligible for a Living Quarters Allowance (LQA) are also required to in-process with the Housing Office. The Housing Office will work to make your transition into your new home as smooth as possible.

All civilians, unless designated as Key Essential Personnel with specific approval to reside on-post, are required to live in off-post accommodations. The Civilian Personnel Advisory Center (CPAC) will advise you on your Temporary Quarters Subsistence Entitlements (TQSE) and LQA entitlements.

Housing Assignment Brief is held every Tuesday at 11:00. Accompanied and Unaccompanied personnel should report to the 19th Human Resources Company Auditorium on the second floor, Maude Hall (BLDG 6400). For military and civil service members; family members welcome.

### Accompanied Housing On-Post/Army Family Housing

Command sponsored accompanied personnel and certain designated key and essential civilians live on-post in Army Family Housing (AFH). Your PCS travel orders will normally state concurrent travel to government quarters and indicate bedroom number authorization and housing area location. The Housing Office personnel will brief you on projected quarters availability, Temporary Lodging Allowance (TLA) or Temporary Quarters Subsistence Expenses (TQSE), and place your name on the appropriate waiting list.

Bedroom authorization is determined by family size and children's age and gender. Couples with no children and families (either married couples or single parents) with one child receive two-bedroom units.

Families with two children generally receive three-bedroom units and those with three or more children generally qualify for four- or five-bedroom units.

If quarters are projected to be unavailable within 60 days of your arrival, or if you are granted concurrent travel to economy quarters, you may be authorized to reside off-post and receive Overseas Housing Allowance (OHA). Accompanied servicemembers of all ranks and branches, as well as DoD civilians, are strongly advised to first in-process with the Housing office prior to seeking off-post housing quarters.

**NOTE:** DoDEA buses operate within the established school bus commuting area. If you choose to sign a housing lease agreement outside the established school bus commuting area, it is the parent's responsibility to transport their child to the nearest DoDEA-approved bus stop.

### **Unaccompanied Personnel Housing (UPH)**

Unaccompanied personnel of all ranks and branches of service are normally housed in UPH on the installation. Personnel E4 and below reside in barracks. Personnel E5 and E6 may reside in barracks if adequate space and privacy criteria are met, or they will reside in the Bachelor Enlisted Quarters (BEQ). Unaccompanied officers and noncommissioned officers in the ranks of E7 and above are assigned Bachelor Officer Quarters (BOQ) or Senior Enlisted Bachelor Quarters (SEBQ).

Only when adequate quarters are unavailable will an unaccompanied servicemember be authorized to reside off-post. While all UPH meets or exceeds the criteria for square footage, they may not be able to accommodate a full weight allowance of HHG. Full furnishing support is available in all UPH.

### **On-Post Housing**

Humphreys has four different family housing areas and multiple barracks all around post. One family housing area is near the Sentry Mini Mall on Legacy Post and consists of three housing towers (Heartbreak Ridge, Bunker Hill and Punch Bowl Towers). The second family housing area consists of six high rise towers (Blackhawk, Apache, Chinook, Patton, Pershing and Abrams Towers) with three more (Hercules, Stryker and Bradley Towers) under construction at the time of publication, located near Humphreys Central Elementary School and Humphreys High School. There are two neighborhood housing areas near the Exchange

and Commissary for O-6/E-9s (Red Cloud Circle) and General Officers (MacArthur Circle).

### **Off-Post Housing**

Housing on the economy is plentiful and offers a wide variety of styles, to include many high-rise and villa (five stories or less) apartments, as well as a limited number of duplexes and single-family dwelling units. If you are eligible to reside off-post due to non-availability of adequate government quarters, or if you are a DoD civilian, you will be issued a Statement of Non-Availability (SNA) from the Housing Office. Once you receive an SNA, you are required to attend an off-post housing briefing. The briefing provides you a plethora of information about leasing on the economy, such as realtor information, security checklists, utility rates, and housing allowance entitlements.

Servicemembers residing on the economy are entitled to a monthly Overseas Housing Allowance (OHA) and Miscellaneous Housing Allowance (MIHA). The MIHA is provided to help defray the costs of setting up the off-post residence. Once you choose your off-post unit, the Housing Office will assist you with all the contract negotiations. You may choose to hire a realtor to assist with finding off-post housing to ease the selection process and expedite the negotiations with owners.

**NOTE:** DO NOT enter into a lease agreement without prior approval from the Housing Office.

### **Furniture Management Office (Loaner Furniture)**

Location: Maude Hall, BLDG 6400, 3rd Floor  
Phone: 0503-755-9551/9552 DSN: (315)757-9551  
Hours: Mon-Wed & Fri 08:00-16:00, Thurs 09:00-16:00;  
Closed for lunch 12:30-13:30. Closed all US Federal Holidays.  
Open some Korean Holidays with limited services  
(out-processing only).

Military families living on or off post, are authorized furniture support from the Housing Office. Discuss your specific needs with the Furniture Management Office for further information. Military families are authorized to keep the loaner furniture for the duration of their assignment, however, the furniture management office will only pick up one time, so be sure you know what furniture you no longer need prior to making arrangements.

Civilian families are only authorized six months furniture support as they are automatically entitled to full HHG shipments.

## **Korean Driver's License**

### **Driver License Testing Center**

Location: Transportation Motor Pool, BLDG P-7010, 2nd floor

Phone: 0503-356-3615 DSN: 315-756-3615

Website: <https://home.army.mil/humphreys/index.php/about/Garrison/403rd>

Hours: Mon-Thurs 08:30-16:30.

You must have a USFK driver license to drive in Korea, regardless if only driving on the installation. A stateside driver license, orders, and an ID card are required to obtain a USFK driver license. USFK's online driver's training and test are mandatory and can be completed before arrival within 60 days of applying for the license (consider time for transit, possible quarantine, test score processing, and time to make and get to an appointment).

You may not go straight to the test and skip training. You must take the training first before you will be allowed to take the test. A passing score on the test is required to receive a POV license and/or a military/GOV license. A Guide to Safe Driving in Korea and additional licensing requirements can be found at the USFK Driving Overseas website (<https://8tharmy.korea.army.mil/site/newcomers/driving-overseas.asp>).

Training and testing for the USFK Driver License (USFK 134EK) is conducted at the Joint Knowledge Online (JKO) website. The training and testing are open to all Service Members, DoD Civilians, and their respective dependents. Personnel with a CAC should log into JKO with their CAC and register for training. Personnel without a CAC must first create a JKO account using a user ID and password and then take the training and the test. Do not take the training and test using your sponsor's CAC. To receive credit for the training and the test, you must log onto JKO with your own account credentials. Additional information is at the USFK Driving in Korea website (<https://www.usfk.mil/Resources/Driving-in-Korea>).

USFK Driver Licenses are issued at the service installations in Korea. Once you have completed the driver training and pass the test on JKO, go to your installation driver licensing facility and present your DoD identification card (CAC or dependent ID) and a valid driver license.

Please allow 48 hours following your taking of the test to allow for system processing. The test facility personnel will look up your test score online to validate that you meet licensing requirements. Following test score verification, a USFK Driver License (USFK 134EK) will be issued. Training certificates will not be accepted as a proof of passing the online JKO training. Note: Procedures and service specific requirements may vary slightly. Check with your installation licensing office for specific details.

Teenagers under the age of 18 with a valid stateside license can have on-post only driving privileges. Teenagers 16 and over may apply for a learner's permit while stationed in Korea.

## **SOFA/A-3 Visa Stamp**

The A-3 Visa (which allows for multiple entries into Korea), and a Status of Forces Agreement (SOFA) stamp are required for active-duty servicemembers, DoD employees, independent contractors, and all dependents within 90 days of arrival in Korea. Dependents also includes newborns. You can obtain the SOFA stamp at your local immigration office, at USAG Humphreys, or at the Osan Air Base passenger terminal. When obtained through Korean Immigration, the A-3 Visa, and SOFA stamp will be valid for a maximum of two years, but not beyond the sponsor's Date Eligible for Return from Overseas (DEROS) date, the expiration date of the passport, or the expiration date of the sponsor or dependent military ID card, whichever is earliest. Therefore, to avoid a second trip to immigration, you should make sure your ID cards and passports do not expire prior to the sponsor's DEROS date.

The A-3 Visa and SOFA stamp are obtained at the locations listed below. Be prepared with the required documents (also listed below) to avoid longer wait time or having to return a different day. You can also contact ACS if you have questions about the visa application process. Visas/SOFA stamps are typically processed on a first-come, first-served basis, so wait time varies. Most people report shorter wait times at the Osan Passenger Terminal.

When applying, you must have a copy of your complete orders and color copies (front and back) of your sponsor's ID and the IDs of all family members getting stamps and visas. A SOFA stamp can only be issued through your DEROS, so in the event you are extended, make sure to update your SOFA stamp to save yourself any fees upon clearing for your final PCS.

## Required Documents for SOFA Stamp

- ❑ Completed ROK Ministry of Justice Form 34 (available at the SOFA office)
- ❑ Original valid passport (no-fee passport issued by Army)
- ❑ Clear photocopy of the passport data page
- ❑ Clear photocopy of Sponsor's ID card, front and back on the same side of paper
- ❑ Clear photocopy of dependents' ID cards, front and back on the same side of paper
- ❑ Original Military Assignment Certification Memorandum (received during in-processing)

## CHAPTER 4 LIVING IN KOREA

## HOUSING

The housing process for incoming personnel was briefly covered in Chapter 3: PCSing to Korea. Some information from the previous section will be reiterated here to provide context for additional information on living in Korea. However, this is by no means an all-encompassing guide to all things housing, as policies and regulations undergo frequent changes and revisions. Please consult the USAG Humphreys website and/or your chain of command for more detailed, up-to-date and personalized information.

As of now, after completing the initial five day in-processing, service members are assigned housing based on their status. Unaccompanied service members will be assigned to barracks by their unit. Accompanied Service members with Command Sponsorship will proceed to the Housing Office where they will be offered on-post housing, if available, or authorization to pursue off-post housing with an approved realtor.

Assignment to available housing should occur within 15 days of member arrival. If authorized to reside off post, service members must be able to show that they are “aggressively seeking housing” in the event that they do not sign a lease within that 15 day period.

If government family housing is not available, members can elect to be placed on the Army Family Housing (AFH) waiting list. Members will be placed on the waiting list based on member tour assignment, grade category and family size.

**NOTE:** Members will have 24 hours to accept or decline an offered government housing unit and it is the members responsibility to ensure Housing has all current contact information.

### Living On Post

#### Unaccompanied Personnel/Single Soldier Housing

Unaccompanied service members (E7 and above) are assigned to Senior Leaders Quarters (SLQS) if occupancy rates are below 95%. SLQS are fully furnished, one-bedroom apartments. The housing office will provide further guidance if occupancy rates reach over 95%.

All other single soldiers who arrive on an unaccompanied tour to USAG Humphreys will stay in new barracks. The barracks have spacious bedrooms and while each room may not be equipped with a kitchen or separate, private living quarters, there is a spacious day room with a

kitchen on each floor where soldiers may converge, socialize and prepare meals.

**NOTE:** Unaccompanied military personnel are **NOT** authorized to bring pets. PCS orders that state that personnel are authorized to bring pets to Korea are only referring to personnel on an accompanied tour.

## On-Post Housing

Incoming accompanied service members of all ranks, as well as unaccompanied service members (E7 and above) are required to reside in government on-post housing, if available, and will need to submit orders, pinpoint orders (if applicable) DA 31 or installation clearance paperwork via email to: [usarmy.humphreys.imcom-korea.list.usag-humphreys-housing@army.mil](mailto:usarmy.humphreys.imcom-korea.list.usag-humphreys-housing@army.mil).

All incoming personnel will be advised on the availability of on-post housing at the Housing Office. Command Sponsored Military families who arrive at USAG Humphreys and reside on post, will live in a modern Army community. The majority of on-post family housing is located in high-rise apartments. This may be a difficult adjustment for families accustomed to large single-family homes with lots of space and privacy. However, it opens opportunities to connect with other families and make new friends undergoing similar changes and challenges. Currently, the only single-family homes on post are reserved for the highest senior leaders. These housing communities are located on either side of the PX and Commissary. The remainder of family housing is just a few blocks down the road from this shopping area.

**NOTE:** Only 2 pets are authorized in military family housing.

Hours: Mon-Fri 0730-1630, Closed for lunch 1130-1230 and all Korean Holidays.

For simple repairs and improvements, you can borrow tools and obtain products at the Self Help Center in Building 1019. They can also provide contact information for people to assist with heavy lifting or other tasks. This service is only available to residents of on-post housing.

## On-Post Utilities

## Living Off Post

### Off-Post Housing

If you are eligible to reside off-post due to non-availability of adequate government quarters, or if you are a DoD civilian, you will be issued a statement of non-availability (SNA) from the Housing Office. Once you receive an SNA, you will be required to attend an off-post housing briefing. The briefing provides you with a plethora of information about leasing on the economy, such as realtor information, security checklists, utility rates, and housing allowance entitlements.

Housing on the economy is plentiful and offers a wide variety of styles, including many high-rise and villa (five stories or less) apartments, as well as a limited number of duplexes and single-family dwelling units. Pyeongtaek, being a more rural setting, offers many more single-family home options than are regularly available in more populated areas throughout Korea which may be good news for those of you not familiar or comfortable with apartment living. However, there are some significant benefits to apartments that you may not find in single family units, such as decreased utility costs, established waste management systems, on-site maintenance workers, well-kept infrastructure, and close proximity to public transportation as well as cafes, and eateries (sometimes in your apartment complex). Most importantly, it may be easier to develop a sense of community in apartments. Being stationed overseas can be quite difficult for many families. We all have friends and family we miss back home, but living in close communities can help make new, and sometimes life-long, connections that help ease the transition. So don't feel too disheartened if the perfect single-family home isn't available. You might find that apartment living is quite enjoyable, just be sure to ask about quiet hours and be respectful of your neighbors.

For more information on off-post housing, see the USAG Humphreys Off-Post Housing Community Information Facebook Group.

**NOTE:** DoDEA buses operate within the established school bus commuting area. If you choose to sign a housing lease agreement outside the established school bus commuting area, it is the parent's responsibility to transport their child to the nearest DoDEA-approved bus stop.

## Housing Assistance for Off-Post Living

If you will be living off-post, your realtor must be approved by the Housing Office. The Housing Office will provide you with a list of approved realtors. Off-post, any issues with housing (such as repairs, disputes, or payments) will go through your realtor. As long as your lease is mediated through the Housing Office with an approved realtor, your lease will include protections under the Servicemembers Civil Relief Act.

### Realtors

If you live off-post, use a realtor from the list provided by the Housing Office to ensure a smooth transition to your new home. Check with other people in your incoming unit or job to get realtor recommendations. Realtors in Korea are what we think of as property managers in the US. The housing selection provided by each realtor will be different because the realtors will only show you houses that they rent. So, if you do not find a home that suits your needs with one realtor, check with multiple realtors until you find a place you love.

Service members residing on the economy are entitled to a monthly Overseas Housing Allowance (OHA) and Miscellaneous Housing Allowance (MIHA). The MIHA is provided to help defray the costs of setting up the off-post residence.

Make sure you check the list of approved realtors provided by the Housing Office. It is updated frequently and you will not be able to enter into a housing agreement with any blacklisted realtors. Again, it cannot be stressed enough: DO NOT enter into any housing agreement without first consulting with the Housing Office. Always check with the Housing Office first.

### Electric

Electricity in Korea can be expensive. Many homes in Korea have room air conditioners, rather than central air conditioning. Many of the rooms will be equipped with an air conditioner in the corner or on the wall. The summer months in Korea are very hot and humid, so be sure to look for air conditioners in every room of the house when looking for a place to live and ask if the available units have a dehumidifying function or air purifying feature, as both will come in handy. Air conditioners and fans are available for purchase but are very expensive. You may need to negotiate with your realtor to get an extra air conditioner unit.

Also, when looking at homes and at the air conditioner units, you will

want to review the energy efficiency rating. The energy efficiency rating is a scale of 1-5 with 1 being the lowest and 5 being the highest. You will want appliances that are low ratings to help save money on electricity. Some homes may have solar panels that can help reduce the electric bill. By being smart about your energy usage you can keep your electric bill down to a reasonable amount even in the dead heat of the summer!

**TIP:** Only have the air conditioner on when you are in a specific room, otherwise leave it off with doors and windows closed to help keep the room cool.

## Gas

Most off-post housing units will utilize the Radiant Floor Heating System or Hydronic Heating. Units are heated from the floor through a series of tubes flowing with heated water rather than the traditional forced air duct system most people from the US are used to. Radiant Floor Heating Systems are more efficient, cost-effective, and oh-so-cozy during the brutal Korean winters. Depending on where your housing unit is located, you will utilize either city gas, which is cheaper, or the 'county' gas. Most of the stoves, ovens, water heaters, and dryers are also gas operated, so be sure to ask your realtor who your gas provider will be and what previous tenants typically paid during the winter month.

**TIP:** Generally, in the summer months your electric bills will be higher while your gas bills are lower, and in the winter months your gas bill will be higher and the electric bill will be lower. Be sure to set money aside when your bills are lower than you expected so it is not as big of a shock when the bills are higher than you expected.

## Water

Water treatment in Korea is top notch. Unfortunately, some pipes are not, which has caused many people to distrust the tap water in Korea, despite the high ratings their water treatment systems receive. Many homes in Korea will come with a water filter dispenser, that dispenses hot and cold water, or they may have a bottled water service. You can discuss these options with your realtor and ensure that if you do have a service or a filter you understand when the filter is changed and/or when the water is delivered. It is also advised to procure shower filters in order to soften the water for bathing.

## Internet

Korea has the fastest Internet in the world! Usually, your Internet is included in your rent and you can discuss your options and choices with your realtor.

## Television and Streaming

Korean cable is also typically included in your rent or with your Internet service. You can also discuss these options with your realtor. There are some English movies and television shows on many of the Korean services that your realtor and/or your cable installer can show you how to access.

You can get a smart TV or a media streaming device such as an Amazon Firestick or Google Chromecast and stream to your heart's content. Content may vary from platform to platform. You may need a VPN to access platforms you're accustomed to such as HULU, Amazon Prime, and Disney+. Netflix is available but you may not be able to access all the shows your friends and family can back home (but you will also have content they do not and sometimes even have access to select shows and movies before they do).

## Armed Forces Network (AFN)

Personnel living off-post and wishing to have access to AFN programming will need to lease a decoder box and purchase a Direct to Home (DTH) cable TV satellite dish at the PX. Fees include an installation charge (usually between \$100-200) and monthly decoder fees (about \$15). For satellite installation service in the Humphreys off-post area contact 070-4230-8994.

**NOTE:** Many apartment complexes and rental properties do not permit installation of AFN DTH equipment. Refer to the list provided by the housing office. Review AFN availability carefully before entering into a lease agreement since AFN is the source of many service force protection advisories. (Military websites also carry many of the same advisories.) Servicemembers and DoD civilians who rent a property where DTH equipment installation is not available must sign a housing office statement of acknowledgment. If the landlord does allow installation of AFN DTH equipment on his or her property, you must obtain written permission beforehand.

## Trash and Recycling

Off-post housing units will need to sort their trash based on type: general waste (AKA burn trash), food waste, plastic, glass, paper/cardboard, metal, styrofoam, vinyl, batteries, lightbulbs, and clothing. Larger items and appliances require special stickers in order to be picked up for disposal. All homes will have designated trash areas, so be sure to check with your realtor about where to dispose of waste and the proper procedure for your residence. Most trash collection areas are monitored by CCTV to ensure proper disposal of trash.

The commissary sells trash bags for general and food waste for those living in Pyeongtaek. If you live outside of Pyeongtaek, talk to your realtor about the specific trash bags you need and they can tell you where to purchase those bags. Most convenience stores or local markets will carry general waste and food waste bags for your area.

### General Garbage

General garbage is everyday waste. General waste bags come in a variety of sizes from 10 or 100 liters. Most large trash cans will fit the 75L bags. Anything that is not food or one of the recycling categories is thrown in the general waste bag.

### Food Waste

Food waste is edible waste that may attract stray animals. You should not put shells, bones, or fruit seeds in these bags. The general rule is that any food that an animal could eat should go in this food bag. Food waste should be cut up and placed in a special food waste bag to be disposed of. Many people find it helpful to freeze food waste so that it does not smell while they are filling up their food waste bag. These also come in a variety of sizes, with 5 to 10 liter bags are the most commonly used.

### Recycling

Recycling should be sorted and put into clear plastic bags unless you live in an apartment complex with a trash house that has bags set up for you already (in which case you can just throw your recycling directly in those bins). Styrofoam, vinyl, paper, cardboard, glass, metal, plastic, batteries, lightbulbs and clothes are all recycled.

### Large Items Disposal

Large items such as furniture need a special garbage tag to be dis-

posed of properly. Contact your realtor and tell them what you need to dispose of. They will tell you which tag to buy and where to buy it.

## Parking

Parking in Korea is a little different than in the US because public transportation is cheap, clean, and efficient and therefore many people don't drive. As such, parking spaces may be in short supply. Your realtor can let you know where it is and is not acceptable to park at your residence. Most apartment complexes and homes have designated parking areas and often designated parking spots, so make sure you're in the know so you can be a good neighbor.

## Housing Services for On- and Off-Post Living

## CELL PHONE SERVICE

Korea is the most wired country in the world. Only unlocked US cell phones will work in Korea, but you need to purchase a Korean SIM card and calling plan. Also, an unlocked US phone may not receive the fastest Internet connection available in Korea depending on the make and model of the phone.

Some Korean cell phone plans include calls to and from the US at reasonable prices, so check your options before you buy. Some carriers offer a phone number you can call that will connect you to the US without any additional fees.

Unlike in the US, military orders will not allow you to cancel your cell phone contract. If you leave before your contract is complete, you will need to either pay off the remaining months of the plan or sell your plan to someone else. If you take over a contract, you will need to take the phone to the place of purchase and change the payment information associated with the phone.

**NOTE:** The US Military and the Korean government require drivers to use a hands-free device, no headsets, so if you must take a call while driving, find a safe place to pull over and take the call.

## Where to Buy a Phone and/or Plan

New and used phones are available, ranging in price from \$50 to \$500. Plans vary with the service and minutes you need. A basic plan starts for as little as \$10 per month, plus the cost of the phone. Read all service agreements carefully; some plans charge for all calls made to cell phones operated by other service providers.

LG Uplus is available at:

- Bldg. 5700 (PX): 070-7597-0501/0502
- Bldg. 400 (Sentry Mall): 070-7597-4003
- Bldg. 6400 (Maude Hall): 070-7597-0511

KT (Cell Phone only) is available at:

- Bldg. 5700 (PX): 070-8879-0040
- Bldg. 400 (Sentry Mall): 010-6647-9195

## Prepaid Phone Cards

Prepaid phone cards are another convenient option. More time can be purchased and added, or have several months programmed in at a time, for approximately \$10 minimum per month. Several businesses on post sell phone minutes, including the PX, and they will program your phone for you. Ask for details about programming cards and expiration dates when purchasing your phone.

## MONEY

### Financial Services

#### ATM Access

You can get cash or make account inquiries with your credit card or ATM card which displays the AFFN or CIRRUS Network logo. Ask your

bank about service fees. Many banks will not charge ATM or currency conversion fees for service members on active-duty overseas orders. The ATMs on Humphreys are operated by Community Bank and do not charge an ATM service charge for withdrawing USD or Won.

## Cashing Checks

Many people elect to keep their checking account at a US bank or credit union. The Community Bank and Navy Federal on the installation cashes checks if you have an account with them. You may cash personal checks for up to \$200 at the PX Customer Service desk.

## Currency Exchanges

On post, banks and ATMs dispense both US dollars and Korean won. Pay close attention to the current conversion rates to ensure you get the best value for your money. There are a number of currency exchange centers off post that will exchange US dollars to Korean won. A quick Internet search or a phone app will give the daily exchange rate. Shop around to get the best rate. Larger sums of money will usually maximize the exchange rate. This service is especially important for those living off post who pay monthly rent in cash.

**TIP:** When estimating how much you will pay for something most people generally stick with a \$1 to ₩1000 rate to make it easy. But for an accurate conversion, use a phone app such as: XE Currency.

## Banks

The following financial institutions provide banking services in the USAG Humphreys area. On-post banks observe both US and Korean holidays.

### Community Bank

Community Bank operates the banking facilities on all posts and bases in Korea with full-service banking (direct deposit, won conversion, new and used auto loans, and ATM access). The Community Bank ATM card offers 24/7 banking with no fees for withdrawing US dollars, Korean won, or balance inquiries. Community Bank offers 13 full-time branches, two part-time offices and a network of 48 ATMs on the peninsula.

**NOTE:** The ATMs will only allow you to withdraw \$600 at a time, even if your ATM withdrawal limit is increased, so you will have to do multiple transactions to withdraw over \$600.

### Navy Federal Credit Union

Location: Downtown Village Bldg. 6430, Marne Ave.  
Phone: 888-842-6328  
Hours: Mon- Fri 09:00-17:00

Navy Federal Credit Union offers online banking, credit and debit cards, auto loans, lines of credit, signature loans, CDs, and IRAs. There is an ATM available on site.

### USAA

If you bank with USAA, call them to set up a system for local ATM withdrawals. You can change your one-time ATM withdrawal limit amount either permanently or once every seven days. However, ATMs

usually limit withdrawals to \$600 at a time. To withdraw enough cash to pay for rent or purchase a large item, you will need to make multiple withdrawals.

### **T-Money Card**

The T-Money card is a reloadable plastic smart card that doubles as a transportation (hence the name T-Money) and electronic cash card. Use it to pay for trips on city subways, buses, trains, taxis, parking, convenience store purchases, and more. To purchase and reload your T-Money card, visit any convenience store such as CU, GS25 or 7 Eleven, or any subway station ticket kiosk. For bus and subway fares, children and teens receive a discounted rate, but must be with you when you purchase their T-Money cards so that they can register for the appropriate age rate.

### **Korean Bank Accounts**

You may opt to open an account with a Korean bank because it makes it easier to pay for items on the economy such as traffic tickets, parking violations, and parking. Prior to opening an account with a Korean bank, conduct research on requirements such as documentation and minimum balances. If you hold a security clearance, remember that any account opened at a Korean bank must be properly disclosed as a foreign bank account.

## **TRANSPORTATION**

The following section serves as an introduction to some of the various transportation methods available to you both on and off your installation.

### **Driving Privately Owned Vehicles (POV)**

For information on driving POVs, visit <https://8tharmy.korea.army.mil/site/newcomers/driving-overseas.asp>. The following personnel (and their US State licensed dependents age 18 or older) are authorized to obtain a POV License after passing the local written exam:

- Personnel in Command Sponsored status accompanied by family
- Personnel in a joint domicile status authorized a POV on their orders
- Member of the US Armed Forces in the rank of Sergeant First Class (E-7) or above
- Department of the Army civilians in the grade of GS-5 or above and USFK technical representatives
- Invited contractors\* who have SOFA privileges
- Personnel who have a letter of approval by the USAG Humphreys Commander for exception to policy

\*Invited contractors, their employees (including Koreans), and dependents of contractors who operate a POV in the Republic of Korea must first obtain a valid ROK driver's license. To obtain a ROK driver's license, you should have a valid US State driver's license and USFK Form 700-19A-R-E.

Non-Command Sponsored service members, E-6 and below, require approval from the first O-5 in their chain of command IAW USFK REG 190-1 dated 10 May 2012.

### **Driver's License Testing Requirements**

Anyone who wants to drive in Korea, on or off the installation, must obtain a USFK driver's license. USFK's online driver's training and test on JKO are now mandatory. This change allows sponsors to assist authorized troops and families before they arrive. You may not go straight to the test and skip training. You must take the training first before you will be allowed to take the test. A passing score on the test is required

to receive a POV license and/or a military/GOV license. Service members will need to establish JKO accounts for dependents who will be taking the training and test. Once the training and test is passed on JKO, go to the installation driver's license facility on post, present your CAC or dependent ID and a valid driver's license. To prepare for the driver's license test, visit: <https://www.usfk.mil/Resources/Driving-in-Korea/>.

**NOTE:** Test scores are good for 60 days. Licenses will not be issued to personnel that have taken the test more than 60 days prior to applying for a license.

### ***Driver's License Testing at USAG Humphreys***

Location: Bldg. P-7010, Indianhead Ave.

Hours: Mon-Fri at 08:30 (Fri 13:00 for Korean Nationals and KATUSAs only); license pick-up is after 15:00 the same day, if you pass the test.

### **Learner's Permits**

Installations with a driver testing facility may issue learner's permits. Permits may be issued to Command Sponsored and Non-Command Sponsored family members age 16 or over. Once the permit is earned, they may only drive on the installation.

To obtain a learner's permit, the applicant must meet the following requirements:

- USFK written and vision tests
- Proof of US state-approved or installation/garrison commander-approved driver's education course (no hands-on required)
- Command Sponsorship & Sponsor approval
- Proof of insurance

**NOTE:** Operators with a learner's permit may only drive on the installation during daylight hours in the company of someone with a USFK license.

### **Hi-Pass**

A Hi-Pass is a device used for paying tolls on Korean expressways, similar to the EZ Pass found in the US. Instead of manually taking a ticket at a toll booth when entering and then paying cash when exiting a freeway, the device allows you to utilize special lanes (marked with a

blue stripe on the lane's surface) and deducts the toll from your prepaid Hi-Pass Card that sits in a card reader.

The Hi-Pass reader and pre-paid Hi-Pass cards can be purchased at the Sentry Supply Shop, Bldg 449, Monday through Saturday from 10:00-18:00. The Hi-Pass reader can also be purchased at rest stops along freeways, such as Expressway 1 (Gyeongbu Expressway) between Pyeongtaek and Seoul. There are also Hi-Pass tents just past the toll booth at some expressway entrances. You will need your vehicle registration, and the name on the registration must match the name on the Hi-Pass reader. The Hi-Pass is linked to the vehicle on the registration and cannot be used in another vehicle. You can use cash or credit card to purchase the reader. The reader attaches to the lower center of your windshield (some are battery-powered, and some plug into your car).

After purchasing the reader, you must then purchase and load money onto the card that fits in the reader. These are not typically sold at the Hi-Pass tent. You may need to visit the rest stop information office or a Hi-Pass service center to purchase one. You can also reload your card at a GS25, CU, or where you purchased your Hi-Pass card. You will need cash to load your Hi-Pass card.

**TIP:** If you forget cash when getting your Hi-Pass you can usually find an ATM near the Hi-Pass office or tent in the rest area so you can load your Hi-Pass card.

### ***Accidental Hi-Pass Lane Use***

If you drive through a toll booth in a Hi-Pass lane but do not have a Hi-Pass, you will hear a siren. Do not back up to go through a regular toll lane! Just keep going. You will receive a ticket in the mail for the amount of the toll that you should have paid, and you can pay the bill by visiting a Korean bank/post office, your realtor if you live off post, or a GI Bill Pay office (additional fees apply to the latter).

If you have a Hi-Pass system and you hear the siren, your Hi-Pass card may be out of money, the Hi-Pass system may not be on, or the batteries may be dead. Continue through the toll booth and you will receive your ticket in the mail. Just be sure to check your system and the card as soon as you can.

### **GPS/Navigation Apps**

GPS devices and/or navigation apps can assist you in reaching your destinations around Korea.

Your installation's Exchange facility sells the AVOL brand GPS, which should come with all of the USFK military installations pre-loaded. Or, check your installation's thrift store or "buy and sell" Facebook pages in your area for a second-hand GPS.

KakaoMap, Naver Map, and Waze are popular navigation apps. Naver Map works best for trips outside of the local installation area (destination about an hour away) and Waze is best for navigating on post or close to post. If you use Waze and happen upon a store or restaurant not already in Waze, be sure to add it so that others can enjoy it, too!

### **On-Post Tickets**

Tickets are issued on-post by the Military Police (MPs) for parking or moving violations, such as speeding or failing to stop for a bus that is loading/unloading. Tickets issued to USFK service members or their family members will be forwarded to the unit commander. Drivers who receive tickets will have points assessed against their license according to Appendix C (Traffic Points Assessment Matrix) in USFK Regulation 190-1. Points assessed remain in effect for point accumulation for 24 consecutive months. Certain offenses such as driving under the influence or failing to stop for a bus that is loading/unloading (not in a designated pull-off area) may result in driving privileges being immediately suspended.

### **Off-Post Tickets**

ROK police generally do not pull drivers over for a moving violation. Parking, speeding, and Hi-Pass or bus lane violations are recorded via cameras on Korean roadways. Tickets are delivered to the address listed in your vehicle registration and can be paid at a Korean bank, post office, or your realtor can assist you if you live off-post. It is important to pay your fines promptly, as your driving privileges may be suspended until your fines are paid. Service members cannot clear the installation during out-processing until all fines are paid. Should you wish to contest a traffic citation, you must coordinate directly with ROK authorities (remember all fines are still your responsibility until they are overturned).

### **Traffic Regulations**

Drivers and pedestrians must comply with signals and instructions given by traffic safety facilities and traffic officers. If competing directions are given, obey the directions provided by traffic officers. Traffic

signals are a basic safeguard against traffic accidents and social convention. Noncompliance with the traffic signs is considered a traffic violation.

A green traffic signal means vehicles can go straight or slowly turn right so long as it does not impede other vehicles. An unprotected left turn sign signals that you may turn left as long as you do not interfere with traffic. If you interfere with traffic, you have violated the signal. If the intersection does not have an unprotected left turn sign, that generally means you must wait until the green left turn arrow appears. 20% of all traffic accidents take place at or around intersections so be alert and drive with caution.

### **Rental Cars**

Consider the following if you wish to rent a car:

- The renter must be 21 years or older and possess either a USFK license, an international driver's license, or a Korean driver license with at least 1 year of driving experience.
- Insurance is offered for an additional fee.
- Base access decals for all USFK installations in Korea are included.
- Rental costs range from \$80-\$150 per day, depending on vehicle type. Discounts are available for rentals of two weeks or longer.

## **Breakdown/Accident Procedures**

In case of an accident or breakdown, always be prepared. Have your registration and insurance card in your vehicle and be sure to store the following numbers in your phone (112 for police, 119 for fire and ambulance, and your installation MP office). A helpful option is to have front- and rear-facing cameras installed in your vehicle to document accidents. These can be purchased locally or on Amazon and installed locally. It is a good idea to print out Appendix B (Driver's Assistance Request) from USFK Pam 385-2, which has a list of helpful driving-related phrases in English and Hangul.

### ***Accident Procedures***

1. Stop immediately
2. Aid the injured
3. Call 112 and/or 119 (or your local MP office if on post) to report location, date, time, injuries, and damage
4. Document the scene with your cell phone camera
5. DO NOT LEAVE THE SCENE and be sure to follow directions given by the police once they arrive
6. If the accident is on-post, follow the directions of the post MP
7. If the accident is off-post, follow the directions of the KNP

### ***Breakdown Procedures***

In case of the event of a breakdown, have the following in your vehicle at all times: warning triangle and a survival kit (blanket, water, food,

and first aid kit). Pull to the far right of the roadway, if possible, and turn on hazard lights. DO NOT exit the vehicle unless absolutely necessary, and if you must, do so on the right side of the vehicle. Call 112 to dispatch the nearest police or wrecker service in the vicinity. Wait with the vehicle until the police or wrecker arrives and render it safe to exit the vehicle.

## **Bicycles/Scooters**

Riding a bike or scooter is a convenient form of transportation while you are stationed in Korea. Bicycle/Scooter parking is available near most buildings on your installation. Bicyclists and those on scooters must adhere to the same traffic laws as drivers and have the same rights as drivers. Reference USFK Regulation 190-1 Motor Vehicle Traffic Supervision Section B-18 for the complete policy.

All military personnel, civilian employees, and family members who ride bicycles, motorized skateboards, scooters, or motor scooters do not require a license, but must register any such personally owned conveyance within 10 days of purchase IAW USFK Regulation 190-1 dated 12 May 2012.

Here are a few guidelines to keep you safe and in compliance:

- Register your alternate mode of transportation at the DBIDS Office.
- Wear a helmet (all ages).
- During the day, wear high-visibility clothing.
- At night, wear reflective gear and use front and rear lights.
- Ride on the right side of the roadway and in the direction of car traffic.
- Riding on the sidewalk is reserved for children.
- Follow all traffic laws including stop signs and traffic lights.
- Use hand and arm signals to show your intent to turn or stop.
- Take extra precaution at intersections.
- Riding on the sidewalk is reserved for children.

Off post, you will find bicycle parking throughout the area, especially near subway stations, bus terminals, and other transit interchanges. The subway welcomes bicyclists on the first and last cars of the train outside of peak commuting times. Visit the Military Police Station for the latest information on the rules of the road for bicyclists and those on scooters

in your area.

Riding bikes on area trails is a common activity on the weekend for locals and foreigners alike. These trails are for pedestrians and bicycles only. If you happen to be in Seoul, the Han River Trail is one of Seoul's most extensive bike networks. It offers a chance for exercise and leisure with spectacular views of the city along the river. If you do not have a bike, there are plenty of bike rental kiosks along the trail.

## Taxis

### Taxi On-Post (AAFES)

AAFES Taxi are black taxis. Taxi stands on USAG Humphreys can be found near the Pedestrian Gate, Downtown Shopping Area, Sentry Village, near soldier barracks on Marne Ave., and by the Troop Mini-Mall (Indianhead Ave. and 5th St.).

To call an AAFES Taxi:

- DSN: Dial 99-663-4121 or
- Smartphone App: AAFES Taxi
- Text: 1544-9080 and use the following format: #pick up location #destination #Military Base#
- Be sure to include the building numbers.

### Taxi Off Post

Commercial Taxis are silver/white taxis. There is a taxi stand outside the Pedestrian Gate. These taxis cannot enter post. Ask for Camp Humphreys/K-6 (Anjung-ri for the Pedestrian Gate) or Osan Air Base/K-55 if you are heading to an installation.

### *Yonghap Unsong Transportation Consortium*

These taxis have access into USAG Humphreys, but not Osan. Customers wishing to use this service to get to Osan will have to exit the taxi at the gate at Songtan. Dispatchers speak English; drivers may or may not speak English. Payment is only in Korean won, and a 1,000 won service fee is added to the fare (if a customer can flag down a taxi on post without calling in a request, the service fee is waived). The phone number is 1544-9080.

**NOTE:** Many of these drivers may not be familiar with USAG Humphreys, so patience is necessary as they learn the routes.

## Buses

### On-Post Buses

Your installation has on-post shuttles that are free of charge for soldiers' and family members' use. These generally run from 05:30-01:00 Monday through Friday and 07:30-01:00 on Saturdays, Sundays, and training holidays. Find the Humphreys on-post shuttle bus online at: <https://home.army.mil/humphreys/index.php/about/Garrison/logistics-readiness-center/usag-humphreys-transportation-page>.

### Inter-Post Buses

Buses run regularly from early morning to evening between some USFK installations, such as Humphreys-Osan-Yongsan, as well as Yongsan-K16. Buses arrive and depart USAG Humphreys from the Bus Terminal on Freedom Road (Bldg. 1780). The terminal hours are from 05:00-21:00 with counter service until 17:30. Prices vary depending on length of ride, from \$3.50 to \$8.00 one way.

### Off-Post Buses

South Korea has wonderful public transportation. Buses are common in all cities and some of the larger cities, like Seoul and Busan, offer tour buses of the city. Using apps like KakaoMaps, Naver Maps, and Citymapper can help you plan bus routes. These apps make transportation easy.

### City Bus

These buses run within the city and are paid for with cash or T-money card (see Money section above for more information on T-Money cards). Bus routes are designated by number, and the most commonly used one at Humphreys is 20 (known as "the 20 bus"), which takes you from the main gate to AK Plaza/Pyeongtaek Station. The city bus runs from 05:30-23:30, and a list of route 20 stops can be found at this website: <http://webhousebook.com/?p=1437>. These buses run frequently, and most stops have screens that tell you when you can expect the next one to arrive.

### Express Bus

These run-on expressways, and while they may stop at rest areas, they seldom stop in a city other than the destination. For schedules and tickets,

visit [www.hticket.co.kr/main.do](http://www.hticket.co.kr/main.do). The top right of the screen has a drop-down menu that allows you to translate the site to English.

## Intercity Bus

These usually make stopovers at smaller cities while on their way from one region to another. Tickets and schedules may be found at [tbus.t-money.co.kr](http://tbus.t-money.co.kr).

## Airport Buses

These buses run between Pyeongtaek and the airports making a few stops at bus terminals along the way. Leaving from the Pyeongtaek Intercity Bus Terminal (a short walk down the street from AK Plaza) gives travelers multiple time slots for bus rides to either Incheon (Terminals 1 & 2) or Gimpo airports. Tickets can be purchased in the terminal, although, for early morning rides there may not be an attendant behind the counter; in this case you can pay cash to the driver.

There is a purple airport limousine bus with six daily departures from the bus stop outside the main gate in Anjung-ri (the “Ville” just outside the USAG Humphreys Walkthrough gate) to the Incheon terminals only, making several stops along the way. The fare is 16,300 won for adults and 8,200 for children. You should try to have exact change, if possible. In order to take the airport bus back to Pyeongtaek or USAG Humphreys from Incheon, purchase a ticket at the booth outside exit 8. Depending on the time you depart the airport, you can either get a bus to Anjung-ri or to the Pyeongtaek Bus Terminal. The salesperson can direct you to the stall from where your bus will depart.

## Trains

The train system in Korea is very dependable and can be an excellent alternative to driving. Trains are equipped with restrooms (to include changing tables), overhead bins for small articles, and luggage racks. Tickets can be reserved up to 1 month in advance by either visiting the train station or the Leisure Travel Services:

### *Discover Seoul Travel Office*

Location: Bldg. 5711 Downtown Plaza

Hours: Mon-Sat 10:00-21:00

Website: [letskorail.com](http://letskorail.com)

## KTX/KTX Sancheon

These are the high-speed trains that allow passengers to travel anywhere in Korea in less than 3 hours. KTX trains carry 935 passengers, and the KTX Sancheon trains carry 363 passengers. Both have first class and standard class cars. There are 5 KTX Lines: Gyeongbu, Honam, Gyeongjeon, Jeolla, and Gangneung Lines, which spread from Seoul to the southeast and southwest of Korea. A great map of the lines can be found at [https://info.korail.com/mbs/english/subview.jsp?id=english\\_050401010000](https://info.korail.com/mbs/english/subview.jsp?id=english_050401010000).

## ITX

There are two types, the ITX-Cheongchun (which runs from Yongsan Station to Chuncheon City in the east) and ITX-Saemaoul (which runs on the Gyeongbu, Honam, and Gyeongjeon Lines).

## Mugungwha-ho

This is the slowest and cheapest class of train because it stops at the most stations. The two types of cars available are passenger and cafe cars. Nuriro (this medium to long-distance train) mainly travels from Seoul to Sinchang.

## SRT

Introduced in late 2016, the Super Rapid Train begins at Suseo Station in Seoul and terminates in either Mokpo or Busan. It travels up to 300 km/hr and carries 410 passengers. The closest SRT station to USAG Humphreys is Jije Station, and travelers wishing to travel via SRT may either drive and park at the station or take Metro Line 1 from Pyeongtaek Station one stop to Jije. You can purchase tickets at <https://etk.srail.co.kr/main.do?language=EN>.

## Tourist Trains

Visit the following website for information on several tourist train options: <http://www.letskorail.com/ebizbf/EbizBfTrainFleet.do#tab5>. You can book the following first 5 options online using the link.

### *O-Train (Central Inland Circle Train)*

## **Subway**

With twenty-three subway lines, and 728 stations serving over 20 million people, the Seoul Metro Railway System is one of the largest and most efficient in the world. The metro covers the entire metropolitan region. Camp Casey and Osan Air Base are accessible via subway. You can expect the subway to be crowded during peak commute times. Here are some tips to keep in mind when navigating the subway system.

### ***Maps***

Download a subway app such as KakaoMetro, Seoul Metro, or Subway. If you know your origin and destination stations (and many tourism websites will give you a station and exit for reference), you can plot them in the app, which will tell you the fastest route, including transfers.

**TIP:** The Visit Korea app will tell you what subway station as well as what exit number to take to get to your destination and is great when used in addition to KakaoMetro.

### ***Fare***

Load your T-money card or have Korean won to purchase a single-fare ticket at a station kiosk. The T-money card provides a small discount and allows free transfers. Adults can travel up to 10km for 1,250 won. Kids under 6 are free. Children from 7-12 pay 450 won, and teens 13-18 pay 720 won.

### ***Language***

Signs and notices are in English, Korean, and other languages.

### ***Hours of Operation***

The Seoul Metro operates from 05:30 to midnight, but some station hours vary, so confirm on your app.

### ***Station Ins and Outs***

Verify the station name at your origin and determine the station you need for your final destination. Each station will have multiple street level entrances. Use the street level marker to verify the station information. Stairs, escalators, and/or elevators will take you into the station.

### ***Enter the Gate***

Have your T-Money card in hand and approach the turnstile or subway gate. The green arrows on the turnstiles indicate which gates to enter; the red circles on the turnstiles indicate which gates are not for entrance. Sometimes these indicators change based on the direction with the most demand at the time. Locate the T-Money reader on your right side. Place the T-Money card on the reader until you hear it beep. The display screen will show the trip fare at the top and the remaining balance on the bottom. The fare for transfers is zero. If the card does not scan, the turnstile will lock or the gates will close. Try again then ask for assistance from a subway attendant or fellow passenger.

### ***Locating Your Platform***

This may require going down several levels and walking through hallways to connect to your train. Follow the signs to your line number. Knowing the color of your line will help locate it quickly. The sign will also list other stations in the direction of travel for that line. Know your direction of travel to avoid getting lost. Some lines use the same platform for both directions while other lines use different platforms located in different areas of the station.

### ***Riding the Subway***

Trains run frequently in Seoul, so wait time is short. Expect the subway to be crowded during peak commute times. When the subway is crowded, riders will form two lines in front of each set of doors. Once the train arrives, allow the arriving passengers to step off the train, then enter the train. There may be some pushing and shoving during

peak times. You can sit or stand anywhere except for the spaces designated for passengers with limited mobility (unless applicable). Generally, subway rides are quiet, silence is encouraged, and some locals nap. Inside the train there is a diagram of the line as well as screens indicating the next station. An arrow will appear on the screen to indicate the exit door.

### ***Transfers***

If a line transfer is required, exit the train at the transfer station. Signs indicate which way to find your transfer. Know the number and color of the line, then locate the color-coded signs on the platform for your next line. Again, know your direction of travel so that you can find the right platform.

### ***Finding the Way Out***

At your destination station, exit the train. Find signs for “Way Out.” Most stations will have several ways out, so know the exit number needed before following the signs. If you do not know your exit number, consult the neighborhood map usually located on platforms and near exit stairwells.

### ***Exit the Gate***

Before you arrive at the station exit, you will need to pass through the exit turnstile or gates. With your T-Money card in hand, approach a gate with a green arrow and place the card on the reader. Your subway trip is now closed and the fare charged.

### ***Leaving the Station***

Continue to follow the signs to your exit number. Notice which way is north as not all maps are oriented the same way. Knowing which way is north will also help above ground. Stairs, elevators, and escalators will take you up to street level.

### ***Station Amenities***

Subway stations in Seoul have a variety of amenities such as restrooms, shops, convenience stores, eateries, lockers, police stations, lost and found, neighborhood maps, and customer service counters. Some stations connect to underground malls, hotels, or museum entrances.

## Ferries

Surrounded on three sides by water, ferry transportation is readily available from the Korean coasts to nearby islands such as Jeju. Port cities like Incheon, Busan, Mokpo, and Donghae operate passenger ferry terminals. The Visit Korea Tourism site offers a detailed explanation of all terminals. Cruises on the Han River in Seoul offer a unique view of the city. Visit <https://www.koreatodo.com/han-river-hangang-ferry-cruise> for more details.

## Korea Post

To ship items within Korea (not to other military installations), you need to use the Korean postal service, Korea Post. There are many post drop boxes in the USAG Humphreys area, and the nearest post office is outside the pedestrian gate just past the 3/8 Market on the left side. Please remember that it is illegal to ship goods purchased at the PX or Commissary to non-US military personnel in Korea (<https://www.ko-reapost.go.kr/eng/index.do>).

## SHOPPING

Shopping in Korea is a lot of fun, if you are informed and ready for shopping experiences that differ from what you might have experienced in the past. This section provides some basic information on sizing, cus-

toms, uniquely Korean products to search for, and an overview of some of the major shopping areas.

## Online Shopping and Shipping

### US Online Retail

Many people find themselves die-hard Internet shoppers after moving to Korea as Western goods are more expensive on the economy. Many Internet sites will ship to APO addresses, but you may need a Virtual Private Network (VPN) to order from them. We could not list them all, but here are some popular online retailers that will ship to an APO/FPO:

- PX/BX: [www.shopmyexchange.com](http://www.shopmyexchange.com)
- NEX: <http://www.mynavyexchange.com>
- Amazon: [www.amazon.com](http://www.amazon.com)
- Macy's: [www.macys.com](http://www.macys.com) (clothing and home items)
- JC Penney: [www.jcpenney.com](http://www.jcpenney.com) (clothing and home items)
- Kohls: [www.kohls.com](http://www.kohls.com) (Clothing and more)
- Lane Bryant: [www.lanebryant.com](http://www.lanebryant.com) (Plus-sized clothing)

- Vitacost: <http://www.vitacost.com> (discounted organic food & natural health care items)
- Drugstore.com: <http://www.drugstore.com> (health and beauty supplies)
- Sally Beauty: <http://sallybeauty.com> (health and beauty supplies)

Search for online coupons and discounted shipping codes when ordering. Plan ahead during busy holidays. Check shipping methods companies use to ship goods.

The quickest, easiest, and most convenient way for APO/FPO shipments

is USPS Priority Mail. This usually takes one to two weeks, versus six to eight weeks by standard methods

For items that cannot be shipped to an APO/FPO address, there are companies who specialize in forwarding packages to APO/FPO addresses. They provide you with a stateside shipping address and then charge shipping and handling to forward it on to your APO address. Consider visiting [www.apobox.com](http://www.apobox.com) or [www.shipitapo.com](http://www.shipitapo.com). Many online vendors will not ship large items to APO addresses and if they do, the shipping costs can be more than the actual item purchased.

### **Gmarket**

Website: <https://global.gmarket.co.kr/Home/Main>  
Smartphone App: GMarket Global

Gmarket is a Korean online auction and shopping mall website, where people from around the world buy and sell goods and services. Gmarket will ship quickly to off-post Korean addresses.

### **Coupang**

Website: <https://www.coupang.com>  
Smartphone App: Coupang

Coupang is Korea's largest online retailer, sometimes referred to as the "Amazon of Korea." Shipping to off-post Korean addresses is fast and convenient. The site is in Korean and payment may be difficult without an ARC (Residence Card) and Korean bank account, so some people seek assistance from their friends or realtors when ordering.

## **On-Post Shopping**

Look online at [aafes.com](http://aafes.com) to learn what retail services are available at your installation.

### **Vehicles**

Military Auto Source in Korea sells Chevrolet, Chrysler, Dodge, Ford, Harley Davidson, Jeep, Lincoln, Nissan, Polaris, and Volkswagen. Stores are located on USAG Humphreys, Osan Air Base, Camp Carroll, and Camp Walker.

### **USAG Humphreys Military Auto Source**

Location: PX Mall, Bldg. 5700, Tropic Lightning Ave.  
Website: [militaryautosource.com](http://militaryautosource.com)

### **Baby And Maternity**

Baby furniture items, such as cribs, mattresses, changing tables, and rocking chairs, are not supplied by the Housing Management Office and can be expensive to purchase in Korea. The PX and Furniture Store carry most baby items, but the selection is limited. If you want a particular stroller, baby jogger, or highchair, purchase it prior to departing the US and ship it with your household goods.

Newborn clothing can be found on the local economy at large chain stores, like E-mart. There is a wide selection of goods in the Infant and Toddler section in the PX however, the restocking of goods from the US is sometimes inconsistent.

The PX has a selection of maternity clothing but items sell out quickly. Doota Mall (in Seoul near Dongdaemun subway station, Subway Line 4, Exit 8) has a selection of maternity clothes on the 6th floor with the baby clothes. There are also individual vendors, so compare prices before purchasing. Ordering through US websites is another way to get maternity clothes. Maternity clothing and baby items are available second hand through local Facebook buy and sell pages and installation thrift shops such as: The Humphreys Painted Door Thrift Shop, Osan Thrift Shop (Osan AB), and Apple Tree Gift and Thrift (Daegu/Camp Walker).

### **All About Hair**

Ask for pricing beforehand as each service provided (e.g., shampooing, blow drying, etc.) can be a separate charge. If you use special hair care products, check the online websites to see if your product can be ordered and shipped to your APO. If your favorite products are not available for order, bring a supply of those products with you. Some products can be purchased off post, but they can be hard to find and expensive. Korean-made products may not work as well or may be harsher than US products due to cultural hair texture and US FDA product standards. Many find the water in Korea harsh on skin and hair, so consider purchasing showerhead water filters. Additionally, favorite soaps, shampoos, and conditioners may or may not provide the same results as in the States.

## Carpets and Rugs

Floors in most government quarters are linoleum/wood over concrete and most off-post apartments generally have heated floors. Online US stores will not ship rugs or rugs pads overseas. Bring any desired rugs (including runners) with you in your household goods as choices are limited in Korea and can be expensive. Neutral colors are hard to come by locally. AAFES carries some area rugs, carpeting, and padding at a variety of prices and sizes up to 12'x15'. Ask at the PX about ordering rugs online for local store pickup.

You can also purchase rugs from AAFES contracted vendors like Turkish Bazaar. Some carpet vendors move from installation to installation to set up displays and sell various sizes of decorative rugs. Check Thrift Stores, local Buy/Sell Facebook Pages, and with departing personnel who may be selling their carpets prior to moving.

## Holiday Decorating

### *Christmas*

Bring beloved holiday items in your HHG shipment. You can find Christmas decorations and artificial trees at the PX, sometimes thrift shops, and at stores off post. During the Christmas season, on the 3rd floor of the Express Bus Terminal in Seoul, there is a large Christmas market that sells all kinds of Christmas decorations to include ornaments, lights, and artificial Christmas trees. The PX carries a limited number of live trees, so bring your Christmas tree stand if you plan to get a live tree. It is unusual to find live trees or greenery off post, and if they are available, they are expensive. Disposing of live trees is difficult if you live off post as you are not authorized to bring trash on to post to dispose of it.

### *Hanukkah/Passover*

Bring essential holiday items in your HHG shipment as AAFES has not offered any items in the past and nothing has been found off-post.

### *Halloween*

The PX carries a large selection of Halloween decorations and some costumes. The Commissary has a large supply of pumpkins so bring your pumpkin-carving tools!

## Commissary

All patrons, aged 10 and over, must present a valid military ID to purchase items. There are monthly total dollar ration limits on Commissary purchases based on the number of family members. There are also per day purchase limits placed on certain items, such as fresh packed meat.

Commissary hours vary by installation, but all have modified hours for US holidays. All commissaries accept manufacturer, online printable, and commissary specific coupons, which may be used for up to six months after the printed expiration. You can also load coupons onto the free Commissary Rewards Card on the Commissary website. ACS has coupons available for coupon swappers.

Useful couponing websites:

- <http://militarycoupons.com> (printable coupons)
- <https://www.checkout51.com> (earn money back from purchases you have made)

### *USAG Humphreys Commissary*

CLICK2GO is a new curbside pickup service offered by the commissary in which you can order and pay online and pick up at the commissary at a specific time.

### *Tailors & Seamstresses*

Korea is known for their custom tailors and seamstresses. Most people who have lived in the area for a few years have a favorite tailor, so when you see a person wearing a custom suit or uniform that you like, ask him or her who made it. After selecting a tailor, select a fabric that is compatible with the desired garment style. Review all the garment details (type of lapel, pocket flaps, cuffs, etc.) with the tailor so you are pleased with the final product. Do not accept unsatisfactory workmanship and do not pay for the garment in full until you are completely

satisfied. Outside of Osan AB and USAG Humphreys custom items can cost 25% less than in Seoul and usually, the more you order, the more you save (i.e., a gown and custom suit, a custom suit and jacket, etc.).

### **Custom-Made Uniforms**

Custom-made uniforms are reasonably priced at off-post tailors. Get recommendations from individuals of similar size and visit many off-post tailors to get quotes prior to purchasing a custom uniform. Quality and pricing may differ greatly and verify use of authorized materials prior to ordering.

The Military Clothing Sales Store (MCSS) carries fabrics and buttons authorized for Army uniforms only. The selection of Air Force, Marine, and Navy uniform items is limited at USAG Humphreys and some items have to be ordered from Osan or the US, so plan ahead. For off-post clothing services, you may need to purchase your own fabric. After the tailor has taken all the necessary measurements, ask how much fabric will be needed to make the uniform. A man's jacket normally takes about 2½ yards and the pants require about 1½ yards. Check at Military Clothing Sales and Service to make sure you have all the necessary trim and measurements for its placement.

Women's uniforms are more difficult to make than men's and are more expensive, so ask to see samples and prices before committing to a garment.

### **Furniture Delivery Service**

Many vendors/stores will deliver items purchased off post. Understand delivery prices as some only deliver to your door but not into your home. Most off-post vendors do not have access to post and will require an escort to on-post housing. When coordinating for this delivery, make sure you understand the requirements for the person entering the installation based on the current threat level. At a minimum all delivery

persons will be required to show a photo identification (many Koreans do not carry this) as well as registration documents for the vehicle. If the delivery person is turned away at the gate you may be charged additional money for an additional delivery or the vendor may not deliver beyond the commercial gate entrance.

### **AAFES Concessionaires**

Local vendors sell many items including art, blankets, lacquer-ware, clothing, embroidery, furniture, jewelry, pottery, leather goods, and clothing. Some vendors travel between installations and may only be at one location for a month. If you are interested in items, get a business card from the vendor, find out their schedule for locations or determine the location of their shop off post. At most installations there is also a dry-cleaner, alterations, portrait studio, and optical shop.

### **Gasoline**

AAFES Gas Station prices are considerably cheaper than prices found on the Korean economy. Identification cards are required for pump access. Most AAFES gas stations are co-located with Express facilities or with kiosks that offer drinks, quick snacks, oil, and wiper fluid.

### ***Off Post***

To purchase fuel on the economy, you must know the proper fuel grade for your car and ensure the gas station attendant selects the correct fuel when refueling your car. Remember that gas is measured in liters and is usually more expensive than on-post. Be sure to have enough Korean won on hand or verify that the gas station takes American credit cards prior to refueling.

### **Auto Parts & Servicing**

Generally speaking, parts for non-Korean cars are expensive, but most mechanics off post will often tell you to order parts from the US and they will put them on for you, saving hundreds of dollars. All installations have Auto Skill Centers where you can do the work yourself with a mechanic there to help, or they will do the work for you for a fee (services offered vary by installation).

Online companies that will ship automotive parts and supplies: [www.amazon.com](http://www.amazon.com), [www.rockauto.com](http://www.rockauto.com), and [www.walmart.com](http://www.walmart.com).

### **Grills**

You can ship your grill to Korea, but not the propane tanks. AAFES sells propane tanks for purchase or exchange at the PX or Express. If you did not ship your grill, you can purchase one at the PX during the summer months. Although grills are not authorized on balconies in apartment complexes, there are designated grill areas with lockers for propane tanks in on-post housing. MWR Outdoor Recreation rents larger grills and smokers.

There are off-post propane filling stations near some installations, but cost and quality varies. Most picnic areas near housing complexes on and off post have charcoal grills for public use.

## **Shopping Locally**

### **Tips for Shopping Locally**

Shopping in Korea can be slightly overwhelming at first, but with time and practice you will become a pro. When shopping, consider the following information.

There are thousands of stores and vendors in Korea. Check out some of the websites and Facebook pages listed in the Resources chapter and read the recommendations of others. New stores open all the time and some old favorites may move or go out of business, so ask your neighbors, colleagues, and friends to recommend shops that cater to your interests.

Vendors can be insistent, so do not let aggressive merchants push you into buying something you do not want. But on the other hand, if you see something you like, buy it as it might not be there the next time you visit that area. Remember that most all sales are final - no returns. If you are shopping for Korean-made items, be sure to check that the items are actually made in Korea. Many items, especially those that seem

to be very good bargains, are often imported.

Explore! The small, local markets and street vendors carry items you cannot find on-post. And wandering through the large shopping malls and department stores can be a full day outing for you and your family.

Korean clothing and shoes tend to run smaller than western items. General guidelines according to many Korean vendors is Korean Large is US Small. It is important to understand that even knowing the analogous US size does not guarantee fit, as items are often cut to fit slim. We recommend that you take actual measurements with you when shopping.

Be comfortable with going back and forth with the merchants at smaller stores and markets to negotiate before agreeing on a price. The only places you cannot negotiate are box stores (e.g., Costco). If possible, browse on your first pass through a market and then return on the second pass to buy. Prior to shopping in the markets and street vendors, browse the items and prices at chain stores like Daiso, Lotte Mart, and E-Mart. This will give you a general idea of prices.

If shopping in a market where you are able to negotiate with the seller, it is usually best to pay in cash, specifically, Korean won. Many vendors will be able to accept credit card, but they may charge extra. Most places do not accept US dollars, and if they do, the exchange rate always will favor the seller.

Outside of Korean department stores, many Korean stores do not have dressing rooms. Be prepared to slip things on over your clothes or change in a makeshift dressing area that consists of a curtain that has been hung for your privacy. Many stores and vendors do not allow you to try garments on.

If you really like the items and prices at a particular store, ask for extra business cards to refer friends. Many merchants will give discounts for your word-of-mouth referrals.

Come prepared with sturdy bags or a wagon when shopping. Grocery stores and some department stores charge for shopping bags. Many stores offer an area to box your own purchases at no cost.

With the exception of some food and flower markets, most stores do not open before 10:00. Many markets are closed on a particular weekday and large box stores are closed certain days of the month so check before you go. The last week of July and the first week of August is traditionally vacation time for Koreans; be prepared for the markets to close for a few days or even a week. This also occurs during Chuseok (Korean Thanksgiving holiday) and the Lunar New Year holiday.

Check the US Postal and Customs regulations prior to buying a large number of items to send to the US. The US Customs Office cracks down on illegal exports. Learn about items that are illegal to send or bring stateside.

## **What To Buy Locally**

### *Antiques*

Before you buy, spend a lot of time looking and comparing items and prices. Visit a variety of shops over a period of several weeks and ask questions. Reputable dealers will tell you if a piece has been repaired, the material used, its origin, and age. When looking at antique pieces, look for bamboo nails, tongue-in-groove joints, cutout or etched fittings, and locks. Upon purchase, ask the shop owner for a certificate of authenticity that describes the piece, lists the materials used, details its usage, and includes the measurements. Keep your receipt, the certificate, and a picture of your antique in case of damage or loss. National Treasures may not be removed from the country. In most cases, they would be entirely too expensive to purchase. For more information, call the Office of Cultural Affairs, Seoul City Hall at 02-731-6188.

The MWR Arts and Craft Centers of every post offer custom matting and framing services for a reasonable fee, or you can frame it yourself.

### *Clothing*

Koreans are increasingly fashion-conscious, and many new cutting-edge and trendy designers are emerging. If you are a fashionista, Korea is a great place to shop!

Women's Sizes: women who wear Large, X-Large, and plus-size have a difficult time finding clothes that fit in Korea. Some specialty shops sell imported plus-size women's clothing, however the sizing is reflective of the country of origin.

Sizing differences: Shirt sizes are in centimeters. S, M, L, XL sizes run one to two sizes smaller, so a Korean M is often equivalent to American XS or S. Pants: are often sized by the waist measurement in centimeters or occasionally inches and are 'skinny' or 'slim' cuts.

Clothing Size Conversion Chart				
International	USA	UK	Europe	Korea
<b>XS</b>	4-6	6-8	32	44

There are many other shops that sell ready-made hanbok, so shop around.

### **Jewelry**

Like most of Asia, Korea abounds with jewelry. Deal with a reputable merchant if you plan to purchase precious stones and metals and know which countries specialize in what type of precious stones in order to get the best price. Korea's special stones are amethyst and topaz. True Korean amethyst has become very expensive, so you will find many shops selling the cheaper Brazilian amethyst. The Korean jade supply was mined out several years ago, consequently, most of the jade you see comes from other Southeast Asian countries. Merchants can, and do, make high-quality synthetic stones. Always comparison-shop before you purchase.

The PX carries a variety of jewelry from different parts of Asia so check out their selection and price; they always stand behind their products. From time to time, the United Club Activities Chair coordinates bus trips to pottery villages. Yeosu Pottery Village is one of the most famous.

### *Kimchi Pots*

Pots are sold just about everywhere, but you will pay more money the closer you are to larger cities where tourists are more likely to shop. Do not rush to make a purchase, as you will probably find a similar item possibly at a discounted price. Prices range from 5,000 won for small pots to 150,000 for very large ones. Decorative pots can also be found at the numerous pottery shops. Yeosu Pottery Village sells the blue and white dishes and various pottery (including Celadon and kimchi pots) at reduced prices. The shops in Seoul purchase their wares from villages such as Yeosu and then mark-up the price.

Eden Pottery is in Itaewon (outside of Yongsan) across the street from McDonald's and up a little way, beneath the ABC Mart. A staircase from the street leads down to the basement store. While this shop is a little more expensive than the souvenir shops around it, the quality of the pieces surpasses others and boasts more choices. The salesperson speaks English and is happy to explain the symbolism behind the items. Website: [www.koryoceramics.co.kr](http://www.koryoceramics.co.kr).

## **Leather**

There are many good bargains on luggage, jackets, handbags or shoes. If you cannot tell the difference between cow, lamb, or pigskin, shop with someone who can. Quality lambskin is the most expensive and you certainly do not want to pay for lamb and end up with treated cow; this also applies for fleece linings.

If you are placing an order, never pay for the entire garment in ad-

vance. Making the smallest down payment possible helps ensure the merchant stays interested in the final product meeting your expectations and in a timely manner. Do not accept a garment until you are happy with it, but it is not the merchant's fault if you picked a style that is unbecoming on you. Know what looks best on you before placing a customized order, or you could end up forfeiting your deposit. In most cases, you will have to purchase the item since large sizes are difficult for the tailor to sell.

### Tips for Eating Out in Korea

- Most Korean restaurants specialize in a certain type of food, so you may only see just a few things on the menu.
- Korean restaurants typically serve meals “family style.” This means that side dishes and the main dish will be brought to the table and everyone will eat from these dishes instead of being served an individual dish or portion.
- The standard silverware at a Korean restaurant are stainless steel chopsticks and spoon. They’re usually found in a box or a drawer at your table. If you need a fork, don’t be afraid to ask. Scissors are provided to cut meat or noodles.
- Table service is good, but don’t expect it to be overly attentive. Some restaurants offer a call button that you can press to get a server to your table, but at many restaurants, you may have to call them over to you.
- Tipping is not a custom in Korea, and can sometimes be seen as rude. If there is a tip jar at the entrance though, you may leave a tip there if you wish.
- At the end of your meal, simply take your bill (if there is one) to the entrance to pay on your way out.

## **Eating in the "Ville" and Delivery Off Base**

Off post you will not only find Korean cuisine, but also a melting pot of international flavors. A wonderland of world-class restaurants is just a stone's throw away from post in the area of the "ville" or the shopping area right outside of the Pedestrian Gate. Almost all of the restaurants in this area will accept Korean won as well as US debit and credit cards for payment. The following list is by no means comprehensive.

If you prefer paying in cash there is an ATM located on post near the Pedestrian Gate that dispenses US dollars and Korean won, and there are money exchanges right outside of the gate. Restaurants off post may offer delivery for those who live off post, depending on how far away from the restaurant you live. Your realtor can provide you with your off-post address and can help you with delivery options where you live.

## Homeschooling

It is DoDEA policy neither to encourage nor discourage DoD sponsors from homeschooling their dependents. DoDEA recognizes that homeschooling is a sponsor's right and can be a legitimate alternative form of education for the sponsor's dependents. A host nation, state, commonwealth, territory, or possession where a DoD sponsor is stationed may impose legal requirements on homeschooling practices; South Korea does not impose legal requirements on homeschooling practices. Furthermore, overseas personnel and their dependents are not subject to US state mandatory attendance statutes while in another country. For more information about DoDEA's support for homeschool students, visit [www.dodea.edu/parents/homeschooling.cfm](http://www.dodea.edu/parents/homeschooling.cfm) or [www.hslda.org](http://www.hslda.org).

Eligible homeschool students may use or receive auxiliary services, enroll in one or more DoDEA courses, and/or access gifted education, English as a Second Language, or Special Education Services consistent with existing DoDEA regulations and policies. Academic resources, such as textbooks, are available to homeschool students on the same basis as to dependents enrolled in DoDEA schools. Eligible homeschool seniors who are fully enrolled in a DoDEA High School may also participate in a DoDEA Commencement Ceremony by meeting DoDEA graduation requirements, earning a DoDEA diploma, and complying with DoDEA graduation policies and procedures.

Humphreys offers a robust Homeschool Community with both religious-based groups as well as a non-religious based co-op. CYS provides a wide variety of courses and activities for homeschool students, including PE. For further information, please contact the School Liaison Officer located inside Parent Central of the CYS Office in Maude Hall, Bldg. 6400, 2nd Floor.

For more information on homeschooling in South Korea, see Facebook Groups listed in the Resources chapter.

## School Support Services

The School Liaison Officer helps military personnel and DoD civilian parents advocate for their students, from preschool to post-high school. They aid with issues such as PCS, varying school-to-school curriculum and requirements, and homeschooling. The School Support Services School Liaison Officer (SLO) addresses educational concerns involving military children. SSS provides assistance ranging from locating the appropriate school for your child to support during transitions to and from Humphreys as well as homeschool support. The SLO's office is located inside Parent Central in Maude Hall on the second floor.

## EMPLOYMENT

Employment opportunities in Korea for spouses are limited, but with initiative and some creativity, finding paid employment is possible. The information in this section is intended to inform you about some of the specific employment requirements and restrictions in Korea, and to provide some guidance regarding resources available to help you.

There are US government, contract, corporate, and volunteer positions available. Spouses of active-duty and federal civilian employees have hiring preference upon arrival for all government positions. Employment opportunities are very competitive, so anticipate potential delays in securing a position commensurate with education and/or experience.

There are limited federal employment opportunities for US Permanent Residents. Employment opportunities on base for US Permanent Residents are limited to AAFES, DeCA, and on a case by case basis with Child and Youth Services.

Dependents of service members and civilian component are admitted to the Republic of Korea (ROK) under an A-3 visa. Persons in Korea under an A-3 visa are not entitled to payment for work on the Korean economy without an additional authorization from the Korean government.

### On-Post Employment

#### Employment Readiness Program

The Employment Readiness Program (ERP) assists family members with resume writing, identifying employment opportunities, and preparing for a new job. The ERP sponsors job fairs several times a year to meet potential employers face-to-face. Bring clean, accurate copies of your resume and dress appropriately. More information regarding the ERP is available in the Army Community Services (ACS) section in Chapter 6: Support Services.

#### Civilian Human Resource Agency

Facebook: CHRA Far East Military Spouse Hiring Initiative  
(facebook.com/groups/491731861722384)

The Civilian Human Resources Agency (CHRA) for Military Spouses in

the Far East Region is a professional group forum that provides military spouses a singular location to receive information about the federal hiring process, federal employment in the Far East Region, and for support through the Military Spouse Hiring Initiative. CHRA is part of the Department of Army leadership's vision to streamline headquarters, create more agile and responsive staffs, reduce layers of review and approval, focus on mission, and transform the Army. The establishment of CHRA enabled the Army to enhance quality of service provided to its civilian employees.

#### Humphreys Area III Civilian Personnel Advisory Center

Phone: 0503-357-2007 DSN: 757-2007

The Civilian Personnel Advisory Center (CPAC) is comprised of a team of human resources professionals dedicated to supporting and empowering service members, civilian employees, families, and Veterans worldwide. The CPAC recruits, retains, and sustains a high-quality volunteer force.

#### USAJOBS

USAJOBS ([www.usajobs.gov](http://www.usajobs.gov)) is the Federal Government's official source for most federal jobs and employment information. You can find opportunities in civil service, non-appropriated funds (NAF), and Department of Defense Education Activity (DoDEA) staff. Additional information on federal employment can be found on [www.fedshirevets.gov](http://www.fedshirevets.gov).

#### DoDEA Teaching Opportunities

DoDEA teaching opportunities (excluding substitute teaching) are advertised on <https://www.dodea.edu/offices/HR/vacancies.cfm>. Teaching categories and requirements to teach at a DoDEA school can be found at <https://www.dodea.edu/Offices/HR/requirements/teaching-categories-and-requirements.cfm>.

Substitute teaching positions with DoDEA are advertised on [www.usajobs.gov](http://www.usajobs.gov) and subject to a background check process that may take two to three months. Though posted on USAJOBS, you should start the application process directly with the elementary, middle, or high school. Remember, the school where you submit your application has priority for your services.

## Army and Air Force Exchange Service (AAFES)

AAFES employment opportunities are posted directly on their website [www.applmyexchange.com](http://www.applmyexchange.com). These include positions at the Post Exchanges and various food courts. High school-aged children and older dependents interested in working as baggers may apply in person at the Commissary.

## On-Post Retail Opportunities

The on-post thrift stores on Humphreys (Painted Door Thrift Store) and Camp Walker (The Apple Tree) hire part-time staff. For applications, inquire directly in-store.

## Other Employment Opportunities

### Home-Based Businesses

Home-based businesses (HBB) are a viable self-employment option. Examples of home-based businesses include independent consultants, individuals offering private lessons, services, or selling goods. HBBs are regulated by FMWR, subject to written approval by the Garrison Commander, and are regulated by SOFA. To initiate this process, attend an HBB class offered by Army Community Services.

You are responsible for paying US taxes as an HBB owner. You can sell only to customers governed by the SOFA or in the US, and you cannot use APO mail to send or receive anything to do with your business. All HBBs in Korea (on post or off post) require approval.

**TIP:** Military spouse entrepreneurs can connect virtually through the Milspo Project (<http://milspoproject.org>).

### Modeling and Acting

Korean companies need people of various ages and nationalities for advertisements, television shows, and movies. Look for job postings on the Internet and Facebook and apply directly to the agencies seeking models. You may even be approached on the street if you or your children have “the look” they need. You will typically need to provide three to five head shots and you may be asked to submit a short video. You will also need to provide size measurements (know your Korean clothing sizes and metric conversions). The modeling company will supply the necessary work visa for each shoot.

## Remote Employment

Thanks to the wonders of modern technology, remote workers can be physically located just about anywhere in the world and still meet job requirements! Here are a few resources to get you started on the remote job search:

- Mad Skills: <http://madskills.co/>
- Virtforce: <https://virtforce.us/>
- Flexjobs: <https://www.flexjobs.com/>
- Amazon: [www.amazon.jobs/en/landing\\_pages/mil-spouse](http://www.amazon.jobs/en/landing_pages/mil-spouse)
- Virtual HOH Military Spouse Professional Network: <https://www.facebook.com/groups/526701514133786>

## Volunteer Work

Volunteering is a great way to build skills or experience and increase employment marketability and network! There are a number of volunteer opportunities on base and off base. For more information on volunteer opportunities, contact the ACS Volunteer Program Coordinator. You can also directly reach out to organizations such as Humphreys United Spouses Club, the Humphreys Thrift Store, the USO, the Red Cross, or BOSS or your Soldier Family Readiness Group (SFRG).

## Visas

Dependents with A-3 visas may obtain a work permit in any of eight employment categories. These categories each have a number of qualifications applicants must meet in order to be eligible. The employment status categories are:

- **E-1 Teaching (Professor):** This is for professors of higher education. Requirements include education and experience as a professor of higher education.
- **E-2 Foreign Language Instructor:** This category includes English teachers. Requirements include a bachelor's degree and/or relevant college level education and/or work experience.

**NOTE:** Individuals applying for the E-2 Permit must apply to teach in their first language (mother tongue) and must be educated to a degree level. The Korean government recently imposed additional requirements including criminal record check

by FBI or home state police, health certificate issued by a Korean public health office, and fingerprints.

- **E-3 Research:** This category includes those performing research in the natural sciences or in the development of industry and technology. Requirements include an invitation from a Korean public or private institution to perform work of this nature.
- **E-4 Technology Instruction:** This is for people possessing professional-level knowledge in the natural sciences, or special technical skills. Requirements include an invitation from a Korean public or private institution to perform instruction of this nature.
- **E-5 Professional Occupation:** This category includes foreign attorneys, accountants, and doctors who are certified in a foreign country and are authorized under Korean law to practice in their field in Korea.
- **E-6 Arts and Performance:** This category includes those engaged in music, the arts, literature, modeling, or other performance activities for profit.
- **E-7 Special Occupations:** This category includes such employment as designated by the Minister of Justice, including work in translation, interpretation, cultural research, etc.
- **E-8 Employed Trainee:** This category is for temporary employment for industrial training purposes.

Employment without proper permission violates Korean law. This includes teaching English to private individuals. Penalties for violation of Korean immigration law may include deportation, prosecution in Korea, fines, and levying of back taxes. A dependent with an A-3 visa may secure employment with a Korean company but the employer must then initiate the necessary paperwork with the Korea Immigration Service (an agency of the Korea Ministry of Justice) to obtain an employment permit for the dependent. The dependent may then visit a local immigration office and obtain the passport employment permit stamp. Once the dependent obtains the proper work permit, he or she may be lawfully employed on the Korean economy. Dependents employed on the Korean economy are subject to withholding of Korean income taxes from their wages in Korea.

# RATIONS

## About Ration Control

The Ration Control Program prevents the transfer of duty-free goods to those not entitled to receive them. Active-duty military and dependents use their Department of Defense (DoD)-issued ID as their Ration Card to make AAFES or commissary purchases. Separate Ration Cards are no longer required for those with a DoD ID number whose sponsor is assigned to U.S. Forces Korea, United Nations Command, or Combined Forces Command. Individuals who do not have a DoD ID issued card that contains their DoD ID number are still required to obtain a Ration Card and show this card at the point of sale. To be enrolled in the Ration Control Program, you must first be entered into the DBIDS system. Keep your receipts for large ticket items in case questions are raised about your buying habits.

You may show a copy of your sponsor's orders stamped by the Ration Control desk at the PX or Commissary to purchase items before being enrolled in the Ration Control Program. Newly arrived permanent party personnel and their families may exceed their monthly limit by 50 percent for the first three months (does not apply to the liquor and beer limits). Regardless of arrival date, the first month is considered from the arrival date to end of that month.

Your ration card is monitored using the Command Unique Tracking System (CUTS). This system assists USFK law enforcement agencies in collecting data for inventory control and to curb black marketing. There are monthly limits on Commissary purchases in total dollars based on number of family members. There are also per day purchase limits placed on certain items (shelf limits). You can check your account 24/7 at <https://pimsk.korea.army.mil/> (NIPRNet required).

You will be given information on the current rules and regulations concerning black marketing during in-processing. Under the Status of Forces Agreement (SOFA), the US is allowed to import certain products duty-free for the Commissary and Exchange services. These products are strictly for the personal use of authorized personnel. Black marketing is the illegal sale of duty-free goods to the Korean economy and can result in severe disciplinary action. Report anyone who is engaged in this practice.

Many products are considered illegal for gift-giving to Korean Nationals. For questions regarding the sale of controlled items or gifts to personnel not authorized duty-free import privileges, contact the Ration

Control Office for information on proper legal procedures. Information is also available from USFK regulations 643-1 and 60-1.

**PETS**

**Pet Laws and Regulations**

For public safety, Korea’s law requires all dogs to be on a leash that is no longer than 6 feet and 6 inches. Potentially dangerous breeds of

dogs (pit bulls, rottweilers, chow chows, etc.) must wear muzzles. Fines for not abiding by these are up to ₩500,000 or approximately \$500. For additional information on these new laws, please contact the installation veterinary clinic. It is also important to ensure your dog’s excrement is picked up and disposed of as general waste. Fines for not picking up after your pet may range between ₩50,000 to ₩600,000 won or approximately \$50-\$600.

Large dogs with a high prey drive must have a muzzle cover or you can be fined ₩3,000,000. Dog breeds with high prey drive are the Japanese Mastiff, American Pit Bull Terrier, American Stafford Terrier, Stafford Bull Terrier, and Rottweiler. Death or injury to a person by your dog can result in up to three years in jail or a ₩30,000,000 fine.

**Living with your Pet**

Government and civilian housing policies differ as to authorization, number, and types of pets. It is very important to remember that in the event of noncombatant evacuation operations (NEO), when traveling via the Patriot Express, and on many commercial airlines, only up to two pets (domestic dog or cat only) can be shipped back to the US. When bringing your pet to Korea or adopting a pet in Korea, please do your research. Speak with the military vet regarding the rules, regulations, and costs for transporting your pets in and out of the country. You must be prepared for the financial costs and paperwork of having your pet with you.

USAG Humphreys’ on-post housing allows two pets (dogs, cats, or ferrets) and up to four small, caged animals or birds and/or an aquarium not to exceed 50 gallons. If a member of your family has a service animal, discuss that with the Housing Office so they can factor that into determining your housing assignment.

Just like anywhere else, some off-post/civilian apartments allow pets, and some do not. Ask your realtor about pet allowances before signing a lease.

**On-Post Veterinary Services**

The Humphreys VTF primarily provides preventive veterinary medical and surgical care for privately owned animals on a space available basis. There are three VTFs in Korea: USAG Humphreys, Camp Walker, and

Osan Air Base. The three clinics work together to provide a range of veterinary care services including vaccinations, lab work, x-rays and ultrasound, microchips, surgery, and health certificates. VTFs do not provide after-hour emergency care services and care is limited during military training exercises.

Per regulation, all pets (on or off post) must be registered at your local military Veterinary Treatment Facility (VTF) within ten days of arrival or purchase. Pet owners not living on a military installation must also register (license) pets at the city hall nearest their residence. (International Organization for Standardization-compatible (ISO) microchips are mandatory for all pets, on and off the military installation.

## Dog Parks

USAG Humphreys has some very nice dog parks. There is a small dog park by Sentry Village housing, three small dog parks by the Family Housing Towers (Taro Ave.), and a large dog park by Collier Fitness Center (Tropic Lightning Ave.) These dog parks can be used by all DoD ID card holders (living on or off post) to exercise and socialize dogs.

Please observe the “rules of petiquette” posted in the park:

- Owners must pick up and dispose of all pet waste.
- You may have up to two dogs per adult per visit.
- Owners are responsible and liable for their pets’ actions; aggressive pets or pets in heat are not allowed in the park.

**NOTE:** Pets are not allowed on ball fields, tennis courts, basketball courts, or school grounds even if on a leash.

There is a dog park off post, located across from PIEF (Pyeongtaek Information Exchange Foundation) near the Oscarville apartments. Please be a good neighbor and follow posted rules.

## Pet Adoption

There are many ways to acquire a pet both on and off your local installation. Visit your local VTF for informational websites, maps, and directions on where to adopt a pet.

Most VTFs handle the adoption of strays and surrendered animals needing new homes including many pure breeds. Every year during the PCS season many owners find themselves struggling to get their pets home because they did not understand the true responsibilities of pet ownership. Please be sure to fully research the responsibilities and costs

of pet ownership and travel before adopting a new pet to help reduce the number of pets in the already overcrowded shelters. Do not abandon your pet. Visit the USAG Humphreys VTF and pick up a flyer with current information on re-homing options.

Additional information regarding having your pets in Korea can be found at:

- Veterinary Services: <https://www.korea.amedd.army.mil/Veterinary/index.html>
- Camp Humphreys Pet Page (<https://www.facebook.com/groups/832693010165215>)

**TIP:** Please keep in mind small animals adopted in Korea such as guinea pigs, hedgehogs, fish, hamsters, etc. cannot be imported into the United States.

## VISITORS

Should you wish to bring visitors onto the installation, there are procedures that you must follow for your safety and the safety of those around you. Failure to comply with escort procedures will result in you and/or your sponsor being prohibited from escorting visitors for at least 90 days. There are some different scenarios for visitors. Maybe you have invited a Korean friend to your home on the installation for dinner. Maybe you have purchased a large piece of furniture and need to have it delivered to your on-post home. Or perhaps your parents want to visit from the United States. The following information will guide you through the steps you need to take to escort a visitor properly.

Force Protection and Health Protection Conditions (FPCON & HPCON) can impact the installation visitor policy. When planning for visitors, check the current FPCON & HPCON levels at your installation.

## Obtaining Installation Access for Visitors

In order to escort a visitor for one day (24-Hour Pass), your visitor must have one of the following:

- Korean Nationals - must have Republic of Korea government issued ID card with photo such as: Korean ID card, Korean National Police Agency ID card, ROK Military ID card, ROK Ministry of

Defense ID card, Korean passport, or Korean Driver License with the 7th digit being a 1,2,3, or 4

- Non-Korean Nationals - must have a passport (to verify immigration status). After inspection, the passport will be returned, and the visitor must surrender another form of photo identification. If the visitor does not have another form of photo identification, the sponsor (escort) must surrender a photo ID that is NOT their DoD ID card.

**NOTE:** You may not escort a visitor from the list of USFK Designated Countries without an exception to policy. If you think this may apply to a potential visitor, visit your DBIDS office to review the list and procedures you need to follow for an exception to policy.

## Number of Visitors

One DoD ID cardholder may escort up to four visitors at a time. You must meet your visitor(s) outside of the installation and enter through a gate where visitors can be processed. At USAG Humphreys, for example, this would be either the Pedestrian, Yoon, or Adams Gates. You will accompany your visitor(s) into the access control point and give both your DoD ID card and your visitor's ID card to the guard on duty. You and your guest(s) will need to provide a fingerprint on a scanner and answer basic questions, such as your destination and your phone number. The guard will retain your guest's ID card and give them a pass in exchange. You and your guest(s) will give these both to the next guard, who will scan them as you enter the installation. You **MUST** remain with your visitor(s) at all times. When it is time for your guest(s) to depart, no more than 24 hours after they entered, you must return with them to the same access control point at which they entered so that they may receive their identification back.

## Escorting a Vehicle

Check with your installation to see which gate your visitor and their vehicle need to enter. At USAG Humphreys, this would be the Adams Gate. The vehicle will park in the designated area, and you and the driver will complete the escort procedures to enter the installation, which are very similar to the 24-hour pass check-in procedures. Your visiting driver will need the following documents to bring their vehicle onto the installation: valid driver's license, proof of ownership (registration), safety in-

spection (on the registration), and proof of insurance. You will be asked for your ID, your destination, and your phone number. You and your visitor will leave your ID cards with the guard at the Visitor's Center. The visitor must follow you in their vehicle at all times while on the installation, and they must leave the same gate through which they entered. You will then both go into the Visitor Center to sign-out your guest and pick-up your ID cards.

## Short-Term Visitors

If you plan to have visitors who will need longer than 24-hour access (if you have family visiting and staying with you), you should begin planning several weeks out. Have your guest(s) send you a copy of their passport picture page. You will need to turn this in to DBIDS along with a completed USFK Form 82-E Application for Installation Access. If you plan to request permission for access to several installations (USAG Humphreys, Osan, and Yongsan, for example), approval takes longer than gaining access for one installation. Turn your documents in as early as you can.

## Visitor Arrival

Once your visitor arrives, you must get them onto the installation using the 24-hour pass procedures outlined above. Then you must escort your visitor to the DBIDS office on your installation, where they will be issued a Short-Term Visitor's Pass (37EK), which resembles a DoD ID card. Your visitor will have their fingerprint captured, and their photo taken for their pass. Your visitor must retain this ID card throughout their stay. It allows them to go through any gate with you and have it scanned like a typical ID card. Once your visitor departs for home, you will turn this card back in to the DBIDS office.

## Medical Care for Visitors

Before they arrive, your short-term visitors should consider the potential need for medical care during their stay in Korea. Visitors will not be able to use military treatment facilities and will have to visit a Korean clinic or hospital. Before their trip, they should contact their insurance company to verify what, if any, coverage they have while traveling overseas. If they are not covered, they may want to consider travel insurance in case of an emergency, taking care to verify eligibility requirements.

If your visitor should need medical attention while they are with you in Korea, there are several options. Rest assured, the Korean hospitals in the vicinity of US military installations are accustomed to treating foreigners, and many staff members speak English. You and your visitor should consider downloading the KORHEALTH app on your smartphone. Your visitor should expect to pay cash at these clinics (and use a local pharmacy), but you can expect it to be much cheaper than you might pay for comparable services in the US.

## **NEO and Visitors**

The possibility of a Noncombatant Evacuation Operation (NEO) is always a reality for which you should be prepared. Keep in mind that there are stages leading up to a potential crisis that fall short of an actual NEO, and if there are "authorized departures" or "ordered departures," your family or friends visiting you in Korea should return home. That being said, if you have a visitor during a full NEO event, be assured that your visitors will be moved out of harm's way along with your family.

If you are notified to evacuate, bring your visitors, their passports, and their bags (following the NEO bag weight guidelines) with you to the assembly point. They will be moved south with you to the reception center, where the State Department will take control of them. US citizens will be repatriated to the US. However, if your visitor is a citizen of a country other than the US or Korea, the State Department will coordinate with the appropriate embassy to get your visitor home. Please note that this does NOT apply to Korean Nationals unless they are DoD dependents.

## **Immunization and Disease Awareness**

### **Immunizations**

For active-duty, mandatory immunization requirements will be communicated through the Periodic Health Assessment (PHA) process. DoD family members, DoD civilians, and Department of Defense Education Activity (DoDEA) employees should check with their medical treatment facility, healthcare provider, and/or school nurse for recent updates on immunization requirements. Family members will be screened through the Exceptional Family Member Program (EFMP) for overseas travel prior to departure for Korea, and guidance on any immunizations that are required or recommended prior to entering Korea will be provided during that process.

For school immunization requirements, visit the DoDEA website at [www.dodea.edu](http://www.dodea.edu).

### ***COVID-19 Vaccination Center***

Location: BLDG 2037 (Near Talon Café)

## **Diseases**

### ***Tuberculosis***

Tuberculosis (TB) is present on the Korean peninsula, and within the Asia region. To test for this disease, it is recommended to have a Purified Protein Derivative (PPD) for tuberculosis infection test prior to coming to Korea, every year while in Korea, and just prior to leaving Korea. This is mandatory for active-duty servicemembers and highly recommended for all others. DoDEA and Child Youth and School Services (CYSS) require current proof of PPD testing for registration.

### ***Vector-borne Diseases***

Vector-borne diseases are similar to those in the US; diseases transmitted by mosquitoes, mites, ticks and rodents are present in Korea.

### ***Japanese Encephalitis***

Japanese Encephalitis is prevalent in the Asia region, and a vaccine is available for all active-duty, DoD family members, DoD civilians, and DoDEA employees.

### ***Virax Malaria***

Vivax Malaria is transmitted by mosquitoes and is present at relatively low levels, primarily in areas north of Seoul and near the DMZ. For protection, military personnel should use repellents on exposed skin when in malaria risk areas during hours when mosquitoes are present. As mosquitoes can also bite through clothing, DEET repellent spray can be applied to the outer garments for protection. Soldiers should use ACUs treated with permethrin during the malaria season.

### ***Mosquitos***

Common House Mosquito (*Culex pipiens*) is often found in abundance in Korea, and it is not attributed to the transmission of any disease. Populations breed in standing water making pesticide applications

less effective. Mosquitoes are more prevalent at night and they enter houses through air conditioning systems or small openings (e.g., under the door and through the drains). Bed nets, drain covers, and indoor space sprays are often effective.

The EFMP screening process identifies and documents family members' special medical and/or educational needs. The Army must ensure family members are able to receive the care they need when assigned to a new duty station. If any family members are enrolled in the EFMP program and are approved for command sponsorship, be sure to contact your local EFMP office prior to your departure to verify that the services you require will be readily available when you arrive in Korea.

### **On-Post Dental Services**

Dental care on the Korean peninsula is provided by the 618th Dental Company (Area Support) Unit 15190, which is headquartered on USAG Humphreys. The primary mission of the unit is readiness of soldiers throughout the peninsula. Family member care in military clinics is limited and is on a space available basis. While there is a degree of space-available in-house family member emergency dental care, the majority of family member care occurs through a network of Preferred Host Nation Providers.

Selected providers practice dentistry in line with US standards, maintain modern facilities, and engage in infection control and sterilization protocols in accordance with US standards and Centers of Disease Control guidance. They sometimes accept insurance in lieu of upfront payment from the patient. The DENTAC strongly encourages all sponsors to ensure coverage of their family members through participation in the TRICARE Dental Program. Check their website, <https://www.tricare.mil/TDP>, which provides up-to-date information.

## **OFF-POST HEALTH RESOURCES**

**IMPORTANT:** Consult your insurance for coverage details for all off-post providers prior to making appointments.

### **TRICARE-Approved Off-Post**

The local area has numerous providers that accept TRICARE, and other insurance providers. For a more current list, or to sort by location, go to <https://www.tricare-overseas.com/beneficiaries/resources/provider-search>.

For individuals who require medical care off post, there are several doctors and clinics that service the foreign community. Host nation partnership hospitals and clinics provide the highest quality of healthcare and all are accredited by the Joint Commission International or the Korean Hospital Association. Many of the medical staff speak English and a significant number were trained in America.

Providers will refer you to host nation partnership hospitals and/or clinics for the specialty care you require when the services are not available within the military system (transport and guides are provided). A staff of host nation patient liaisons assists patients as well. The Nurse Case Managers visit all our beneficiaries if they require hospitalization and conduct telephone follow-ups with the Korean healthcare team providing your medical care.

### **Referrals**

Most visits to a host nation partnership hospital or clinic begin with a referral from your Primary Care Manager (PCM) at the local Military Treatment Facility (MTF). If the needed care is not available at the MTF, a Host Nation Appointment Clerk or TRICARE Representative at your local TRICARE office will assist in making your appointment at one of our host nation partnership hospitals or medical clinics.

Usually, the Host Nation Appointment Clerk will make your appointment, schedule transportation on a TRICARE courtesy shuttles, provide you with a claim form, and any necessary medical documentation or care authorizations needed for your medical appointment. Although our host nation partnership hospitals and clinics accept self-referrals, it is best to work through your local TRICARE office to coordinate your care.

The payment for your care at the Korean facility will depend on your

TRICARE status or other insurance plan you may have. When you call to make your appointment, TRICARE staff will advise you on your coverage and financial responsibilities.

One of the surprising things about living in Korea is the lower cost of elective procedures off post. If you have considered Lasik eye surgery, cosmetic surgery, laser hair removal, or chiropractic care, you could save hundreds to thousands of dollars by having those procedures done here. As with any medical service, ask your community for recommendations on where to go.

For additional information on hospitals in your area please research the Navigating Korean Hospital Handbook (<https://8tharmy.korea.army.mil/site/assets/doc/newcomers/Navigating-Korean-Hospitals-Handbook-2020.pdf>).

## **Emergency and Urgent Care**

### **Emergency Care Defined**

Emergency care is care provided for sudden and unexpected onset of a medical or psychiatric condition or the acute exacerbation of a chronic condition that is threatening to life, limb or eyesight and requires immediate medical treatment.

If you need emergency care as defined:

- Seek care from the nearest medical facility.
- Dial the local number for ambulance service as provided by the American Embassy, military unit, or other source.
- Have a local address and phone number available while calling. Do not hang up the phone until directed to do so by the host nation operator.
- When emergency treatment or hospitalization in a local civilian hospital is received, contact International SOS as soon as possible.

### **Urgent Care Defined**

Urgent care is defined as treatment for a medical or psychological condition that would cause undue discomfort to the patient or that may worsen if not treated within 24 hours. If you need urgent care in Pacific locations, International SOS can provide several valuable services. By calling them before receiving care, you can:

- Find a qualified healthcare provider.
- Avoid paying up front costs
- Avoid filing claims.
- Otherwise, expect to pay the host nation provider at the time of service. Then file a claim with your TRICARE Service Center upon return from travel.

## Earl Lee Surrett, US Navy

*Submission courtesy of Janet and Roy Surrett*

Growing up as a farmer in rural East Tennessee, my father, a Korean War Veteran must have been shocked at the sights and sounds that he encountered during his service with the US Navy from 1952 to 1960. Born in 1927, Earl Lee Surrett, was the fourth of eight children. Three of his older brothers had all served in WWII in the US Army. He graduated from High School in 1945 and was working as a draft clerk for American Enka, a key defense production entity during WWII. Upon the start of the Korean War in June 1950, it was my father's intent to join the US military and in January 1952, he voluntarily enlisted in the US Navy. He entered active duty in Feb 1952 following completion of basic training in San Diego and was immediately assigned to the Norfolk Navy Base. He then embarked upon the USS Van Valkenburgh (DD-656), a destroyer, which served as an escort for the aircraft carrier, USS Boxer. Initially serving as a radio operator, he was soon selected to attend Radarman School and successfully graduated in April 1953 whereupon he resumed sailing with the Van Valkenburgh.

Serving primarily in the Korean Theater during what is commonly called Phase 5 of the conflict, my father's ship actively participated in US naval and air strikes conducted against military targets in North Korea and on North Korean and Chinese forces attacking US/ROK and

UN troops. My father was eventually honorably discharged from active duty in January 1954 and served in the Naval Reserve until 1960. He was awarded the National Defense Service Medal and the China Service Medal. He passed away in December 2011 at the age of 84.

Being assigned to Korea with my family, I am more cognizant than ever of my father's service during the Korean War, and I have had a wonderful opportunity visiting some of the places that I recall as a child my father telling me about. I remember my father describing Busan and the many port calls that he had there. In excellent physical condition, my father was "volunteered" for Shore Patrol duty and was regularly engaged in ensuring that sailors were "safely" returned to the ship. On one occasion, by his own account, my father was nearly killed during a friendly fire incident in which his patrol boat, entering the harbor, was shot at by ROK Navy patrols who were understandably nervous about small boats approaching Busan harbor at night. On the lighter side, I was never able to get my father interested in taking a cruise vacation, always declaring, "I've done enough cruising with the US Navy."

As I look back now, my father must have been utterly amazed at all that he saw. He certainly never anticipated growing up as he did in East Tennessee that he would see Korea, Taiwan, the Philippines or Japan, all places that he visited during his time in the Navy. Although not in detail, I recall him describing foods, clothing, architecture, and sights that I can only now fully appreciate since I've lived in Korea and traveled in Asia these past several years.

I am proud of my Father's service in the Korean War and in the US Navy. During a Veteran's Day ceremony in 2013, my youngest daughter wrote about my father who she called "Pop Pop." She said this at the time (she was 9 years old then): "My Pop Pop fought to protect South Korea and get North Korea to stop fighting and be peaceful." For those of us here in South Korea today, that mission continues alongside our ROK partners, and we honor all those who came before us, including nearly 40,000 US personnel and over 130,000 allies who lost their lives in the War.

## Private First Class (PFC) (Retired) William (Bill) Bochat

*Submission courtesy of Andrew Bochat*

**P**FC (Ret) William (Bill) Joseph Bochat was born in Port Lavaca Texas on April 12, 1931. Bill was the middle child of eleven children. He came from a family that was devoted, dedicated, and true to their Catholic religion, their family, and their Nation. His older brothers Howard, James (Jim), and Charles were all WWII veterans. Most notably, Howard had even been shot down over enemy lines while performing his duties as a B-17 gunner on the second bombing mission of Berlin, and spent almost a year and a half in Stalag 17-A as a prisoner of war.

Bill graduated from St. Joseph's High School in Victoria, TX and found he preferred fixing engines and motorcycles over sports. Thus began a lifelong passion for motorcycles, which led his brother Charles and him to become the owners of Victoria Harley Davidson in July of 1950. With this passion and knowledge, Bill went on to win many trophies on the flat track racing circuit.

But, the Korean War intruded into Bill's plans, and he was drafted into the US Army. After basic training at Fort Sam Houston he was on a troop ship to Tokyo by August 1952. PFC Bochat was assigned to Company C, 32d Infantry Regiment (Buccaneers), 7th Infantry Division. At this time, the 32d Buccaneers and other units of the 7th ID were

assigned to defensive positions along the Jamestown Line. The outposts and positions carried the famous names such as Iron Triangle, Porkchop Hill, and Old Baldy. On March 24, 1953, just weeks before the infamous Battle of Porkchop Hill, Bill was hit with shrapnel from an enemy mortar shell and was severely wounded. He was airlifted to the closest MASH unit, then transferred to Tokyo Army Hospital, and subsequently was returned to the US and Brooke Army Medical Center via a hospital ship. The official notice of him being wounded in action merely stated his name, service number, unit, and location of "near Kumwha."

During the next two years, Bill underwent multiple surgeries at Brooke Army Medical Center. While recuperating between surgeries his motorcycle buddies would take him for rides in the Texas Hill Country. He recounted several times how the nurses always told him "you boys be careful on those motorcycles."

Bill went on to attend St. Mary's University in San Antonio on the G.I. Bill and received a Bachelor of Arts degree. He married, and raised an amazing family of three children, instilling his virtues of the Catholic faith, love of family, and duties to this Nation. He never relinquished those virtues, nor his love for motorcycles, but on November 8, 2021 he passed from this life and gave up those worldly desires.

Bill always had time for anyone and he always provided assistance and help to those in need. He never spoke ill about the suffering and trauma he experienced and he always had the highest pride in his military service. He was a humble man that served his country. Once, when his nephew's wife presented him with a coin from the US Army Battalion that she commanded, he said "This is very neat. We stayed away from the 'old man' because if you saw him, that meant you were in trouble. And when I say 'old man' I mean the company commander. You never saw the battalion commander unless you were in serious trouble, and if I had a brigade commander, heck, I didn't know who he was and certainly didn't know his name!"

### SFC Wiley Folton Cosby

*Submission courtesy of Adrienne Sofge*

**M**y Uncle Folton's service portrait hung in my grandparents' house and I can still picture where it hung in the living room, a memory I hold from a very young age. Although it was only one of the seven military portraits of my grandpa and uncles that served, Folton's picture was most regarded because he had been lost in the Korean War. His Missing in Action status, a years-later visit and suggestion for the family to look into his death during a family visit by a fellow service member, and conflicting agency and memorial information have led to family stories of mystery and wonder. More importantly, they are a realization of the importance of personal accounts in closure.

Without any personal accounts of SFC Cosby's service, my understanding and closure is proving to be a lifetime journey that started with listening to family stories and continued by feeling connecting as a fellow veteran of military service, researching his service and information about his last days in the 25th Infantry Division Museum, visiting the Defense POW/MIA Accounting Agency (DPAA), and paying respects at Punchbowl Crater while stationed in Hawaii, and now living in South Korea with my husband serving in the US-ROK alliance. I hope to view his name in the memorials at United States Forces Korea and walk the land along the Naktong River where he fought his last days.

Sergeant First Class Wiley Folton Cosby, of Cub Run, KY, enlisted in the Army in 1942 at 20 years old. He served as an infantryman during World War II through the opening of the Korean War. In 1949 he traveled from

the US, overseas to Japan, and then to Korea as part of Company H, 2nd Battalion, 35th Infantry Regiment, 25th Infantry Division. His company arrived in July 1950 and fought along the north-east flank of the Pusan Perimeter near Pohang.

The "Tropic Lightning" Division was abruptly shifted in August about 150 miles to Masan on the southwestern flank as part of Task Force Kean, which ultimately saved Busan from inevitable capture. The main party of the 25th Division command post arrived at Masan on 2 August, and General Kean reached Masan the next day to command all U.N. troops south of the Naktong River. The 25th Division had completed the 150-mile move by foot, motor, and rail within a 36-hour period. General Walker said that this "history making maneuver" saved Pusan. The Division was awarded the Republic of Korea Presidential Unit Citation for the unprecedented shift on the night of 1-2 August, from the Army's right to left flank; for its rapid organization of the defense of the Masan area; and for its counterattack against three North Korean Divisions in the Chinju area.

On 14 August, after a week of fighting, the 35th Regiment held the northern part of the 25th Division line west of Masan and a reinforced company of the 35th Infantry, 25th Division, took up a defensive position south of the Naktong River at Namji-ri Bridge with the responsibility of protecting the bridge. Task Force Kean, which lasted the first two weeks of August 1950, chanced to meet head-on the North Korean 6th Division attack against the Masan position, and first stopped it, then hurled it back.

SFC Wiley Folton Cosby died on August 15th, 1950 at 28 years old, drowning in the Naktong River. His official status is Missing in Action. He is memorialized at the National Memorial Cemetery of the Pacific, Honolulu, HI, in the Courts of the Missing. Decorations earned by SFC Cosby include: Bronze Star, the Purple Heart with Oak Leaf Cluster, the Combat Infantryman Badge, the Korean Service Medal, the United Nations Korea Service Medal, the National Defense Service Medal, the Korean Presidential Unit Citation, and the Republic of Korea War Service Medal.

The Exceptional Family Member Program (EFMP) provides comprehensive support to family members with special needs. EFMP offers the community information, referral, advocacy, support group meetings, respite care information, help in and out-processing, and command sponsorship information for those with a disability, impairment, or need. EFMP takes an all-inclusive approach to coordinate military and civilian community, educational, medical, housing and personnel services to help Soldiers and their Families with special needs. An Exceptional Family Member is a family member with any physical, emotional, developmental or intellectual disorder that requires special treatment, therapy, education, training or counseling, and meets the eligibility criteria.

All family members accompanying their active-duty member to Korea must complete an EFMP screening (whether or not they are already enrolled in EFMP) at their current duty station as part of the command sponsorship request. The EFMP screening process identifies and documents family members' special medical and/or educational needs. The Army must ensure family members are able to receive the care they need when assigned to a new duty station. If any family members are enrolled in the EFMP program and are approved for command sponsorship, be sure to contact your local EFMP office prior to your departure to verify that the services you require will be readily available when you arrive in Korea.

Soldiers with Exceptional Family Members are required to register for EFMP and keep enrollment information current so family needs will be considered during the OCONUS assignments process. If you are eligible for EFMP services, family members must be screened and enrolled when they accompany authorized servicemembers on OCONUS assignments. Screenings include medical records review for all family members and developmental screening for all children aged 72 months and younger.

For more information about EFMP, contact the EFMP point of contact through your nearest Army medical facility.

## EMBASSIES AND CONSULAR SERVICES

### US Embassy & Services

#### US Embassy Seoul

Location: 188 Sejong-daero, Jongno-gu, Seoul 110-710

Phone: 02-397-4114

Website: <https://kr.usembassy.gov/>

Facebook: US Embassy Seoul

(<https://www.facebook.com/usembassyseoul>)

Hours: Mon-Fri 08:30-17:00, Closed Sat-Sun. Routine services not available on US or Korean holidays.

#### Passports

US Citizen Services encourages all US citizens, including military and dependents, to maintain a valid US passport at all times. Tourist passports are required for personal travel; official or "no-fee" passports should only be used for official travel such as PCS or TDY travel. Always hand-carry your passport when traveling. While sightseeing, keep your passport in a secure location, such as a hotel safe. If you hold a no-fee passport that contains your SOFA stamp, you will need to carry both the no-fee and tourist passports if you wish to visit a country other than the United States. You must show the no-fee passport to Korean authorities and the tourist passport to authorities in other countries (<https://travel.state.gov/content/travel/en/passports.html>).

#### Visas

While stationed in Korea, take advantage of the wonderful travel op-

opportunities in Asia. Before traveling, check the entry requirements for each country you plan to visit. In addition to a valid passport, many countries require US citizens to purchase a visa to enter the country. Country requirements vary as some visas are obtained online, and some must be obtained at the airport upon arrival. Many countries require at least six months prior to the passport expiring and/or two blank pages. For entry requirements for your destination, visit the US Department of State's Bureau of Consular Affairs (<http://travel.state.gov>).

### ***SOFA Stamps***

The US Embassy does not issue Status of Forces Agreement (SOFA) stamps. Please see Chapter 1 "What to Expect When You Arrive" for more information.

### ***Getting Married in Korea***

While consular officers at the US Embassy are not authorized to perform marriages, they can assist US citizens with the paperwork necessary for a legal marriage in Korea. There are specific marriage requirements and protocols for USFK members. It is important to consult with your Command first.

### ***Registering a Baby in Korea***

The US Embassy strongly encourages all US citizens who have children born in Korea to apply for a Consular Report of Birth Abroad (CRBA) and passport as soon as possible after the birth of the child. A CRBA is an official record confirming that the child acquired US citizenship at birth. It is only issued at a US Embassy or Consulate overseas, and only before the child reaches 18 years of age. Remember to obtain a SOFA stamp in the baby's passport.

### ***Naturalization and Immigration***

The Department of Homeland Security (DHS) and US Citizenship and Immigration Service (USCIS) maintain an office at US Embassy Seoul. USCIS can assist with issues such as US citizenship, naturalization, and immigration applications for non-US citizen spouses and family members.

### ***Staying Safe in Korea***

Crime rates in Korea are low compared to the US, but don't let your guard down. The US Embassy has received reports of US citizens who have been victims of crime ranging from petty theft to sexual assault

and rape. Conversely, Americans are arrested in Korea every year for violating the laws of the Republic of Korea. Alcohol abuse is often a contributing factor. If you are a victim of a crime, first call the police by dialing 112. If you need further assistance, contact the Special Citizen Services (SCS) Unit at the US Embassy. Always travel with a buddy.

### ***Staying Connected***

The Embassy encourages all US citizens overseas to register their whereabouts through the Smart Traveler Enrollment Program (STEP) and to receive the monthly newsletter and email alerts. You can also follow the Embassy on Facebook or Twitter. The US Embassy's goal is to reach all US citizens in the Republic of Korea with current security information and other important updates.

### ***US Citizen Services***

Location: US Embassy, 188 Sejong-daero, Jongno-gu, Seoul 110-710  
Phone: 02-397-4114  
Email: [SeoulInfoACS@state.gov](mailto:SeoulInfoACS@state.gov)  
Website: <https://kr.usembassy.gov/u-s-citizen-services/>

For details on US Citizen Services and to download application forms, visit the US Citizen Services website. US Citizen Services at the US Embassy in Seoul are provided by appointment only. The mission of the Passport Office at USAG Humphreys is to support assist DoD servicemembers, civilians, and family members in obtaining official travel documents necessary to facilitate official government travel. Appointments are required for passport applications. Walk-in services include document verification for Social Security Card and ITIN applications, passport pickup, and questions.

Customers pursuing CRBAs must apply directly through the US Embassy in Seoul. The passport office can make certified copies of CRBAs and passports for applying for an infant's Social Security Number.

## Foreign Embassies

Most countries maintain an embassy or consulate in Seoul. They can be very helpful in providing you with travel information for their country and will assist in any visa arrangements if you are not traveling with a group already handling details for you. The embassies will tell you of any necessary vaccinations/immunizations required for travel in their country. Do not expect foreign embassies to warn you of potential difficulties/dangers of travel in their country; most try to encourage tourism. Please visit the Department of State's Bureau of Consular Affairs website at <http://travel.state.gov> to find travel warnings, travel advisories, and entry requirements for specific countries. The library and Internet are good sources for current telephone numbers or addresses. Servicemembers need permission from their command and country-specific training from the Foreign Clearance Guide website prior to any travel abroad.

### Passport/Visa/Immunizations

Check your passport expiration date. Most countries require a passport to be valid for at least 6 months after you depart their country in order to enter. Check the visa requirements for the areas where you plan to travel. Consider checking with your local hospital or clinic for any concerns or vaccines you may need regarding locations you will visit.

Important Reminders:

- Always travel on a tourist passport.
- No fee passports are for Official Travel ONLY.
- Plan ahead.

### Research, Research, Research!

Once a destination has been selected, research! Utilize all the tools the Internet, social media, and personal friends have to offer. Not all places will have perfect weather for the date you may travel. Plan accordingly and either adjust your dates or change destinations. Benefit from the experiences of others. Talk with those who have traveled during their tours in Korea. Their experiences can often save you a lot of time, trouble, and money!

### Destinations

#### Australia

The "Land Down Under" is a popular destination choice with travelers from Korea. There are several package tours available. It is also quite easy to book all of your accommodations and travel online. A visa is required and can be obtained online through the Australian Government's Department of Immigration and Citizenship Electronic Travel Authority. There are a number of direct flights to Australia from Korea on Qantas, Korean Air, and Asiana Airlines. Sydney is a vibrant city and has many things to see and do. Public transportation is reliable and easy to use. Download the Opal app and use it for buses, ferries, and trains. The Australian Naval Base is accessible with a valid US military ID, allowing for a visit to the base which is straight off the harbor. If travel plans are flexible, check into tours of the Gold Coast and the Great Barrier Reef off the coast of Cairns.

Located off the coast of Japan in the Mariana Islands, Guam is a four and a half hour flight from Incheon International Airport. In addition to white sandy beaches and breathtaking views, Guam, a US territory, is home to two military bases where discounted tickets are available for local activities. For a more tranquil setting consider Saipan which is just an hour hop from Guam. This US Commonwealth is smaller and does not have the hustle and bustle of Guam. Both Guam and Saipan have a variety of luxury hotels and recreational activities.

## Hong Kong

Hong Kong is an amazing city with skyscrapers jutting out of the surrounding mountains and the bustling harbor down below. It's truly a shopper's paradise as imported goods enter Hong Kong duty free. Shop carefully and compare prices and quality. Always do business with reputable dealers. Look for the Hong Kong Tourism Board symbol, as it normally indicates an established merchant with a good reputation.

Upon arriving at the Hong Kong airport, pick up one of the free tourist travel kits available in the baggage claim area or download the free app offered by the Hong Kong Tourism Board. The kit contains an excellent map and a good guidebook. The Hong Kong subway can get you just about anywhere you want to go. Buy a tourist pass; it's cheaper and you won't have to wait in the long lines to pay for a ticket each time. The Fleet Arcade shopping area is located on the Hong Kong island side of the city and can be easily reached from the Admiralty Subway Stop. The United States Navy Fleet Post Office (FPO) is in the Fleet Arcade and is a full-service United States Post Office. A commercial packaging facility is located next to the FPO and makes mailing home your purchases very convenient! To use FPO services, identification is required. Payment is accepted in US dollars or by personal check (no credit cards).

If you are looking for a vacation to remind you of the US, Disneyland Hong Kong is a great option. With the least expensive prices of the Disney resorts in Asia, it is an affordable spot to treat your kids or treat yourself like a kid.

### **India**

India has a culture rich in diversity. It is comprised of many languages, religions, traditions and beliefs. This fascinating country is awe-inspiring, though first time visitors may feel overwhelmed as poverty remains a harsh reality for many residents of India. A tourist visa is required to visit this beautiful nation.

### **Japan**

Traveling to Japan from Korea is relatively inexpensive and easy when carefully planned. There are several ways of going to Japan: Commercial airlines, AMC flights from Osan, and by ferry from Busan. Try to use the US military facilities in Japan (particularly the New Sanno in Tokyo) as much as possible because Japan is the most expensive country in the world. The New Sanno Hotel has an extremely high occupancy rate, so make reservations at least six months in advance by calling or visiting their website.

If using commercial transportation while in Japan, consider buying a Japan Rail Pass while still in Seoul as they are not available inside Japan. These passes allow unlimited travel throughout the country and are a real bargain. You may purchase them from Global Travel near City Hall or other agencies in Seoul. There is so much to see and do in Japan that you will want maximum flexibility in getting around. It is also advisable to buy a tourist subway pass (available at the New Sanno or at the airport) for easy movement in Tokyo.

Shopping in Japan can be a very expensive experience if you shop on the Japanese economy. Many Americans have found they get better value by shopping in the arcade at the New Sanno or at the bases located throughout Japan.

### **Okinawa**

One of the four Ryukyu Islands, Okinawa is an easy destination for anyone wanting to use Space A from Osan to Kadena. Utilize the Osan AMC passenger terminal Facebook page for information. The climate of Okinawa is subtropical and an interesting change from Seoul. Shopping for local crafts and fine china is excellent. Be aware that Japanese taxes are expensive. Use base transportation whenever possible to get as close to your destination as possible. The most logical and inexpensive place to stay is Kadena Airbase, which has 24-hour billeting. Another option is the Camp Foster Westpac Lodge. For some family fun time try the Torii Beach Cabins. A secret of Okinawa is Okuma Resort located 50 miles North of Kadena Airbase. There is also occasionally Navy BOQ space available; you can check with the Navy Billeting office in Building 4198 before 4:00 pm.

### **Macau**

This tiny country on the tip of China is often a destination for tourists while visiting Hong Kong. Macau is easily accessible from Hong Kong by ferry or hydrofoil. The Portuguese heritage of Macau has its own special flair. Go to Macau, if for nothing else, to eat the uniquely flavored food and to drink the good, inexpensive wines. Gambling is also a big attraction and huge casinos line the shore. Some of these

casinos boast fabulous restaurants. Excellent, inexpensive places to eat are also easily found.

## Malaysia

Malaysia is an inexpensive and marvelous place to visit. The Malaysians are friendly people, eager to visit with foreigners. English is the dominant language here, making it generally easy to communicate with everyone from the cab drivers to the shopkeepers. Kuala Lumpur is very child-friendly. There are beautiful, clean beaches throughout the country and special package tours for golfers interested in playing on the lush Malaysian courses. Eating and shopping are inexpensive, with the best buy possibly being the beautiful Selangor pewter, produced just outside Kuala Lumpur.

Johor Bahru, located across the Johor Strait from Singapore, is also another rapidly growing tourist location. Consider this as an option when planning a trip to Singapore, as hotels in Johor Bahru are less than half of the cost of hotels in Singapore. Taxis and public transport travel between Johor Bahru and Singapore daily but due to the more than 100,000 Malaysians that use the only bridge into Singapore, a lot of time can be saved by using the public transport system. Families traveling with small children are able to go to the front of the bus lines. The trip takes less than 45 minutes and will save an hour or more during heavy traffic times.

## Nepal/Tibet

These ancient countries in North-Central Asia are visited by few per-

sonnel stationed in Korea. If you choose to go, be prepared for primitive living and traveling conditions along with fascinating cultures. There are travel agents who can arrange treks in the Himalayas of Nepal, but be sure to hire a reputable one and that all arrangements are made prior to departure. Visas for Nepal are purchased upon arrival; have extra passport pictures on hand for the visas.

Tourists wishing to enter Tibet must do so with a group through a travel agent who arranges for visas ahead of time. Neither Nepal nor Tibet has an embassy in Seoul, so all research must be conducted online, or via a good travel agent.

## New Zealand

This wonderfully scenic country is very affordable when traveling from South Korea. Try to incorporate both the North and South Islands into your visit. The North Island offers world-class dining in Auckland, hot water beaches along the Pacific Coast Highway, mud pools and geysers, and a trip to Hobbiton and the Shire (for Lord of the Rings fans) in Rotorua. The South Island's charm is endless and includes six of New Zealand's eight "Great Walks." Stewart Island is one of the best spots to see the rare Kiwi bird. Overnight cruises allow visitors to take in the scenery or spot fur seals and bottlenose dolphins. Korean Air offers non-stop flights to Auckland from Incheon. A visa is required for New Zealand and is easily processed online.

## Singapore

This small island country is a truly international city, and almost every nationality is noticeably represented. Once a British colony, the English language is predominantly used. There are three additional official languages; Mandarin, Malay, and Tamil. Singapore is one of the cleanest and safest cities in the world. The island is small and public transportation is affordable as cars are strictly regulated.

Taxi costs are similar to Seoul, so don't be afraid to jump in a cab because you really don't have far to go. For a family of four, a taxi is generally cheaper than the subway. However, cab prices vary between taxi companies, so beware of deluxe taxis that will cost more.

The most popular places to stay are Clarke Quay, Marina Bay and Chinatown. Chinatown has undergone a gentrification of sorts, and has been brought back to its early 1900s colonial style. AirBnB rentals are easy to find when booking ahead. Avoid going during the Formula One race week in September, unless that is the reason for your visit. Besides road closures and large crowds downtown, hotel prices tend to be very high.

## Taipei, Taiwan

Taipei is Taiwan's largest city and also its capital. Check with the US Embassy before booking a trip. Some of the things to see include the National Palace Museum, Chiang Kai-shek Memorial Hall, Taipei 101 which was the world's tallest building until 2010; Wulai, which is a mountain village famous for the aboriginal village, waterfall, and hot springs; and Taroka Gorge. Popular items from Taiwan are painting reproductions, pottery and other ceramic wares, furniture, jewelry made of coral and other semi-precious stones, Hualien marble, Taiwan jade, temple carvings, hand puppets, old coins, cloison-né, and rosewood furniture.

## Thailand

With its 800-year-old history, vast cultural attractions, exotic beaches, islands, and national parks, Thailand offers something for everyone. Not only are the Thai people very friendly and hospitable, but the country also offers an abundance of amenities. From excellent food to inexpensive quality accommodations, it is an ideal vacation spot for military families. The best buys in Thailand historically have been silk, rubies, and star sapphires. Utilize "Nancy Chandler's map of Bangkok," which is most helpful while visiting the busy city of Bangkok.

### Bangkok

New buildings reach for the sky around the corner from ancient temples, many of which are home to enormous images of Buddha inlaid with gold and mother of pearl. Points of interest include floating Markets, Mae Sa Elephant Camp, the Grand Palace, Wat Po, the National Museum, Nakhon Kasem, Chatuchak Weekend Market, and Pattaya beach resort.

### Chiang Mai

Chiang Mai's reasonable cost and abundance of activities geared to the family make for a very relaxed and enjoyable vacation. The Chiang Mai cultural center has evening dinner shows; khantoke and a dance show is performed most nights with audience participation expected. The massage retreats in Chiang Mai are another popular attraction.

### Phuket

Thailand's largest island, Phuket is famous for its beaches with Patong, Karon, and Kata offering fine accommodations for a Thai vacation. If you prefer peace and quiet, consider staying farther away from these beaches as they can be crowded and noisy. There are many water activities available. Check out the beautiful waterfalls, Ton Sai and Bang Pai. The islands off Phuket (Andaman, Similan, and Phi Phi) offer some of the best scuba diving in Southeast Asia. Phuket tends to be more expensive than other areas in Thailand because it has long been a popular tourist destination.

### Korat

If it's the Khmer culture you are after, then head about 260 km north of Bangkok to Korat where several stunning examples of 12th

century architecture dot the landscape. Plan to visit nearby Phimai, a Khmer complex constructed on a manmade river islet. Its sanctuary tower is home to stunning Khmer artistry.

### ***Koh Samui***

This island has become a popular alternative to Phuket, and lies off the opposite coast of Thailand. Chaweng beach is the most popular area (and can become quite crowded), but there are many other beautiful beaches around the island. Koh Samui is close to Ang Thong National Marine Park, and other popular diving sites.

## **Vietnam**

There are many places to see from Hanoi in the north to Saigon in the south. A visa is required for a visit to Vietnam. It must be secured before travel and will be checked before departure.

### ***Hanoi***

A flight from Incheon Airport to the northernmost city of Hanoi is about four hours. There are many places to visit in this historically rich city. The excavations at Hanoi Citadel, floating villages, military history museums, art museums, temples, pagodas, markets, and a myriad of other tourist venues which are scattered in and around this historical city. Places of interest in Hanoi; Hoa Lo Prison, the Old Quarter, Thang Long Water Puppet Theater, Ha Long Bay, and the many caves and grottoes.

### ***Saigon- (Ho Chi Minh City)***

Saigon teems with energy, activity, and motion and everywhere you look seems to be a meeting of traditional and modern life. Visit the Reunification Palace, formerly the Independence Palace of the South Vietnamese president that was famously stormed by tanks in 1975 and signified the fall of South Vietnam. Visit the bustling markets and tour the temples and museums of Saigon.

**CHAPTER 8 PCSING FROM KOREA**

---

## PCSING FROM KOREA

As your time in South Korea draws to an end and you prepare to depart from the Land of the Morning Calm at the end of your tour, try to address any unresolved issues, all unfinished, and all incomplete business before departing the peninsula. Once you leave South Korea, it can be very difficult to resolve items left unfinished, especially when you are no longer in the same time zone.

### Levy Brief

Once your Sponsor has received their RFO (Request for Orders), the official document notifying them and their unit of the upcoming PCS (Permanent Change of Station), they may attend their Garrison's Levy Brief. At USAG Humphreys, the Levy Brief is held every Wednesday at 13:00 in the Troop Theater, BLDG 6806, between the McGinnis Warrior Zone and the Troop Express. For USAG Daegu, the Levy Brief is every Wednesday at 10:00 on Camp Walker, BLDG 330, Room 315. Once your Sponsor has notified their S-1 that they have completed their Levy Brief, they will cut their orders and you can begin the process of PCSing from South Korea.

## Personal Property

### Household Goods (HHG)

It is time to pack up your HHG! Sort your possessions into categories: Household Goods (larger-item shipment that will take an estimated 60 to 75 days to return to CONUS), UAB (the “quick ship” smaller-item shipment), luggage (items that you will pack and carry with you), and items

to donate/discard. It is a great idea to make a list for each shipment and physically separate (as much as possible) the items that are in the different shipments, as sometimes things can get included where they should not. Make sure to clearly mark “borrowed government furniture” so that packers do not pack these into your HHG shipment. Physically set aside the items you will hand carry in a closet or room that is marked off-limits to packers.

An amazing resource is the Military One Source PCS & Military Moves webpage: <https://www.militaryonesource.mil/moving-housing/moving/pcs-and-military-moves>. They have helpful tips and tricks on how to keep things a bit saner and more organized. It gives you step-by-step instructions on everything you need to do to pack up and ship out. It also provides information on how to file claims for any damage incurred during the move once you arrive at your new duty station.

Plan the dates that you want to receive your household goods at your new duty station. You will also be asked to schedule the delivery date for Non-Temporary Storage (NTS) items (items that were in storage while you were in South Korea). The items in storage will be shipped to you and may arrive much earlier than your HHG shipment will arrive.

## Unaccompanied Baggage (UAB)

UAB are items that you will have to live on until you leave once your HHG have been packed and shipped and when you first arrive at your new duty station. UAB will ship via air cargo and should be relatively quick. It is limited to 2,000 lbs. and cannot include furniture or major appliances. Remember that the UAB weight is part of your total HHG weight allowance. What you put in your UAB should be planned carefully, as the rest of your HHG can take two to three months in transit.

### Suggested UAB Checklist

- Pots and pans
- Cooking utensils
- Silverware
- Plates and bowls
- Linens
- PC/Laptop, printer, and paper
- Clothing and shoes (plan for the weather at your destination for the coming two to three months)
- Small tool set (including scissors)
- Small TV/DVD player

- Cleaning supplies (e.g. mop, broom, and vacuum)
- Pro-Gear
- Phone and charging cords

There are several Facebook groups dedicated to selling and giving away items around the different posts in Korea.

## **Privately Owned Vehicles (POV)**

Before you can do anything with your POV, you must ensure that all outstanding fines, including traffic tickets and toll violations have been paid in full.

If you need to trash or junk your vehicle, you need to coordinate with an off-post facility to dispose of it. On the day of junking, remove the USFK window decal, and provide the Korean vehicle registration, USFK Form 207, the vehicle to be junked, and all keys that go with that vehicle to the junking facility. Check with the junking facility to see if there are any additional requirements. After the vehicle is junked, get a Certificate of Junk with the correct Vehicle Identification Number (VIN) on it. You need this to deregister your vehicle. See the deregistration checklist on the next page.

If you plan to sell your vehicle, you need both the Korean and USFK registrations, a USFK safety inspection (depending on the manufacture date of your POV), USFK Form 20-E (Bill of Sale), and USFK Form 32EK-E (Application for Cancellation of USFK POV). You must then go with the buyer to the DMV to transfer registration. Only a person that is authorized a vehicle is able to purchase it from you. There are several Facebook pages where you may list your vehicle for sale, simply search "Humphreys Car" for available pages and groups.

NOTE: You must sell your vehicle before you leave Korea. USFK Regulation 190-1 provides specific information on when you are authorized to give someone else a Power of Attorney to sell your vehicle. At the time of this publication the only authorized situations are: you have a short notice PCS assignment or humanitarian assignment and received less than 90 days notice; you leave on Emergency Leave and may not be returning; the member has been court-martialed and will enter confinement, or the member has been medically evacuated to the US and will not be returning.

The best vehicle shipment resource is the Vehicle Processing Center (VPC) website: [www.pcsmypov.com](http://www.pcsmypov.com). Check this website for any policy changes prior to your PCS. Below is a checklist to keep track of what you need to ship your POV.

You will need to deregister your vehicle at your DMV. Ensure you do not have any fines or tickets to pay. You cannot deregister your vehicle if fines or tickets are not settled in full. You need to go to the DMV where you registered your vehicle. There are some special instances where you might need someone else to deregister for you. The person you pick will need to fulfill certain criteria. Make sure the person you are asking has proper authorization or you will not be able to get the Special Power of Attorney (SPOAs) they will need to help you. You can get more information on SPOAs from your Client Legal Services.

**TIP:** If you purchased a new vehicle in Korea, contact your sales agent to verify their shipping procedures and your arrangements to claim the vehicle in CONUS.

### **Shipping Your POV Checklist**

In order to ship your POV, you will need:

- Official Orders (always carry several copies)
- Proof of Entitlement
- Proof of Identity
- Proof of Ownership, Title and/or Registration of the car
- If applicable, Lien Holder Shipment Authorization Letter
- If applicable, Lease Holder Shipment Authorization Letter
- Power of Attorney (if someone other than the servicemember is dropping the car off for shipment)

## **Pets**

In general, taking your pet, cat or dog, to the US is easier than bringing them to Korea. Most animals meeting Korean requirements will meet US requirements. Korea requires a Korean Health Certificate for any pet to leave the country. These requirements apply equally to service animals, such as Seeing Eye dogs. Pet cats and dogs are subject to inspection at ports of entry. If a pet appears ill, or evidence of infectious disease is present, further examination by a licensed veterinarian (at the owner's expense) may be required and entry into the US may be denied.

Besides the US, some countries require pets to complete a Fluorescent Antibody Virus Neutralization (FAVN) test within 180 days of departure. Keep the results readily available to present upon arrival.

Remember, a FAVN is good for two years or longer, depending on where you are traveling. If completing a FAVN test in Korea, the blood sample is sent to the US for lab testing and can take four to eight weeks for the results. You can complete FAVN tests if you are 180 days prior to an anticipated PCS and have not yet received orders. An internationally approved laboratory or a competent authority of the exporting country must administer the rabies-neutralizing antibody test within 24 months prior to departure.

**TIP:** Research the country of your projected next duty station as early as possible and begin preparation six to eight months before moving. The Veterinary Treatment Facility (VTF) maintains a packet called "International Pet Travel" that addresses all necessary actions and paperwork required to travel internationally to varying countries.

If you are going to the US, check with the vet to ensure your pet is ready for the trip and begin the paperwork listed below that is necessary for travel. The post veterinary office will also provide additional information you need for your travels. For your pet to travel with you, obtain a health certificate within ten days of your pet's travel date. We recommend utilizing a military veterinarian, as they have the USDA endorsement required for health certificates. Additionally, you are required by Korean customs regulations to complete pet export documents. You must obtain these forms within three days of the travel date and can be completed at the Pyeongtaek Port for ₩10,000 or approximately \$10. Please note, if you are not the servicemember, you need to take your passport with you to the port to receive the Korean Health Certificate. Schedule these appointments ahead of time, once you know your pet's travel date.

## Outbound Pet Travel Required Paperwork Checklist

### Before Travel:

- All dogs leaving Korea must have a microchip.

### Within a Year of Travel:

- Valid Rabies Vaccination Certificate within the last year. For travel you will need two original rabies certificates signed in blue ink. If the pet is young, the rabies vaccination must be 30 days prior to arrival.

### Within Ten Days of Travel:

- USDA Health Certificate (APHIS form 7001)
- Korean Health Certificate (obtained after your USDA 10-day Health Certificate). This certificate requires that you have an original copy of the USDA Health Certificate and Rabies Vaccine Certificate.

Make a tentative timeline of when you plan to vacate housing, stay in lodging, fly to your next duty station, and/or leave destination. You can reserve tentative lodging dates up to six months in advance, without any paperwork. These dates can be adjusted later, but if you wait, rooms may no longer be available. If you reside on-post, you are authorized three nights lodging prior to travel date, but you may reserve more and pay out-of-pocket. If your travel dates fall over a weekend, you can stay up to five nights. If you reside in off-post housing, you are authorized ten nights of lodging prior to departure.

## Force Protection and Emergency Readiness

Korea remains a relatively safe country; however, it is important to take certain measures to ensure your safety during your stay.

US military installations are secure facilities. No one is allowed access to the post without a valid ID card. You must physically hand ID cards to the guards, so they are able to view both sides. In addition, only vehicles with proper registration decals are allowed access to the post. Authorized ID card holders may escort visitors and vehicles onto the post.

As with all US military installations on the Korean peninsula and around the world, security procedures are based upon levels of force protection conditions (FPCON). Force protection levels range from FPCON Alpha (lowest threat) to FPCON Delta (highest threat). The current FPCON level is posted at the installation buildings, facilities, and gates. The commander’s channel on the American Forces Network (AFN) is a good source for learning the most current information.

Demonstrations are periodically held throughout the peninsula. Protesters demonstrate for a variety of reasons, including opposition to the US military presence in Korea. These demonstrations are sometimes held just outside the garrison gates. Military officials publicize warnings affecting those affiliated with the government on the post TV channels, Facebook pages, and radio stations (88.3 FM). National Police are always present at these demonstrations to provide additional security. Most importantly, the buddy system is highly encouraged, and is sometimes mandatory.

For more information on Force Protection, visit: <https://www.usfk.mil/Resources/Force-Protection/>

## Health Protection Condition

The Department of Defense Public Health Emergency Management policy assigns health protection condition (HPCON) levels in response to disease outbreaks, such as the spread of COVID-19. (HPCON). Health protection levels range from HPCON Alpha (lowest threat) to HPCON Delta (highest threat). The current HPCON level is posted at the installation buildings, facilities, and gates. Commanders review and update the HPCON based on risk levels within a local community and in cooperation with local, state or host nation guidance. Military leaders and

public health personnel use them to guide actions taken in response to a health threat.

As with all US military installations on the Korean peninsula and around the world, security procedures are based upon levels of health protection conditions (HPCON).

Military officials publicize information impacting HPCON levels for those affiliated with the government on the post TV channels, Facebook pages, and radio stations (88.3 FM). For those living on-post, the commander's channel on the American Forces Network (AFN) is a good source for learning the most current information.

## Civil Defense Drills

South Korea routinely conducts nationwide civil defense drills as part of their emergency readiness plan. The start of the drill is signaled by the ROK government's Air Raid Siren System, and the exercise lasts 20 to 30 minutes. During the drill, all personnel off post are expected to comply with the directions of the Korean National Police and other ROK government officials.

## Noncombatant Evacuation Operations (NEO)

While Korea is a relatively safe location, it is important that all non-combatants be prepared to evacuate both quickly and safely. Noncombatant Evacuation Operations (NEO) are directed by the US Department of State to evacuate eligible personnel from foreign countries when their lives are endangered by war, natural disaster, or civil unrest. The US Embassy (AMEMB) Seoul designates those authorized with evacuation assistance.

Those considered noncombatant evacuees include:

- US citizens who may be ordered to evacuate
- US government civilian employees and dependents
- US Armed Forces family members
- Designated US Armed Forces military personnel

US/non-US citizens who may be authorized assistance:

- Private US Citizens and their dependents
- Legal US Permanent Residents
- Designated Foreign National Employees of the US Government and their dependents
- Designated Foreign Nationals

Both command sponsored and non-command sponsored families are eligible for evacuation assistance from Korea. Military members and emergency essential civilian employees are not considered noncombatants and will remain in Korea until directed otherwise

## NEO Warden

Each unit in South Korea has an assigned NEO warden. All DoD-affiliated noncombatants must register with their NEO warden upon arrival to their unit. To help noncombatants prepare for a possible evacuation, USFK conducts a semi-annual NEO exercise called Courageous Channel. All DoD-affiliated noncombatants are required to participate in these exercises in order to rehearse evacuation procedures and to train personnel who support NEO execution. In addition to participating in Courageous Channel, each family is required to maintain a NEO kit that includes important documents, enough food and water for three days, and protective gas masks (issued by the military for each dependent). Your NEO warden will help you prepare your NEO documents and ensure you are ready for the exercise.

### **Gas Masks**

Sponsors are responsible for drawing a gas mask at CIF for each dependent and for training their dependents on how to use them. Masks are available for both command-sponsored and non-command sponsored military dependents, as well as US DoD civilians and dependents. They are not available for contractors or technical representatives (the corporation holding the contract must provide the masks).

### **NEO Binder Checklist**

Your NEO warden will help you prepare a NEO binder to include in your NEO kit. At a minimum, you should plan to include the following:

#### *Mandatory Items*

- Identification Cards
- Passports
- Family Care Plan (single and dual military parents)
- Prepared Forms

#### *Recommended Items (Hard to Replace Items)*

- Birth, marriage, and adoption certificates
- Naturalization certificate
- Powers of attorney
- Will
- Insurance policies
- Checkbook, credit cards, financial records
